**RE: Technical Corrections for the FY2021-2027 Regional Transportation Improvement Program**

Dear Matt,

While researching the FY2021-2027 Regional Transportation Improvement Program, it became evident that there were numerous errors in the reports. Upon investigation, it appears there were technical difficulties causing the reports to print improperly. The reports are now updated with accurate information. Staff will be diligent in checking this possible issue in the future.

This memo serves as documentation in case a report was printed or reviewed while errors were present on the COMPASS website.

Sincerely,

/s/ Toni G. Tisdale

Toni G. Tisdale
