COMPASS Education Series Presents: Road Safety Plans – A Framework for Moving from Intent to Action

Meridian, ID – Improving transportation safety is at the forefront of transportation decision-making, but to truly make a difference we need a plan to move from *intent* to *action*.

Join COMPASS as we welcome transportation safety experts Hillary Isebrands and Rosemarie Anderson to set the stage for developing local and regional road safety plans and explore:

- What a safety plan is and how it can lead to fewer transportation-related deaths.
- Transportation safety-related initiatives, policies, and goals that have been implemented around the nation.
- Successes and challenges experienced by other regions and how those “lessons learned” can be applied locally.
- How a road safety plan integrates all transportation modes.
- Tips for developing a road safety plan for your community.

This online-only presentation is free and open to the public, but pre-registration is required.

- Wednesday, April 13, 2022
- 9:00 am – 10:30 am
- Learn more at www.compassidaho.org/comm/publicevents_2022_ed_series.html
- RSVP to aluft@compassidaho.org or 208/475-2229 to receive the registration link

Hillary Isebrands, PE, PhD, is a Senior Roadway Safety Engineer and Team Leader with the Federal Highway Administration Resource Center, Safety and Design National Technical Service Team. Rosemarie Anderson is the Local and Rural Roads Manager in the Federal Highway Administration’s Office of Safety.
