

Thank you for your interest in Let's Ride Treasure Valley –

Thank you for your interest in Let's Ride Treasure Valley – a study to examine potential future high-capacity transit service (e.g., rail, light rail, bus rapid transit) between the Cities of Boise, Meridian, Nampa, and Caldwell south of the Boise River. This study is looking at options south of the Boise River only. High-capacity transit along State Street, north of the Boise River, is in the planning stages and is outside of the scope of this study.

COMPASS has just completed evaluating a combination of different route and “mode” (type of service, such as bus or rail) options and is looking for your feedback on the results of that analysis.

Learn about the study online and share your input on the route/mode combinations, analysis results, and options proposed to move forward in the study. Visit compassidaho.org and click on “Let's Ride Treasure Valley.”
