[Activity Log](#)

Your Phase I Application must be submitted AND approved before continuing.

Phase II

(answers are saved automatically when you move to another field)

Instructions [Show/Hide](#)

****Phase II is still in draft mode. It will unlock if your project is eligible for federal funding, which requires additional information.****

Please be sure to answer each question thoroughly. If a question is not applicable, please enter "N/A" and a brief explanation, as the system will not allow you to submit your application if any question is left blank. Additional information is described in italics below each question. Additional instructions and resource materials may be accessed under the "Library" tab. If you submit your application, you may still make changes to your application up to the deadline. All changes made to your application made after submittal, but before the application deadline, will automatically be saved - there is no need to resubmit.

1. Indicate if this application is for a new project or if it will add funds to an existing project:

Check the box that best represents your project.

- This is a new application; project currently has no funding (list committed resources below)
- Project is partially funded but needs additional funding (provide reference or key number below)
- Current funding is federal (specify source below)
- Current funding is local (specify source below)
- Current funding is from some other source (specify source below)
- Other attempts to obtain funds have been made but were not successful (specify below)
- Other (explain below)

2. Please provide additional explanation, based on your response to question #1:

If project currently has no funding, list committed resources. If partially funded, provide the reference or key number and why additional assistance is needed. Specify the source. Also include previous attempts for funding.

Maximum characters: 500. You have characters left.

3. How will this project improve safety?

Provide a summary of crashes or incidents at this location. (Specific information will be requested in a later question.)

- PHASE II SAMPLE APPLICATION -

Maximum characters: 300. You have characters left.

4. Is the project located in an Environmental Justice (EJ) Consideration or Economically Distressed (ED) Area?

Select all that apply. Reference materials are located in the Library section of this application.

- EJ Minority Populations
- EJ Low Income
- Economically Distressed
- None of the Above

5. Provide explanation, if necessary, based on your answer to Question #4:

Maximum characters: 300. You have characters left.

6. Did the COMPASS environmental suitability analysis identify potential environmental considerations in the project area? If so, please explain.

Reference materials are located in the Library section of this application.

Maximum characters: 500. You have characters left.

7. Provide any other relevant information regarding this project:

Other specific information is requested based on your next answer. If you cannot tell the entire story about your project within the following questions, please return here and add content needed to complete your story.

Maximum characters: 2000. You have characters left.

PROJECT TYPE

Note: This is a branching question. Based on your answer, the system will skip ahead to only the questions applicable to your answer, so disregard question sequencing.

8. Indicate which of the following project types best describes your project.

If more than one answer applies, choose which represents the primary scope of the project.

- Roadways/Bridges
- Alternative Transportation

- Planning and Special Studies

Roadways/Bridges

9. Road & Bridge Maintenance: What is the functional classification of the roadway segment on the 2025 Federal Functional Classification Map?

Refer to the Functional Classification map in the Library section of this application.

- Interstate
- Proposed Interstate
- Principal Arterial
- Proposed Principal Arterial
- Minor Arterial
- Proposed Minor Arterial
- Collector

10. What is the life cycle cost?

Briefly explain method for determining the life cycle cost for the project.

- PHASE II SAMPLE APPLICATION -

Maximum characters: 500. You have characters left.

11. What is the pavement condition index or bridge sufficiency rating?

Provide sources used to make your determination.

Maximum characters: 500. You have characters left.

12. What is the current average daily traffic volume?

Include a sample traffic count for weekday (Tuesday, Wednesday, or Thursday). Refer to the Roadway Traffic Count Link located in the Library section of this application.

Roadway

13. Provide further explanation of how current average daily traffic volumes were determined.

Include an explanation of the method used to collect counts and the anticipated change in volume as a result of this project, if applicable.

Maximum characters: 800. You have characters left.

14. Is the project located on a freight corridor identified in CIM 2040?

Refer to the Communities in Motion 2040 freight corridor list in the Library section of this application (see page 85).

- Yes
- No
- Partial

15. What project elements/improvements for alternative modes will be included as part of this project?

Check the boxes for projects that will ADD or UPGRADE the following types of alternative modes of transportation or the facilities that support them.

- Bicycle ADD
- Bicycle UPGRADE
- Pedestrian ADD
- Pedestrian UPGRADE
- Public Transportation ADD
- Public Transportation UPGRADE
- None or Other (explain below)

16. Explain how project activities will add, upgrade or improve alternative modes of transportation described in Question #15. Describe how the COMPASS Complete Streets Policy is incorporated into this project?

Refer to the COMPASS Complete Streets Policy in the Library section of this application.

- PHASE II SAMPLE APPLICATION -

Maximum characters: 1000. You have characters left.

17. Explain how the facility is currently congested and how this project will mitigate the congestion issues.

Include as much data as possible. Contact COMPASS staff for further assistance.

Maximum characters: 800. You have characters left.

18. Explain if this project includes Intelligent Transportation System (ITS) improvements or modifications.

Refer to the Treasure Valley Transportation System: Operations, Management and ITS Plan in the Library section of this application.

Maximum characters: 800. You have characters left.

Alternative Transportation

19. Alternative Transportation: What are the primary trip purposes for this project?

Check the box(es) that represent your project.

- Nutrition/Groceries
- Shopping
- Health/Medical
- Employment
- Civic Engagement
- Recreation
- Other:

20. Is the scope of the project local or regional in nature?

Check the box that represents your project.

- Local
- Regional

21. Does the project include land purchase?

Check the box that represents your project. If "other" is selected, please specify.

- Sponsor owns dedicated right-of-way for the project
- Project requires land purchase
- Project requires easements from individual land owners
- Project requires agreements for right-of-way from a separate agency
- Other:

22. How does the project support or connect with existing transportation services?

Provide proximity to public transportation or other existing transportation services.

- PHASE II SAMPLE APPLICATION -

Maximum characters: 800. You have characters left.

23. If eligible for Transportation Alternative Program (TAP) funding, have you discussed this project with the ITD District 3 TAP Coordinator (Blaine.Schwendiman@itd.idaho.gov) for suggestions about budget and timeline?

Please explain and provides dates of contact with Blaine Schwendiman.

Maximum characters: 500. You have characters left.

24. What is the current average daily traffic volume?

Include a sample traffic count for weekday (Tuesday, Wednesday, or Thursday). Refer to the Roadway Traffic Count Link located in the Library section of this application or contact COMPASS staff for assistance.

- Roadway
- Bicycle
- Pedestrian

25. Please provide additional information to explain Question #24, if necessary.

Maximum characters: 500. You have characters left.

26. Which mode(s) will the project include as its focus?

Check the box(es) that represent your project.

- Pedestrian Focus
- Bicycle Focus
- Public Transportation Focus

Other:

27. Provide explanation for your answer to Question #26 regarding how the project will improve the mode(s) of transportation:

- PHASE II SAMPLE APPLICATION -

Maximum characters: 500. You have characters left.

28. Specify if the project seeks vehicle replacement and explain the strategy used to determine that a replacement is necessary (useful life, mileage, etc).

Is the project listed in Valley Regional Transit's Transit Asset Management Plan? (The plan is still in process. Contact Valley Regional Transit staff for information.) If not, is the asset listed in a local plan? Please identify the plan and page.

Maximum characters: 255. You have characters left.

29. Identify aspects of this project that address customer service and mobility support.

Are there aspects of the project specific to meeting mobility goals and/or that address customer service shortfalls?

Maximum characters: 255. You have characters left.

30. Studies and Special Projects: Is the project needed to meet or exceed federal requirements?

Provide an explanation to your answer, including if the project provides information or background for federally required planning elements. Federal requirements can be found in the Code of Federal Regulations, sections 23 and 49.

Maximum characters: 500. You have characters left.

Studies and Special Projects

31. Does the project include planning or implementation for multiple modes?

Check the box(es) that represent your project.

- Automobile
- Freight
- Public Transportation
- Pedestrian
- Bicycle
- Other:

32. How will the project lead to improvements that could mitigate congestion?

Maximum characters: 300. You have characters left.

33. Will the project lead to improvements to help achieve other goals in CIM 2040?

Check the box(es) that represent your project. Refer to the Communities in Motion 2040 Goals in the Library section of this application.

- Transportation
- Land Use
- Housing
- Community Infrastructure
- Health
- Economic Development
- Open Space
- Farm Land

34. Explain how this project meets the goals selected in Question #33.

- PHASE II SAMPLE APPLICATION -

Maximum characters: 800. You have characters left.

35. Is the scope of the project local or regional in nature?

Check the box that represents your project.

- Local
- Regional
