COMPASS Hires New Data Specialist

Meridian, ID – The Community Planning Association of Southwest Idaho (COMPASS) is pleased to announce that Teverin Fuller has joined COMPASS as a Resource Development Data Specialist.

Fuller will be assisting with preparing and managing the Regional Transportation Improvement Program – a budget of federally funded transportation projects – and with applying for and managing grant funding. Originally from Twin Falls, Fuller holds a Bachelor of Arts degree in Environmental Studies, with a minor in sustainability, from Boise State University. He previously was employed as a transportation planning intern at COMPASS, working on active and public transportation projects.

COMPASS is the forum for regional collaboration in southwest Idaho that helps maintain a healthy and economically vibrant region, offering people choices in how and where they live, work, play, and travel. Among other programs, COMPASS conducts regional transportation planning and budgets federal transportation funding for Ada and Canyon Counties.
