COMPASS Education Series Presents:

What Is a “Complete” Street and What Does It Mean To Me?

Meridian, ID – Our streets serve many users – from commuters in private cars to buses, freight trucks, cyclists, pedestrians, and more. At times, these uses can all be in competition for the same space, which can lead to conflicts.

Thoughtful planning and design of our streets, and the communities they serve, can help prevent these conflicts while supporting all users in a way that is safe, efficient, convenient, and comfortable.

The Community Planning Association of Southwest Idaho (COMPASS) is pleased to welcome Peter Eun and Brooke Struve from the Federal Highway Administration to spearhead a discussion of planning for “complete” streets in the Treasure Valley.

- Monday, April 15, 2019
- COMPASS; 700 NE 2nd Street, Meridian (first floor Board room)
- 5:30 pm reception
- 6:00 pm – 8:00 pm presentation
- *FREE!* Please RSVP to htownsend@compassidaho.org or 208/475-2232

COMPASS will also host a technical workshop, “Planning for a Complete Transportation Network,” on Tuesday, April 16, from 8:00 am – 5:00 pm at the same location. This workshop is also free and open to the public, but will have a more technical focus. Please RSVP as above.

This presentation is being offered by COMPASS as part of its annual education series. For more information, visit http://www.compassidaho.org/comm/publicevents_2019_ed_series.html.
