- How To Fill Out the Phase I Application Form: <u>https://youtu.be/yOuSQTmz6oc</u>

2026 COMPASS Funding Application Phase I All Projects

All applications must be submitted in Word format by email to <u>ssader@COMPASSidaho.org</u>. This phase of the application page limit is 10 pages. See last page for definitions of acronyms and link to Phase I Application Tutorial Video.

DETAILS

Sponsor Name (agency):	COMPASS
Main Agency Contact:	Austin Miller
Project Title:	Pavement Condition Analysis

PROJECT DETAILS

Briefly describe your project:

Project would analyze and report on existing pavement conditions on arterial roadways throughout COMPASS' planning area.

Briefly describe the location of the project (include main segment and termini):

COMPASS planning area.

Is the right-of-way for this project managed by the sponsor's jurisdiction? (e.g. is ROW in the jurisdiction of ITD, a highway district, a canal company, etc.)

□ Yes □ No ✓ N/A

If not, a letter of support from the managing jurisdiction **<u>is required</u>** to ensure their involvement and approval prior to submission. Please explain:

Does the managing jurisdiction own the right-of-way in the project area? (Does

additional ROW need to be purchased?)

- 🗆 Yes
- 🗆 No
- ✓ N/A

Knowing what is in place before improvements are made will help COMPASS quantify any safety benefits that result from the improvements. Check all *existing* descriptions in your project area:

2 through lanes	3-Way Stop Intersection	🗖 Curb	Barrier between Sidewalk/Road
2 through/1TWLTL	4-Way Stop Intersection	Gutter	Street Lighting
4 through lanes	5-Way Stop Intersection	🗖 ADA Ramps	🗖 Bus Stop
4 through/1TWLTL	3-Way Signaled	PHB Crossing	Bus Pullout
🗖 6 through lanes	4-Way Signaled	RFFB Crossing	Bus Lane
Center Turn Lane	5-Way Signaled	🗌 LPI Leading Ped Interval	Bus Shelter
🗖 Left Turn Lane	🗖 Roundabout single lane	🗖 Bike Lane	Other:
Intersection	Roundabout 2-lane	🗋 Pathway	
Interchange	Sidewalk 3-4' width	Multi-Use Pathway	
Free Running Right Turn	🗌 Sidewalk 5-6' width	Raised Median	
Bridge Fencing	🗌 Sidewalk 7-8' width	Bike/Ped Facility	
🗖 Bridge Guardrail	🗌 Sidewalk 9-10' width	🗌 Roundabout 3-lane	
Please describe, if nec	essary		

N/A

Check all countermeasures you plan to add:

- □ Widen 2 to 3 lanes
- □ Widen 2 to 4 lanes
- Widen 2 to 5 lanes
- Widen 3 to 5 lanes
- □ Widen 3 to 6-7 lanes
- □ Widen 4 to 5-7 lanes
- Add TWLTL
- Free Running Right Turn
- Add Bridge Guardrails
- Add Bridge Fencing
- Convert Stop to Signaled
- Convert Stop to Roundabout

- □ Convert Signaled to Roundabout
- Upgrade Stop Sign to Flashing
- Upgrade Signals
- 🗖 Add ITS
- Add Street Lighting
- Add ADA Ramps
- Add Curb & Gutter
- □ Add Sidewalk 3-4' width
- Add Sidewalk 5-7' width
- □ Add Sidewalk 8-10' width
- Add Pathway 8-10' width
- Add Multi-Use Pathway

- Add Mid-Street Crossing
- Add PHB Crossing
- Add RFFB Crossing
- 🗌 Add LPI
- Add Bike Lane
- Add road/sidewalk Barrier
- Add Bike/Ped Facility
- Add Raised Median
- Sealcoat Road
- Inlay & Millwork
- Repaint Striping
- Replace Signage

- Replace Bridge
- Widen Shoulder
- Add Bus Stop
- Add Bus Pullout
- Add Bus Lane
- Add Bus Shelter

N/A

Does the project include improvements to the public transportation system?

- Yes
- 🗸 No

If yes, a letter of support from the public transportation agency where the project is located **is required** to ensure its involvement, and approval is required before submission.

PURPOSE AND NEED

Describe the project's purpose and need in detail including why this project is important to your agency and to the region (please reference *Communities in Motion 2050* goals and objectives as well as performance measures and targets):

COMPASS FY2024-2030 Regional Transportation Improvement Program (pg 33) states, "COMPASS currently does not have the tools to estimate exactly how projects will accomplish overall pavement condition goals."

Project would analyze and report on existing pavement conditions for regionally significant roadways in COMPASS' planning area, to rectify the data gap COMPASS is experiencing. This analysis would allow for quantified consistent comparisons across member agencies, making the project prioritization process more uniform for roadway maintenance submissions, as well as support the performance based planning process.

The intent is that this can become a recurring service COMPASS provides to its member agencies. Furthermore, if interest is expressed by member agencies, this analysis provides a valuable partnership opportunity, to pair with other roadway types and capitalize on economies of scale, to better understand the roadway maintenance needs within our communities.

CIM2050 Goals (chec	k all that apply):
✓ Safety:	✓ Increases Safety □ Increases Security ✓ Supports Resiliency
✓ Economic Vitality	: □ Promotes Economic Vitality □ Promotes Freight ✓ Preserves Infrastructure □ Provides Reliability □ Promotes Travel/Tourism □ Manages Growth □ Preserves Farmland
Convenience:	\Box Increases Access/Mobility \Box Increases Connectivity \Box Reduces Congestion
Quality of Life:	☐ Kind to Environment ☐ Enhances Public Health ☐ Preserves/Connects to Open Space ☐ Promotes Affordable Housing ☐ Provides Transportation Options ☐ Benefits the Underserved

FUNDING REQUEST / PROJECT TYPE

What type of funding are you applying for? (select all that apply) If you're unsure, contact COMPASS staff.

- □ Project Development Program (PDP) consultant cost of up to \$50,000
- **CIM Implementation Grant Program** reimbursement of up to \$50,000

✓ **Federal Funds** – this option will require further information provided in Phase II

□ **Staff Assistance Only** – this option will remove the application from the priority ranking but include it in the Resource Development Plan for funding support.

What type of project are you applying for? (select all that apply)

- **Capital/Construction**: Road / Bridge / Design / Signs, etc.
- Device Transportation: Vehicles / Equipment / Maintenance / Operations
- □ Active Transportation: Bicycle / Pedestrian
- □ **Planning**: Plans / Studies / Education / Outreach
- □ Special Groups: Youth / Seniors / Disabled / Underserved Area
- ✓ Technology / Data
- Other

If other, please describe:

PROJECT BUDGET

Provide a total cost estimate and amount requested for the following project tasks or

activities: If you continue in the process for federal-aid funding, you will be required to provide a much more detailed budget in Phase II. If needed, costs may be adjusted at that time. Note: This amount may be adjusted later.

Total Project Cost:	\$180,000
Amount Requested (total cost minus any local match):	\$166,788
Proposed local match (amount):	\$13,212
Proposed local match (percentage):	7.34%

Please describe how you arrived at the cost estimates (previous similar project, design complete, etc.); and explain if additional local funds are available if the project cannot be fully funded:

Comparing similar projects from other jurisdictions and using their price adjusted for inflation.

What is the source of the match?

Local funds, member agency dues.

Can the project be phased? (segmented into sub-units; phasing does not include splitting out design from construction)

□ Yes ✓ No

If yes, please indicate how your project can be phased and the approximate costs of each phase:

PARTNERS/SUPPORT

Are other jurisdictional agencies or partners involved in this project?

✓ No

Other jurisdictions could partner on the project if they would like a pavement condition analysis on non-arterial roadways to take advantage of economies of scale. However, estimates are based on arterial roadways.

If yes, please list the jurisdictional agencies and other partners **and their role** in the project:

Has any public involvement been conducted for this project?

🗸 No

🗆 Yes

If yes, describe the results of those public involvement initiatives with a link to the project website, if applicable:

READINESS TO PROCEED

Has any work been completed on this project? (Mark all phases that are complete)

- ✓ N/A
- □ Nothing is Complete
- □ Preliminary Design (concept) 30% of the design
- Final Design
- Environmental Review
- Utilities
- □ Right-of-Way

Please explain, if necessary:

This is part of the problem. There is a lack of data, and the data that some agencies have is inconsistent with others, which makes comparisons difficult.

If design has been started, does it meet federal standards? Federal standards are described in the Local Public Agency Projects Guide within the Idaho Transportation Department's Manual.

- □ Yes
- 🗆 No
- ✓ N/A

Please explain, if necessary:

PLANNING DOCUMENTS

Is the project specifically listed in *Communities in Motion 2050*?

🗆 Yes

✓ No □ N/A

Please provide the reference (long-term funded, unfunded, etc.):

Indirectly in Ada County. The <u>CIM 2050 Funding Policy and Goals</u> allocate a majority of STBG-TMA funds to maintenance projects, showing a clear emphasis on maintaining our regional roadways.

Does this project conform to a local or regional plan?

✓ Yes

Please explain: (reference the plan(s) with title/link, provide approval dates and page reference)

<u>ACHD's Strategic Plan 2035 (pg37)</u>, <u>Nampa's 2019 Transportation Master Plan</u>, and <u>ITD's</u> <u>2040 Long-Range Transportation Plan</u> all emphasize maintaining existing infrastructure above expanding or improving capacity. This analysis will help inform member agencies as well as allow COMPASS to have a consistent quantified comparison of pavement condition across member agencies, to support project prioritization and our performance based planning efforts.

ATTACHMENTS:

Attach no more than two map/sketch pages (if applicable).

Attach required one-page support letters if the conditions below are applicable

(otherwise optional).

- A support letter is required:
 - From the ROW jurisdiction if not within the sponsor's jurisdiction (e.g. ITD, highway district, or canal company)
 - From the land-use agency if the project is not the same as the highway jurisdiction (e.g. a city or county)
 - From the public transportation agency if the project includes improvements to public transportation operations/facilities and the sponsor does not have jurisdiction (e.g. VRT)

DEFINITIONS of ACRONYMS:

- ADA American Disabilities Act
- CIM Communities in Motion
- ITS Intelligent Transportation Systems
- LIP Leading Pedestrian Interval
- PHB Pedestrian Hybrid Beacon
- RFFB Rectangular Rapid-Flashing Beacons
- TWLTL Two-Way Left-Turn Lane

PHASE I VIDEO TUTORIAL: View Tutorial here.

2025 COMPASS Funding Application Phase II

The next sets of questions pertain to PRIMARY PROJECT TYPES (Planning, Roadway, Active Transportation, and Public Transportation).

Please fill out ONLY the section that pertains to your project (and delete the other sections).

The four project categories are below:

Definitions:

✓ **Planning Only** - Projects for which the primary result is a study, document, or planning product. This would include any plan, study, data acquisition, Planning and Environmental Linkages (PEL) study, or other process that is eligible for federal funds, but does not directly result in capital or maintenance expenses. Applications seeking design funds for a project that fits into one of the other categories would fit into that category.

Examples: County Transportation Plan, Americans Disabilities Act (ADA) Transition Plan, Transportation System Management and Operations (TSMO) Plan, Freight Fluidity Study.

Roadway - Auto-oriented projects that improve, maintain, modify, or add vehicle travel lanes; modify roadway geometry or intersection design; add or modify intersection controls;, and/or are used for roadway operations. Examples: Added travel lanes, added turning lanes, roadway resurfacing, roadway realignments, intersection improvements, signal control modifications, Transportation System Management and Operations (TSMO), and ITS improvements.

□ *Active Transportation* - Active mode user-oriented projects that improve, maintain, modify, or add active mode facilities without extensive impact* on the roadway.

Examples: New or improved pathways, bikeways, or sidewalks; improved bike or pedestrian crossings; minor operational changes benefiting pedestrians (e.g., leading pedestrian signals); traffic calming; addressing ADA compliance issues; and/or adding permanent active mode data collection devices

*"Extensive impact" to the roadway would include a change in the number of vehicle-travel lanes, but would exclude a reduction in lane widths to accommodate a pathway, for example).

□ **Public Transportation** - Projects that improve, maintain, replace, modify, or add facilities, equipment, technologies, or capital supporting public transportation and/or vanpool services.

Examples: Improving bus stops, replacing vehicles and equipment, maintaining facilities, adopting improved technology, or addressing ADA compliance issues within public transportation facilities.

All project applications must include the following attachments (not counted in the page limitation):

- ITD form 0414 Sub-Awardee Reporting for the Federal Funding Accountability and Transparency Act <u>Tutorial Video</u>
- ITD form 1150 Project Cost Summary Sheet Tutorial Video
- ITD form 2435 Local Federal-Aid Project Request Tutorial Video
- COMPASS Form FA100 Federal Requirements Tutorial Video
- Estimating Worksheet (must match form 1150 and 2435) Tutorial Video
 - Be sure to update Phase I cost information if change occurred since the submittal of Phase I

2024 COMPASS Funding Application Phase II PLANNING ONLY FOCUS

All applications must be submitted in Word format by email to <u>ssader@COMPASSidaho.org</u>. This phase of the application page limit is 5 pages. Refer to Scoring and Ranking Guide Resources for guidance and links (add link).

Sponsor Name (agency): COMPASS

Project Title: Pavement Condition Analysis

SAFETY

Does the study provide a benefit to safety in the region? This study provides a benefit to safety in the region by analyzing and reporting existing pavement conditions. This information will be used by member agencies to identify projects that are most in need of repair. This information will be used to more efficiently prioritize projects for roadway maintenance, increasing safety and resiliency.

ECONOMIC VITALITY

Does the study provide economic benefits in the region? It will create an up-to-date database on the existing pavement conditions for the regionally significant roadways in the COMPASS planning area. This information supports economic vitality through preserving infrastructure.

CONVENIENCE

Does the study impact Regional Activity Centers or key destinations? No

QUALITY OF LIFE

Does the study provide additional transportation options, reduce environmental impacts, or provide more access to underserved communities? No

OTHER

Is the project needed to meet or exceed federal requirements? No

REQUIRED ATTACHMENTS:

All project applications must include the following attachments (not counted in the page limitation):

- ITD form 0414 Sub-Awardee Reporting for the Federal Funding Accountability and Transparency Act <u>Tutorial Video</u>
- ITD form 1150 Project Cost Summary Sheet <u>Tutorial Video</u>
- ITD form 2435 Local Federal-Aid Project Request Tutorial Video
- COMPASS Form FA100 Federal Requirements <u>Tutorial Video</u>
- Estimating Worksheet (must match form 1150 and 2435) Tutorial Video
 - $\circ~$ Be sure to update Phase I cost information if change occurred since the submittal of Phase I

COMPASS Prioritized Project Proposals: FY2026 Resource Development Plan

1. Project Name: High Injury Network

Description: Work will update the High Injury Network dashboard. The update will incorporate additional crash data and calculate the new high injury network. This would ensure consistent comparisons across member agencies, making the project prioritization process more uniform for safety projects.

FY2028-FY2029 Estimated Cost: \$165,000 COMPASS Staff Work Days: 15

2. Project Name: Fiscal Impact Analysis

Description: To better implement the goals of Communities in Motion, this project will provide information on the fiscal impact of various growth patterns. Work will update the fiscal impact analysis calculator in the COMPASS development checklist for highlighting the costs of development, and conduct outreach and training for local decision-makers so that fiscal analysis can be used in local land use decision making.

FY2027-FY2028 Estimated Cost: \$85K COMPASS Staff Work Days: 15

3. Project Name: Pavement Condition Analysis

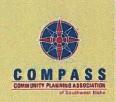

Description: Project would analyze and report on existing pavement conditions on Ada and Canyon Counties. This would allow for consistent comparisons across member agencies, making the project prioritization process more uniform for roadway maintenance submissions.

FY2028-FY2029 Estimated Cost: \$180,000 COMPASS Staff Work Days: 25

4. Project Name: Complete Network Policy

Description: This project would augment COMPASS staff efforts with consultant support to refresh the COMPASS complete network policy. Project would include establishing goals of the complete network policy that align with Communities in Motion goals and objectives, analyze ways to better integrate land use and transportation planning, and develop implementation strategies that can be incorporated into COMPASS' project prioritization process.

FY2030-FY2031 Estimated Cost: \$175,000 COMPASS Staff Work Days: 20

November 14, 2024

MEMORANDUM

RE: COMPASS Project Proposals

COMPASS submits the following projects for inclusion in the Resource Development Plan and for future funding:

- High Injury Network
- Fiscal Impact Analysis
- Pavement Condition Analysis
- Complete Network Policy

Prior to accepting funding, the project proposals would go to the COMPASS Board of Directors for approval of the local match.

Approval of project submittal:

Matthew J. Stoll Executive Director

Sub-Awardee Reporting For The Federal Funding Accountability and Transparency Act (FFATA)

As required by the Federal Funding Accountability and Transparency Act ("Transparency Act" or "FFATA" per P.L. 109-282, as amended by section 6202(a) of P.L. 110-252; note 31 U.S.C. 6101), information on the first-tier subawards related to Federal contracts and grants, and the executive compensation of awardees and sub-awardees must be made publicly available beginning October 1, 2010. Federal agencies and prime awardees will report to ensure disclosure of Federal contract and grant sub-award and executive compensation data¹.

The following information must be reported for prime awardees and sub-awardees²:

Sub-Awardee DUNS ³	Sub-Awardee Name			
12-357-6779	COMPASS			
Address		City	State	Zip Code
700 NE 2 nd Street, Ste 200		Meridian	ID	83642

Names and total compensation of the five most highly compensated officers of the entity must be listed if:

- the entity in the preceding fiscal year received 80 percent or more of its annual gross and revenues in Federal awards; and
- the entity in the preceding fiscal year received \$25,000,000 or more in annual gross revenues from Federal awards; and
- the public does not have access to this information about the compensation of the senior executives of the entity through periodic reports filed under section 13(a) or 15(d) of the Securities Exchange Act of 1934 (15 U.S.C. §§ 78m(a), 78o(d)) or section 6104 of the Internal Revenue Code of 1986. See FFATA § 2(b)(1).

Name	Total Compensation ⁴
1. N/A	N/A
2.	
3.	
4.	
5.	
Explanation for exemption from listing above	

Definitions and Authority

1. From Executive Office of the President, Office of Management and Budget, memorandum dated August 27, 2010.

2. A sub-awardee is a recipient of a sub-award. I.E., where ITD loses programmatic control or resident oversight; functioning only as a trustee of an obligation.

3. Unique identifier used is the sub-awardee's Dun & Bradstreet (D&B) DUNS Number. See OMB M-09-19 at 11.

4. 'Total compensation'' means the cash and noncash dollar value earned by the executives during the sub-recipient's past fiscal year of the following (for more information see 17 CFR 229.402(c)(2)): (i). Salary and bonus. (ii). Awards of stock, stock options, and stock appreciation rights. Use the dollar amount recognized for financial statement reporting purposes with respect to the fiscal year in accordance with FAS 123R. (iii). Earnings for services under non-equity incentive plans. Does not include group life, health, hospitalization or medical reimbursement plans that do not discriminate in favor of executives, and are available generally to all salaried employees. (iv). Change in pension value. This is the change in present value of defined benefit and actuarial pension plans. (v). Above-market earnings on deferred compensation which are not tax qualified. (vi). Other compensation. For example, severance, termination payments, value of life insurance paid on behalf of the employee, perquisites or property if the value for the executive exceeds \$10,000.

Instructions

- 1. Under Character of Proposed Work, mark appropriate boxes when work includes Bridge Approaches in addition to a Bridge.
- 2. Attach a Vicinity Map showing the extent of the project limits.
- 3. Attach an ITD 1150, Project Cost Summary Sheet.
- 4. Signature of an appropriate local official is the only kind recognized.

Note: In Applying for a Federal-Aid Project, You are Agreeing to Follow all of the Federal Requirements Which Can Add Substantial Time and Costs to the Development of the Project.

UNDERSTANDING OF REQUIREMENTS FOR FEDERAL AID RECIPIENTS

Applicants should keep in mind that receipt of federal funds requires compliance with the following federal and state requirements (Note - this is not an exhaustive list):

- 1. **Equal Opportunity** requirements (non-discrimination) for construction contracts in excess of \$10,000 apply to a wide range of project elements, including contracting opportunities. A non-discrimination agreement must be signed as part of the award process, and records must be kept to show compliance. Disadvantaged Business Enterprise (DBE) requirements might apply.
- Minimum wage requirements (Davis-Bacon Act) and anti-kickback requirements (Copeland Act) for construction contracts in excess of \$2,000, records must be kept to show compliance.
- 3. No use of federal funds for lobbying, for construction contracts in excess of \$100,000.
- 4. National Environmental Policy Act (**NEPA**).
 - a. The National Environmental Policy Act requires federal actions (including local transportation projects receiving federal aid) to be evaluated for potential impacts to the environment. Idaho Transportation Department (ITD) and the FHWA jointly conduct this review.
 - i. For major actions that significantly affect the quality of the human environment, an Environmental Impact Statement (EIS) must be prepared. This is a lengthy (and expensive) process that requires consideration of alternatives, analysis of impacts, and compliance with a series of public notice and comment periods.
 - ii. For projects in which the significance of the environmental impact is uncertain, an Environmental Assessment (EA) must be prepared. This document is more limited in scope than an EIS, and the procedure is not as lengthy. If it is determined, through the EA process, that there will not be significant impacts, a Finding of No Significant Impact (FONSI) is issued. If it is determined that there will be significant impacts, an EIS must be prepared.
 - iii. Most federal aid projects qualify for a "categorical exclusion," meaning that the project will not have a significant effect on the human environment. For these projects, neither an EIS nor an EA need be prepared. Federal regulations have identified several project types that typically receive a categorical exclusion (such as installation of utilities along a road; construction of bicycle and pedestrian paths; landscaping; installation of fences, signs, pavement markings and traffic signals, where no substantial land acquisition or traffic disruption would occur; alterations to facilities to make them accessible to elderly and handicapped persons; and other types of projects). Even though a proposed project might fall within an exclusion category, applicants must obtain clearance from ITD.
 - iv. Contact District Environmental Staff (listed at <u>http://itd.idaho.gov/enviro/District.Staff.htm</u>) for assistance with navigating the environmental review process.

- 5. Compliance with audit requirements:
 - a. An entity expending \$500,000 or more in a year in combined Federal awards (including any funds received from Federal sources outside ITD: US federal contracts, subcontracts, loans, grants, subgrants, and/or cooperative agreements) requires an A-133 Single Audit or program-specific audit each fiscal year.
 - b. An entity whose annual budget (from all sources) exceeds \$250,000 and expends any amount in a year in Federal awards are required to have a full and complete audit of financial statements each fiscal year.
 - c. An entity whose annual budget (from all sources) exceeds \$100,000 but does not exceed \$250,000 and expends any amount in a year of Federal awards has a minimum requirement of a financial statements audit on a biennial basis. Biennial audits shall include an audit of each fiscal year since the previous audit.
 - d. An entity whose annual budget (from all sources) exceeds \$50,000 but does not exceed \$100,000 and expends any amount in a year of Federal awards has a minimum requirement of a financial statements review on a biennial basis. Biennial review shall include a review of each fiscal year since the previous review.
 - e. An entity whose annual budget (from all sources) does not exceed \$50,000 and expends any amount in a year of Federal awards has a minimum requirement of a financial statements review by ITD on a biennial basis. Biennial ITD reviews shall include a review of each fiscal year since the previous review.
- 6. Compliance with **Americans with Disabilities Act** requirements. This includes a compliance Self-Evaluation, and for agencies with 50 or more employees, an ADA Transition Plan. Transition Plans identify physical obstacles to accessibility, describe methods to make facilities accessible, specify a schedule for completion, identify a responsible official, estimate the cost of each modification, and record completion dates.

For the costs of a:	Use the principles in:
State, Local or Indian Tribal Government	2 CFR 225
Private, nonprofit organization other than an (1) institution of higher education, (2) hospital, or (3) organization named in 2 CFR 230 as not subject to that circular	2 CFR 230
Educational institution	2 CFR 220
For-profit organization other than a hospital and an organization named in 2 CFR 230 as not subject to that circular	48 CFR Part 31, Contract Cost Principles and Procedures, or uniform cost accounting standards that comply with cost principles acceptable to the Federal agency.

7. Compliance with U.S. Office of Management and Budget (OMB) circulars on allowable costs, as follows:

COMPASS Form FA100 Based in part on ITD's Site Checklist for TAP-State applications.

- 8. Compliance with Federal Transit Administration, ITD, or Valley Regional Transit grant administration team reimbursement requirements. In most cases, recipients must request reimbursement of an expense within 60 days or the expense will not be reimbursed. ITD has up to 30 days to issue the reimbursement.
- 9. Compliance with minimum liability insurance requirements. Contractors must have comprehensive public and general liability insurance of at least \$500,000.00 per occurrence, and \$1,000,000.00 aggregate.

read the information above and understand the intent, and realize there are many other federal requirements to follow if this project is funded with federal funds. The information above is merely a summary of federal requirements for a federal-aid project. This project is proposed considering the federal requirements above. Construction

Design

Total Local Portion Total Federal Portion \$166,788 \$13,212 **Total Project Estimate** \$180,000

Use this form for projects that do not require design, such as a study, bus, or van purchase. If there is any disturbance of dirt, such as installing a sign, post, or something more substantial, fill out the construction form.

Please note: A work plan is required to be submitted within 30 days after award for Safe Routes to School projects. Did you remember to include Davis Bacon wages and consideration of all federal requirements?
