COMPASS Board of Directors

August 18, 2025

Item IV-A

Transportation in Garden City

Mayor John Evans

COMPASS
August 18, 2025, 1:30pm

This presentation outlines Garden City's transportation challenges and priorities.

Transportation Context in Garden City

Garden City is a **small municipality** facing **urban-level transportation challenges**.

Garden City has **NO impact fee eligible** roads.

Three State highways, including Chinden Boulevard, are the principal roadways through the city, carrying significant regional traffic and serving as a vital regional corridor, but they **create barriers** for connectivity within the city.

The east side of Garden City has little room to expand right-of-way, but lacks infrastructure such as systematic drainage and sidewalks.

Chinden Blvd

Principal road through Garden City

Regional traffic - police loading

Unrestricted access and left turns

Lack of pedestrian facilities

Safe Access to Arterial Roads

Density can be constrainedreduce density or right-inright-out

High speeds with unrestricted left turns

Lack of frontage/backage roads to provide options

Connected Low-Stress Bicycle Options

Greenbelt is congested

Schools, businesses, and residents want connected facilities within the city

Pedestrian Crossings

Chinden, State Street, and Glenwood create a barrier between the properties on either side of the roads that separates school children, residents, employees, and patrons from being able to move within the city.

Concern that stopping regional traffic can cause fenderbenders due to inattentive drivers.

Complete Streets

Sidewalk infill, street trees, utilities

Existing standards can be difficult to achieve due to drainage needs and constrained right-of-way

Connections in the Eastern Part of the City

Allow for Secondary Fire Access

Adams Street

- -42nd/ VMP intersection
- -Anticipated to have increased usage

Remington/Alworth/52nd

-Increased traffic at The Park at Expo Idaho is anticipated to cause disruptions

Marigold & Coffey Streets

-Used as a cut-through to avoid congestion at the intersection of Chinden Blvd & Glenwood Street

Chinden Boulevard

-Design and Drainage Plan in progress

Sidewalk Glenwood Bridge to Riverside Drive

-Design in Progress

Glenwood Street

-Congested

Greenbelt Widening

Greenbelt Conversion to Concrete

-Longevity and fire connections

Greenbelt Connections

-52nd Bridge (on hold)

Thank you!

Item V-A

Topic: FY2025 UPWP

Purpose: Approve Revision 3 of the Fiscal Year 2025 Unified Planning Work Program and Budget

Meg Sonnen
Director of Operations

Process

Questions?

Recommended Motion

 COMPASS Board of Directors approves the FY2026 Communities in Motion Implementation Grant and Project Development Program rankings.

Item V-D

Topic: Amend CIM 2050 and Approve FY2026-2032 Regional Transportation Improvement Program (TIP)

Purpose: Adopt resolutions amending CIM 2050 and approving the TIP.

Austin Miller
Principal Planner
Planning Team Lead

Toni Tisdale Principal Planner Resource Development Team Lead

Why the amendment?

CIM 2050 <u>funded</u> projects include:

- Capital projects on I-84, state highways, principal arterials
- Intersections use federal funds
- Other projects that use federal funds

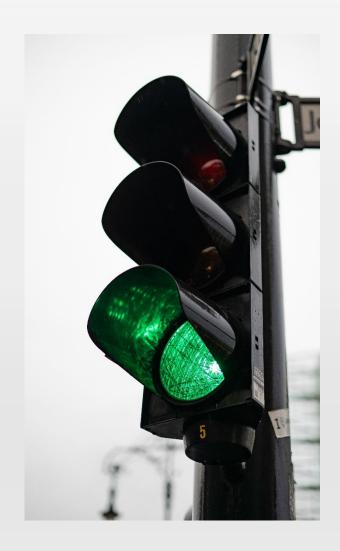

Why the amendment?

Amendment to CIM 2050...

... mirrors changes to local plans, capital improvement programs and budgets

... enables work to begin on funded projects

Amendments

Resolution 15-2025

• Amend CIM 2050

Resolution 16-2025

• Adopt FY2026-2032 TIP

Amending CIM 2050

Add funded roadway projects:

- Widen Ustick Road from Franklin Boulevard to 11th Avenue
- Widen Middleton Road from Lincoln Road to Bass Lane

Add funded pathway projects:

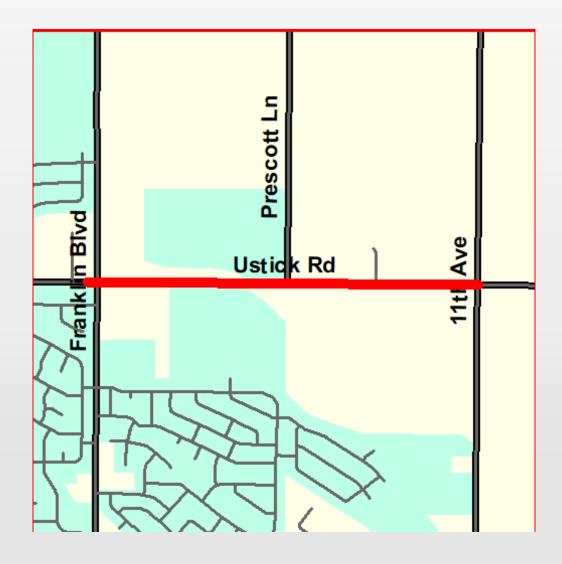

- Build new pathway Ridenbaugh Canal from Maple Grove Road to Milwaukee Street
- Build new pathway State Highway 44 from Star Road to State Street

Ustick Road

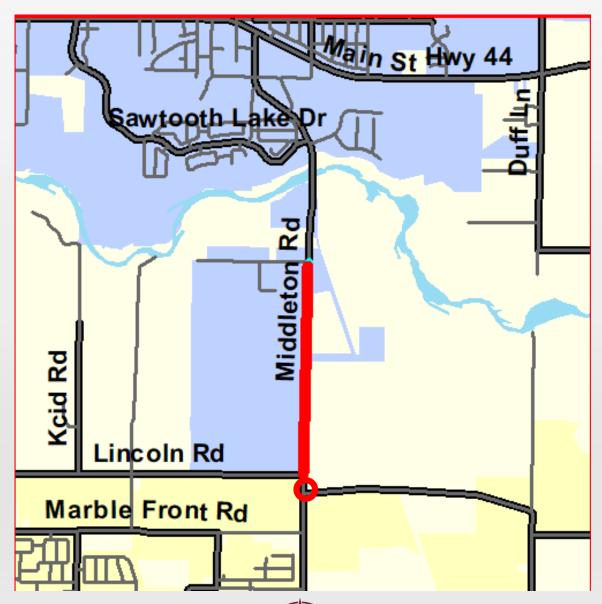

- CIM 2050 #3 priority local roadway corridor
- Four through-lanes
- Raised median
- Pathway

Middleton Road

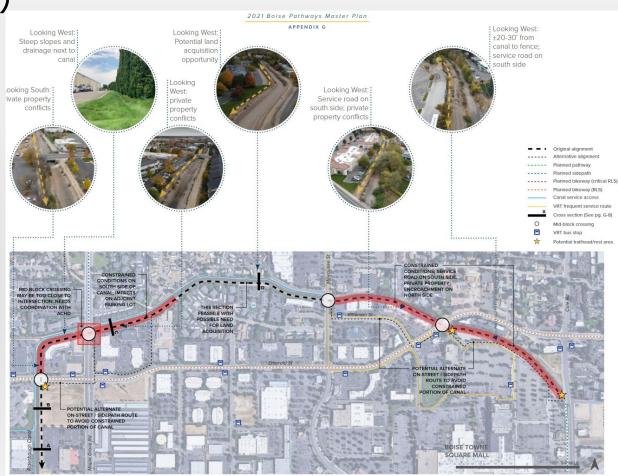

- CIM 2050#1 priority local roadway corridor
- Cooperative project with:
 - City of Middleton
 - City of Caldwell
 - HD4
 - Private Developers

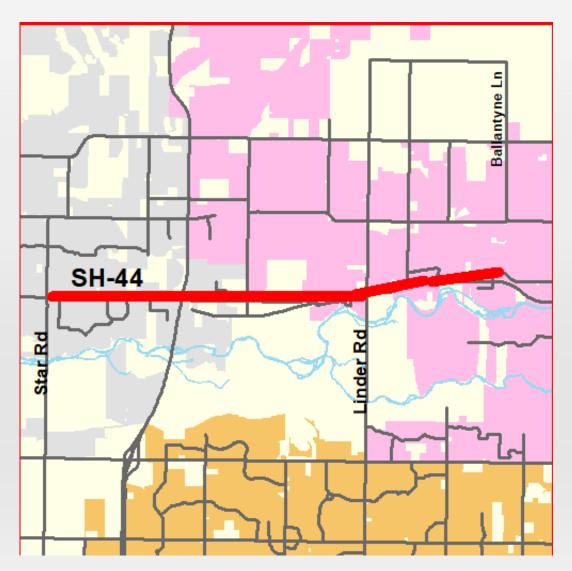

Ridenbaugh Canal - Pathway

- Connect Maple Grove and Milwaukee
- High Priority in CIM 2050 (unfunded)
- 12-feet wide

State Highway 44 – Detached Pathway

- South side
- 5.5 miles!
- Construction 2029

Timeline

Public comment period

COMPASS Board requested to approve amendment

RTAC recommended approval

August 6

Public Comments

I think these proposed amendments would be a great addition especially the multi-use pathways.

The Boise Valley needs a bypass south of town...

Ramp metering should be considered sooner or later...

...please consider excessive queuing of vehicles for left hand turns and right hand turns which delays traffic.

I support adding projects, the more the better.

While widening roads it not the best use of money, glad to see that there is additions for other forms of transportation.

 - 23 comments FY2026-2032 TIP

Overview of Public Comments

We need more public transportation that runs more often for people who can't drive or don't have cars.

I support any that help reduce congestion and make my travel time to and from work more manageable.

I like the changes to Glenwood street pathway....

I support more pathways and light rail projects...

Someone needs to make sure the developers of all the subdivisions that keep going in are paying their fair share for the roads, water, etc... I have to trust you on these. I want trains.

I have some concerns about the proposed project at Linder Road from Overland to Franklin...

FY2026-2032 Boise County List

See page 139 and Supplemental

FY2026-2032 Boise County Detailed Project List

All costs in current dollars

Gardena Bridge Replacement, Boise County

Key #: 24261

Requesting Agency:Boise CountyFund Source:Bridge (Local)Project Year:2030Program:Off-System Bridge

Total Previous Allocations: \$0 Local Match: 09

Total Programmed Budget: \$3,339,000 Total Cost (Prev + Prog): \$3,339,000

Project Description

Construct a bridge 1,500 feet from the existing bridge at Gardena in Boise County. The bridge will be designed to current standards with an increased width, improved approaches, railing, transitions, and approach guardrail.

Year	Design	Construction	Total	Federal Share	Local Share
2027	\$1,300,000	\$0	\$1,300,000	\$1,300,000	\$0
2030	\$0	\$2,039,000	\$2,039,000	\$2,039,000	\$0
Fund Totals:	\$1,300,000	\$0	\$3,339,000	\$3,339,000	\$0

Grandjean Road, Pavement Improvements, Boise County

Kev #: 24727

Requesting Agency: Boise County Fund Source: Bridge (Local)

Western Federal Lands Program: Federal Lands Transportation Program

Attachment 4

Project Year: 2027 Local Match: 7.34%

Total Previous Allocations: \$0
Total Programmed Budget: \$1,500,000
Total Cost (Prev + Prog): \$1,500,000

Project Description

Improve road and surfaces on Grandjean Road in Boise County to restore and rehabilitate the roadway.

Year	Design	Construction	Total	Federal Share	Local Share
2027	\$0	\$1,500,000	\$1,500,000	\$1,389,900	\$110,100

3 Key Tier 3 Takeaways

Screening Criteria

Best connectivity to the bicycle and pedestrian network

TOP
PERFORMING
ROUTE
Fairview Avenue/
Franklin Road
BRT

- Fastest travel time
- Greatest support for growth and economic development
- Highest projected transit demand
- Greatest capacity for peak-hour transit demand growth
- Greatest projected benefit to the complete transit system
- Fewest potential residential and commercial property acquisitions/relocations

Fewest traffic impacts

TOP
PERFORMING
ROUTE
I-84/I-184 BRT

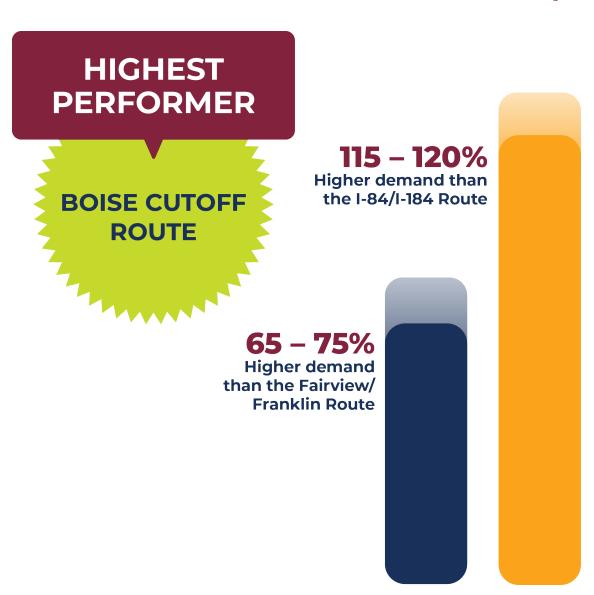

TOP PERFORMING ROUTE

Boise Cutoff Rail

Ridership

- Comparative analysis to determine potential for generating ridership (demand)
- Similar attributes
 - Local markets served
 - Number of stop locations
 - Type of stop locations
 - Length of alignment
 - Level of service/frequency of service
- Primary differentiator was travel time/travel speed

Comparative Parametric Estimates

- Parametric cost estimate
- Approximately ~0-5% design details
- Assumes most conservative design including widening and property acquisition
- Includes 40% contingency
- Does not account for potential phasing
- Does not account for cost reductions and value engineering

Implementation + Funding

Focus

FTA Capital Investment Program -New Starts

Fairview Ave/Franklin Rd

Bus rapid transit (BRT) – exclusive guideway (center)

- Consider segments
- For example, downtown Boise to Meridian, Meridian to Nampa, Nampa to Caldwell
- Lesser priority, but improved from "mixed traffic"

Peer: Metro BRT Network, MN

Boise Cutoff

Regional – commuter rail

- Consider incremental improvements
- Increases with ridership
- Single track (potential for sidings, based on freight rail needs)
- Simple station infrastructure
- Repurposed vehicles

Peer: Northwest Rail, CO

I-84/I-184

BRT – business access and transit (BAT) lanes (side)

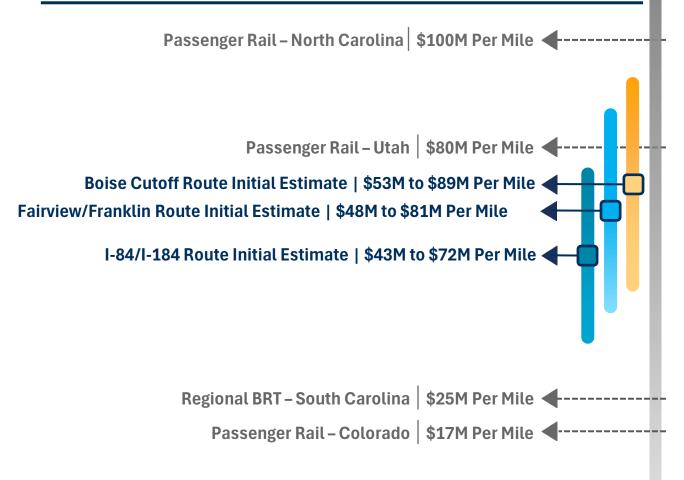

- Consider incremental improvements
- High-capacity commuter bus in mixed traffic and/or using existing shoulders

Peer: Woodlands Express, TX

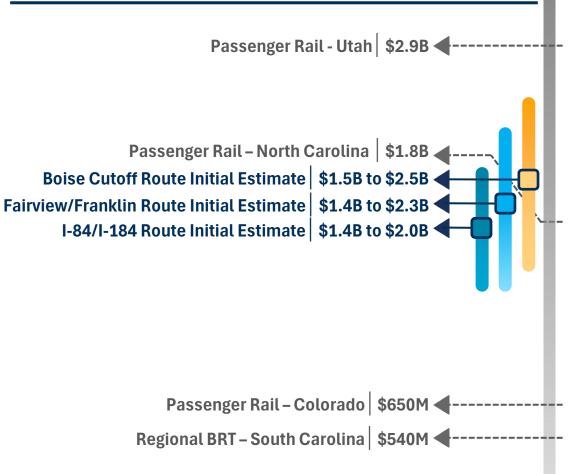

Comparative Parametric Estimates

Comparative Project Cost Range Per Mile (approximate)

Comparative Project Cost Range (approximate)

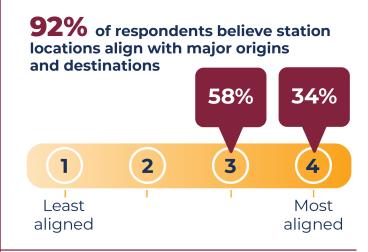

What Did Stakeholders Say?

- Self-guided online meeting and from June 6-29
 - 1,937 total users
 - 498 questionnaire respondents
 - Eight emails were received (outside of the questionnaire)
 - Top five users by IP address location
 - Boise
 - Meridian
 - Nampa
 - Caldwell
 - Eagle

80% of respondents believe the... **BEST CHOICE** FOR TREASURE VALLEY **BOISE CUTOFF** ROUTE (commuter rail) TOP THREE REASONS respondents believe their choice is best for the region **25%** Efficiency 23% Transit Ridership 21% Reliability

TOP THREE CHALLENGES

to implementing high-capacity transit service

RTAC Recommendation

Recommended route and mode

Boise Cutoff and commuter rail

Request for Board action

Approve the Boise Cutoff commuter rail route as the preliminary locally preferred alternative

Benefits of acting now

- Potentially save time and money
- Use results of this study to:
 - Focus on the primary corridor and mode
 - Simplify federal compliance and streamline future environmental analysis
 - Clarify direction with stakeholders
 - Coordinate specifically with freight railroads
 - Refine capital and operations costs
 - Consider specific phasing to improve cost effectiveness
 - Identify specific funding opportunities

Questions & Answers

Recommended Motion

COMPASS Board of Directors approves commuter rail along the Boise Cutoff corridor as the preliminary locally preferred alternative for the Let's Ride Treasure Valley PEL study.

Item VI-A

Topic: 2026 Legislative Positions

Purpose: Continue Discussion of Potential 2026 Legislative Positions

Craig Raborn

Executive Director

1-on-1 Executive Committee Highlights

- Overall transportation revenue needs
- Growth-related government finances and fiscal sustainability
 - Particularly related to transportation infrastructure and maintenance
 - Secondarily related to general ongoing operations
- Interest in understanding revenue distribution parity
- COMPASS has unique opportunity for engagement and presence
- Seek incremental, rather than sweeping changes
- Responsibility for direct responses within constraints of position statements, adopted plans, and established MPO responsibilities
- Start discussions for future priorities

Emerging Legislative Strategy

- Government Affairs Consultant (Lobbyist)
- Regional Legislative Summit
 - COMPASS-sponsored
 - Entire Treasure Valley delegation invited
 - Focus on incremental proposals and initiatives
 - ~November-December
- COMPASS-hosted Statewide MPO Legislative Reception
 - Early in session
 - All legislators invited
 - Educate about transportation issues in urban areas
 - Establish COMPASS as expert resource

COMPASS Position Statements

- Keep 2025 positions:
 - Transportation Revenue
 - Growth
 - State Transportation Policy
- Consider new position statement connecting housing development to transportation performance, cost efficiency, and long-term infrastructure sustainability
- Concentrate activities on incremental changes

Why Consider a Housing-Related Position?

- Directly related to transportation mission
 - Large MPOs encouraged to discuss housing
- Establish broad vision, allow modular implementation
 - Broad: e.g., "Support housing aligned with planned or existing transportation infrastructure"
 - Implementation: e.g., "Support legislation that enables local governments to incentivize housing near corridors with under-used transportation capacity"
- Potential for broad ideological appeal
 - Local control with regional tracking and coordination
 - Infrastructure efficiency: reducing long-term capacity expansion costs
 - Supports market-based solutions (e.g., streamlining, zoning reforms, etc.)

DRAFT Position Statement

- COMPASS supports state policies that enhance regional and local efforts to align housing availability with transportation investments and infrastructure planning.
- Policies that promote a range of housing options—particularly in areas with existing or planned transportation infrastructure—can help improve regional mobility, economic opportunity, and infrastructure efficiency.
- COMPASS encourages legislation that supports local flexibility, market-driven solutions, and voluntary tools to improve housing outcomes that are coordinated with transportation systems.

Topics for Incremental Proposals

"Growth pays for growth"-related

- Allow full value of new development to be added to tax base (address 90% limit)
- Allow full value of properties after tax increment financing period ends
- Enhance counties' ability to use development-related impact fees

Housing-related

- Enable local governments to incentivize housing near corridors with under-used transportation capacity
- Others TBD (based on potential Task Force recommendations)

Moving Forward

- September Refine Strategy and Positions (Executive Committee)
 - Start individual meetings with delegation
- October Finalize Strategy and Positions (Executive Committee)
 - Adopt Position Statements (Board)
- November-December Host Regional Legislative Summit

2026 Legislative Session:

- January-February Host Statewide MPO Reception
- Active engagement to advance incremental goals
