FY2012 UNIFIED PLANNING WORK PROGRAM
Revision 1

INTRODUCTION

The development of the Community Planning Association of Southwest Idaho's (COMPASS) Unified Planning Work Program includes COMPASS Board involvement and acceptance of the Planning Factors and Program Objectives as identified within this document. The COMPASS Metropolitan Planning Organization comprises the Nampa Urbanized Area and the Northern Ada County Transportation Management Area.

The following steps represent the review process and adoption of this document which includes the involvement of staff from member agencies and several COMPASS committees:

- A preliminary Unified Planning Work Program is presented to the Regional Technical Advisory Committee (RTAC), which has representation from all member agencies. RTAC reviews and recommends endorsement to the COMPASS Board.
- The Finance Committee, a standing committee of the COMPASS Board, reviews the financial information contained in the Unified Planning Work Program and presents a recommendation to the COMPASS Board.
- The Unified Planning Work Program is then presented to the full Board for adoption. With formal adoption, the Unified Planning Work Program is forwarded to the Idaho Transportation Department and the Federal Highway Administration for approval.

The FY2012 Unified Planning Work Program – Revision 1 consists of four parts:

- Detailed descriptions by Program Number;
- Financial budget documents that address the components by funding sources and expenditures. These documents include: Revenue and Expense Summary for FY2012; Expenses by Work Program Number and Funding Source; Direct Expense Summary; Indirect Operations and Maintenance Expense Summary; and the Workday Allocation;
- A Transportation Supplement showing funding sources for Valley Regional Transit, the public transportation authority for Ada and Canyon counties; and
- Documentation of other significant transportation planning projects occurring within the COMPASS planning area.

COMPASS BOARD MEETING AGENDA ITEM V-B

Date: October 17, 2011

COMPASS
COMMUNITY PLANNING ASSOCIATION
of Southwest Idaho

Topic: Revision 1 FY2012 Unified Planning Work Program (UPWP)

Summary:

The final version of FY2012 UPWP was approved at the August 15, 2011 COMPASS Board meeting.

Revision 1 of the FY2012 UPWP was reviewed with the RTAC Committee at its September 28, 2011 meeting. The RTAC Committee recommends board approval.

Revision 1 of the FY2012 UPWP was reviewed with the Finance Committee at a specially called meeting on October 3, 2011. The Finance Committee recommends board approval.

Staff Recommendation/Request:

Adopt Resolution 01-2012 approving Revision 1 of the FY2012 UPWP.

Implication (policy and/or financial):

In order to utilize Federal Aid Highway funds, a UPWP approved by the COMPASS Board of Directors is required for submission to the Idaho Transportation Department and the Federal Highway Administration requesting their approval of COMPASS' UPWP.

Highlights:

Revision 1 of the FY2012 UPWP is proposed for the following reasons:

1. To add monies committed by the Idaho Department of Environmental Quality and the Ada County Air Quality Board to fund a survey for the development of an air quality public outreach and education program, and to pay for \$5,000 of COMPASS staff time to oversee this project.
2. To trade out \$5,000 of local dollars with Consolidated Planning Grant funds (CPG funds). Staff recommends adding this amount to the Set-Aside for Potential 20% Rescission program.

Additional Information:

RESOLUTION No. 01-2012

**PROVIDING FOR THE APPROVAL OF REVISION 1 OF THE FY2012
UNIFIED PLANNING WORK PROGRAM OF THE
COMMUNITY PLANNING ASSOCIATION OF SOUTHWEST IDAHO**

WHEREAS, the FY2012 Unified Planning Work Program was adopted by the Community Planning Association of Southwest Idaho Board of Directors under Resolution 09-2011, dated August 15, 2011;

WHEREAS, the Community Planning Association of Southwest Idaho desires to amend the annual Unified Planning Work Program as part of timely reviews;

WHEREAS, the Community Planning Association of Southwest Idaho desires to incorporate funding and program revisions in the Unified Planning Work Program to recognize Federal dollars for both COMPASS and pass-through agreements to other agencies; and

WHEREAS, the attached memorandum and supporting documentation summarizes the adjustments included in Revision 1 of the FY2012 Unified Planning Work Program and is made a part hereof;

NOW, THEREFORE, BE IT RESOLVED, that the Community Planning Association of Southwest Idaho Board of Directors approves by Resolution Revision 1 of the FY2012 Unified Planning Work Program.

BE IT FURTHER RESOLVED, that the Chair and Executive Director are authorized to submit all grant and contract revisions and sign all necessary documents for grant and contract purposes.

DATED this 17th day of October 2011.

APPROVED:

By: 
**David Ferdinand, Chair
Community Planning Association Board**

**ANNUAL METROPOLITAN TRANSPORTATION PLANNING PROCESS
SELF-CERTIFICATION**

In accordance with 23 CFR 450.334, the Idaho Transportation Department and the Community Planning Association (COMPASS), designated Metropolitan Planning Organization for the Northern Ada County Transportation Management Area and Nampa Urbanized Area, hereby certify that the COMPASS Transportation Planning Process addresses the major issues in the Metropolitan Planning Areas and is being conducted in accordance with all applicable requirements of:

- (1) 23 U.S.C. 134, 49 U.S.C. 5303, and this subpart;
- (2) In nonattainment and maintenance areas, sections 174 and 176 (c) and (d) of the Clean Air Act, as amended (42 U.S.C. 7504, 7506 (c) and (d)) and 40 CFR part 93;
- (3) Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. 2000d-1) and 49 CFR part 21;
- (4) 49 U.S.C. 5332, prohibiting discrimination on the basis of race, color, creed, national origin, sex, or age in employment or business opportunity;
- (5) Section 1101(b) of the SAFETEA-LU (Pub. L. 109-59) and 49 CFR part 26 regarding the involvement of disadvantaged business enterprises in USDOT funded projects;
- (6) 23 CFR part 230, regarding the implementation of an equal employment opportunity program on Federal and Federal-aid highway construction contracts;
- (7) The provisions of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 *et seq.*) and 49 CFR parts 27, 37, and 38;
- (8) The Older Americans Act, as amended (42 U.S.C. 6101), prohibiting discrimination on the basis of age in programs or activities receiving Federal financial assistance;
- (9) Section 324 of title 23 U.S.C. regarding the prohibition of discrimination based on gender; and
- (10) Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) and 49 CFR part 27 regarding discrimination against individuals with disabilities.

PROGRAM WORKSHEETS

PROGRAM NO.	601				CLASSIFICATION:	Project
TITLE:	UPWP Budget Development and Monitoring					
TASK / PROJECT DESCRIPTION:	Monitor and amend, as necessary, the FY2012 Unified Planning Work Program (UPWP) and related transportation grants for the Metropolitan Planning Organization (MPO). Develop and obtain Board approval for the FY2012 UPWP. Attain compliance on all federal requirements of transportation planning implemented under the federal transportation bill, "Safe, Accountable, Flexible, Efficient Transportation Equity Act - a Legacy for Users" (SAFETEA-LU).					
PURPOSE, SIGNIFICANCE AND REGIONAL-VALUE:	The UPWP is a comprehensive work plan that coordinates federally funded transportation planning and transportation related planning activities in the region and identifies the related planning budget.					
REQUIREMENT, RELATIONSHIP TO OTHER ACTIVITIES, FEDERAL CERTIFICATION REVIEW	Federal Code 23 CFR § 450.314 -- Metropolitan transportation planning process: Unified planning work programs. (a) In Transportation Management Areas (TMAs), the MPO(s) in cooperation with the state and operators of publicly owned transit shall develop UPWPs that meet the requirements of 23 CFR part 420, subpart A.

PROGRAM NO.	620			CLASSIFICATION:	Project
TITLE:	Growth and Transportation System Monitoring				
TASK / PROJECT DESCRIPTION:	1) To collect, analyze, and report on growth and transportation patterns related to goals in the regional transportation plan. This program will result in two main reports each year: a Development Monitoring Report and a Performance Monitoring Report including an analytical review of growth and transportation patterns. 2) To develop population estimates by city, rural county, and highway district. Population estimates are developed each year for use in setting COMPASS member dues. The estimates are also posted on the COMPASS website and are used by many member agencies and citizens. Estimates are based on residential building permits and factored by vacancy rates and household sizes. 3) Mapping and distribution of census data and support for member agencies for using census information.				
PURPOSE, SIGNIFICANCE AND REGIONAL-VALUE:	Tracking and monitoring growth and system demands are critical to several planning efforts: 1) <i>Communities in Motion</i> as well as other corridor, subarea, and alternative analysis depend on accurate data and assumptions about current and future transportation, housing, and infrastructure demands. 2) The travel demand model also requires current and accurate housing and employment data. 3) Participating in the Census enables the area to receive accurate data from Census surveys and research, receive federal funding through various programs, and is a oft-requested member service. 4) Monitoring and reporting on progress toward the goals of <i>Communities in Motion</i> promotes the objectives of the plan and local efforts toward that plan.				
REQUIREMENT, RELATIONSHIP TO OTHER ACTIVITIES, FEDERAL CERTIFICATION REVIEW	Federal Code 23 CFR § 450.322 (f) -- Long range plans require valid forecasts of future demand for transportation services that are based on existing conditions that can be included in the travel demand model. In updating the transportation plan, the MPO shall use the latest available estimates and assumptions for population, land use, travel, employment, congestion, and economic activity. "The metropolitan transportation plan shall, at a minimum, include (1) The projected transportation demand of persons and goods in the metropolitan planning area over the period of the transportation plan...." Certification review stated:"The Plan update should include the establishment of an ongoing monitoring activity to track the implementation of Plan goals at the local level." [Transportation Planning Certification Review, vi]. The 2010 census will also prompt reevaluation of the planning boundaries. [Transportation Planning Certification Review, 2010, v] Communities in Motion: The Performance Monitoring Report (PMR) is a requirement of the transportation plan to monitor and track "progress toward achieving alternative transportation and desired land use objectives." Task 4.4.3, Major Activity Center, Task 1.2.2 and providing data on various groups. Task 1.9.1.				
FY2012 BENCHMARKS					
MILESTONES / PRODUCTS					
Report on Growth and Transportation Patterns					
Compile building permits collected from local governments. Update preliminary plat information on a monthly or bi-monthly basis. Coordinate data collection of building permits, preliminary plats, and other GIS data. Revise preservation scenario forecast based on updated population, employment, and preliminary plat data. Complete 2012 Development Monitoring Report. Committee review of draft Performance Monitoring Report. Board review draft Performance Monitoring Report. Seek Board endorsement of final Performance Monitoring Report. Post Performance Monitoring Report on COMPASS website with dynamic mapping products.					Ongoing Ongoing Ongoing Jan-Mar Feb-Apr May June July July
Population Estimates					
Receive complete building permit inventory for 2010. Allocate building permits by city limits, highway districts, and Traffic Analysis Zones (TAZ). Update population by current corporate limits for cities within Ada and Canyon counties. Demographic Advisory Committee review of 2011 Population Estimates Board review and approval of 2011 Population Estimates. Post estimates on COMPASS website.					Jan Jan Jan Feb Mar Mar
Census Data					
Mapping and distribution of census American Community Survey data. Update community profiles with American Community Survey and employment data.					Mar Apr May
LEAD STAFF: Carl Miller				Expense Summary

PROGRAM NO.	647				CLASSIFICATION:	Project
TITLE:	Regional Growth Issues and Options					
TASK / PROJECT DESCRIPTION:	To achieve a more diverse, explainable, and open approach in projecting and allocating regional growth that will improve COMPASS' travel demand forecasting and assist in regional decision-making. The project will have two components: 1) complete the 2040 population and employment forecast and the build out forecast, and 2) use the control totals in growth scenario and visioning exercises. Receive approval from COMPASS Board.					
PURPOSE, SIGNIFICANCE AND REGIONAL-VALUE:	The model outputs are used to test and plan growth scenarios including the ultimate build out of local land use plans. The results of the scenario planning exercise will provide the region with a Trend Analysis and develop goals and objectives for the update to the <i>Communities in Motion</i> plan. The forecasts are an integral component to the travel demand forecast, and forecasts are used by local governments for various infrastructure and service capacity planning. Growth forecasting supports ACHD's impact fee program, is necessary to conduct air quality conformity of the Transportation Improvement Program and long range transportation plan, review of proposed developments and Traffic Impact Studies.					
REQUIREMENT, RELATIONSHIP TO OTHER ACTIVITIES, FEDERAL CERTIFICATION REVIEW	Federal Code 23 CFR § 450.322 (f) -- Long range plans require valid forecasts of future demand for transportation services, which are based on existing conditions that can be included in the travel demand model. In updating the transportation plan, the MPO shall use the latest available estimates and assumptions for population, land use, travel, employment, congestion, and economic activity. "The metropolitan transportation plan shall, at a minimum, include (1) The projected transportation demand of persons and goods in the metropolitan planning area over the period of the transportation plan..." Communities in Motion Task 1.9.4 indicates the need to incorporate forecasts of special needs populations in future demographic forecasts.

PROGRAM NO.	653				CLASSIFICATION:	Project
TITLE:	Communications and Education					
TASK / PROJECT DESCRIPTION:	The Communications and Education task broadly includes external communications, public relations, public involvement, public education, and ongoing Board education. Specific elements of the task include managing the ongoing COMPASS education series, the annual "JumpStart" (COMPASS 101) workshop, the annual Board retreat and periodic Board workshops, and the Leadership in Motion awards program, as well as working with the Public Participation Committee, writing reports, brochures, and other documents, and representing COMPASS at, and sponsoring, open houses, and other events.					
PURPOSE, SIGNIFICANCE AND REGIONAL-VALUE:	The Communication and Education program helps COMPASS achieve a positive region-wide identity and helps facilitate public involvement in, and knowledge of, transportation planning efforts by planning and implementing an integrated communications/education and public involvement strategy.					
REQUIREMENT, RELATIONSHIP TO OTHER ACTIVITIES, FEDERAL CERTIFICATION REVIEW	Federal Code 23 CFR § 450.316 -- requires public input and involvement in MPO planning activities. Public involvement for specific programs (e.g., Transportation Improvement Program, Long-Range Transportation Plan) is planned/budgeted under those programs, the Communications and Education task supports that outreach and involvement through developing /updating the COMPASS Public Involvement Policy, coordinating outreach efforts, and providing more general (not program specific) opportunities for the public to learn about, and comment on, transportation, planning, financial, and related issues.					
FY2012 BENCHMARKS						
MILESTONES / PRODUCTS						
General						
Continue work with media -- set up interviews, develop story ideas, respond to inquiries. Support work of Public Participation Committee. Begin process to update Public Involvement Policy (update due by December 2012)						Ongoing Ongoing Jun - Sept
Develop tools such as electronic and print materials designed for most effective means of communication						
Maintain and enhance COMPASS website and social media opportunities (Facebook, blog, etc.) Update and print COMPASS brochures; develop new/additional brochures, as needed. Develop electronic annual report.						Ongoing Ongoing Oct - Dec
Education and community outreach						
Develop and implement FY2012 public education series (3 speakers). Sponsor and/or participate in related community events (such as May in Motion and Idaho Green Expo). Manage public involvement efforts for all areas of COMPASS transportation planning. Attend/support member agencies at public meetings. Manage/support <i>Leadership in Motion</i> awards program. Coordinate JumpStart educational workshop. Plan and host NARC Executive Director's Conference (Sept 2012). Coordinate two-county survey on behalf of the Idaho Department of Environmental Quality and the Ada County Air Quality Board to determine attitudes/opinions concerning air quality to be used to shape future air quality outreach/education.						Ongoing Ongoing Ongoing Ongoing Ongoing Dec Oct - Sept Nov - May
Evaluate effectiveness

PROGRAM NO.	661			CLASSIFICATION:	Projects	
TITLE:	Communities in Motion					
TASK / PROJECT DESCRIPTION:	This project encompasses the elements necessary to prepare a regional long-range transportation plan, as required by the current federal transportation bill "Safe, Accountable, Flexible, Efficient Transportation Equity Act - a Legacy for Users" (SAFETEA-LU).					
PURPOSE, SIGNIFICANCE AND REGIONAL-VALUE:	<i>Communities in Motion</i> is the long-range transportation plan for Ada County and Canyon County and offers transportation solutions for the next 25 years. The plan is developed in cooperation with member agencies, local governments and the Idaho Transportation Department in carrying out a "continuing, cooperative, and comprehensive" metropolitan planning process.					
REQUIREMENT, RELATIONSHIP TO OTHER ACTIVITIES, FEDERAL CERTIFICATION REVIEW	Federal Code 23 CFR § 450.322 -- requires that the regional long-range transportation plan be updated every four years in areas with more than 200,000 people or with air quality issues. Since the area meets the test on both criteria, a new plan has to be adopted by September 2014, again by September 2018, and by 2022.					
FY2012 BENCHMARKS						
MILESTONES / PRODUCTS						
Key Elements						
<p>Work with Ada County and Canyon County governments to adopt 2010 <i>Communities in Motion</i> .</p> <p>Develop technical materials for growth scenario workshops.</p> <p>Host workshops on growth scenarios. Work with local agencies, developers, and others on growth scenario review.</p> <p>Public open house meetings or workshops.</p> <p>On-going public outreach.</p> <p>On-going contacts with COMPASS members.</p> <p>Prepare materials and make presentations regarding the overall need to expand funding for all forms of transportation. This element will include developing packets for area media, posting information on the COMPASS website, preparing information targeted to specific member agency needs upon request by members, and updating costs and revenues as needed.</p> <p>Develop a economic benefits model to evaluate long-term returns on investment. This element would include use of consulting services and acquisition of software to evaluate economic growth and job creation due to major investments.</p> <p>Track cumulative development impacts</p>					<p>Oct-Dec</p> <p>Dec-Feb</p> <p>March-May</p> <p>June-July</p> <p>Ongoing</p> <p>Ongoing</p> <p>Ongoing</p> <p>Ongoing</p> <p>Ongoing</p> <p>Ongoing</p> <p>Ongoing</p>

PROGRAM NO.	671			CLASSIFICATION:	Projects	
TITLE:	Mobility Management Strategies					
TASK / PROJECT DESCRIPTION:	Update of existing mobility databases (i.e., providers, services, destinations, target populations); research reports; guidebook for siting low-income housing (considering transportation); tools for promising connectivity projects along bus routes.					
PURPOSE, SIGNIFICANCE AND REGIONAL-VALUE:	COMPASS will research and develop regional mobility management tools and strategies to help implement priorities identified in the local mobility management network plan, which incorporates Valley Regional Transit's Transportation Service Coordination Plan priorities to enhance transportation services especially for older individuals, individuals with disabilities, and those with lower incomes.					
REQUIREMENT, RELATIONSHIP TO OTHER ACTIVITIES, FEDERAL CERTIFICATION REVIEW	Federal Transit Rules Title 49, United States Code, Chapter 53 and 49 CRF 1.51 authorizes 5316 Job Access/Reverse Commute (JARC) and 5317 New Freedom grant programs. Also, the funding priorities need to be identified in locally derived "service coordination plans," which in Idaho mean the local mobility plans, developed by the local mobility management <i>networks</i> .					
FY2012 BENCHMARKS						
MILESTONES / PRODUCTS						
Update Existing Mobility Databases Review and update existing mobility databases.					Ongoing	
Service Delivery Feasibility Study Inventory (update) existing service delivery options. Review barriers. Inventory funding/revenue options. Survey potential providers and clients. Develop feasibility report and template for pilot project. Conduct outreach to potential service providers and clients.					Dec Feb Mar May July Sep	
Transportation Access and Affordable Housing Review current affordable housing locations, plans and siting policies. Map affordable housing, major destinations and transportation options. Identify barriers and opportunities for better linking housing and transportation. Develop a guidebook for siting low-income housing (and social service agencies with transit dependent clients). Outreach to housing agencies, developers, realtors (and social service agencies).					Dec Feb Mar June Sep	
Walkability Analysis/Implementation of Mobility Guidebook Inventory current neighborhood connectivity Review research on transportation and other costs and health and other benefits of walkable/bike-friendly residential locations and design Develop a guidebook for Context Sensitive Design, including a model subdivision ordinance Develop a process to include a walkscore in development review letters					Jan Jan Sep Sep

PROGRAM NO.	685				CLASSIFICATION:	Project
TITLE:	Regional Transportation Improvement Program (TIP)					
TASK / PROJECT DESCRIPTION:	Develop a FY2013-2017 Regional Transportation Improvement Program (TIP) for northern Ada County and Canyon County that complies with all federal, state, and local regulations and policies for the purpose of funding transportation projects. Process amendments and provide project tracking and monitoring for the FY2012-2016 Regional TIP.					
PURPOSE, SIGNIFICANCE AND REGIONAL-VALUE:	Provides the necessary federal documentation for member agencies to obtain federal funding for transportation projects. Staff provides assistance to member agencies to ensure projects are meeting deadlines and do not lose federal funding through project monitoring and balancing committee participation. Information about project changes or needs are shared with member agencies as soon as details are known.					
REQUIREMENT, RELATIONSHIP TO OTHER ACTIVITIES, FEDERAL CERTIFICATION REVIEW	Federal Code 23 CFR § 450.324 --COMPASS is required to develop a TIP in cooperation with ITD and public transit operators. Certain additional requirements are required in the Boise Urbanized Area because it is considered to be a Transportation Management Area (TMA). The TIP is required to be updated at least every four years; however, COMPASS typically follows the update cycle of ITD's Statewide Transportation Improvement Program (STIP), which is updated annually. All projects receiving federal funding must be consistent with the long range transportation plan. The TIP is also tied to the Air Quality Conformity Demonstration to ensure funded projects do not violate budgets set in the State Implementation Plan (SIP) (the document that sets air quality budgets for the state of Idaho). The TIP is also scrutinized in the Certification Review.					
FY2012 BENCHMARKS

PROGRAM NO.	692			CLASSIFICATION:	Project
TITLE:	Regional Transportation Finance and Maintenance Report				
TASK / PROJECT DESCRIPTION:	Analysis and report of revenues and expenses for transportation agencies, including possible revenue sources and the balance of expenses for system maintenance versus expansion costs and potential revenue sources.				
PURPOSE, SIGNIFICANCE AND REGIONAL-VALUE:	Identify revenues and expenditure trends to implement <i>Communities in Motion</i> (CIM), the Transportation Improvement Program (TIP) and other regional initiatives.				
REQUIREMENT, RELATIONSHIP TO OTHER ACTIVITIES, FEDERAL CERTIFICATION REVIEW	Federal Code 23 CFR § 450.306 -- The report(s) are designed to help identify additional revenue sources for member agencies to assist in funding improvements and on-going maintenance of the transportation system. The information also assists member agencies in implementing CIM and the annual TIP. It helps promote efficient management and operations of the region's transportation system.				
FY2012 BENCHMARKS					
MILESTONES / PRODUCTS					
Update Revenue Sources Review revenue sources that could be used to implement <i>Communities in Motion</i> . Evaluate data sources needed to estimate revenue potential of each source. Update data for each source. Prepare an overall draft summary of potential revenue sources, including a comparison of their issues and benefits. Prepare a draft detail paper of each revenue source. Review summary and detail papers with RTAC. Submit to Board. Update brochure and website to inform the public.					Nov Dec Feb Mar Apr May Jun July
Annual Financial Report Obtain prior year financial reports submitted by roadway entities in the region to the Idaho Transportation Department. Obtain project costs to establish baselines for specified categories such as bridge construction, signals, overlays, etc. Obtain prior year financial reports from transit entities in region. Review and compile financial data. Clarify any data issues with relevant entities. Prepare draft financial report summarizing revenues and expenses and comparing to prior years. Evaluate level of effort in maintenance and tie to available reports and information on transportation system sufficiency. Prepare website/webpage for report. Submit report to transportation entities for review and comment. Review/acceptance by RTAC. Information item to COMPASS Board. Complete web page resource.					Mar Mar Mar Apr May May May May Jun Jul Aug
Revenue Forecast and Inflation Projection Evaluate projected revenues by source. Estimate inflation and tie to each revenue source.					Sep Sep
LEAD STAFF: Don Matson					Expense Summary
END PRODUCT: An annual financial report that summarizes transportation revenues and expenditures across the region, reviews maintenance expenditures, system conditions, and documents project costs for basic construction categories. Online reporting will allow updates as data becomes available. A summary of revenue sources, detail papers on each source and a public information brochure and web site material. Report will also be examined annually for content and delivery enhancement, and will support COMPASS processes.					Total Workdays: 42

PROGRAM NO.	701	CLASSIFICATION:			Services
TITLE:	General Membership Services				
TASK / PROJECT DESCRIPTION:	Provides assistance to COMPASS members, including demographic data, mapping, geographic information system assistance/education, traffic model data, and other support to member agency projects.				
PURPOSE, SIGNIFICANCE AND REGIONAL-VALUE:	This service can promote implementation of the long-range regional transportation plan. COMPASS staff are engaged in the members' studies and can become more familiar with their assumptions and recommendations. Use of consistent data and methodologies in the various studies and plans conducted by member agencies is beneficial to the region as well.				
REQUIREMENT, RELATIONSHIP TO OTHER ACTIVITIES, FEDERAL CERTIFICATION REVIEW	There are no federal or state requirements concerning provision of services to member agencies. There are no certification review comments, corrective actions or recommendations related to this program. Member support can provide assistance to agencies fulfilling activities related to Communities in Motion, air quality evaluations, and more detailed transportation planning activities such as corridor studies.

PROGRAM NO.	703			CLASSIFICATION:	Services	
TITLE:	General Public Services					
TASK / PROJECT DESCRIPTION:	To provide data and mapping assistance to the general public. For some products, e.g., maps, there is a charge for the product. When data or other information is not "off-the-shelf" and staff time is needed for research, a labor charge may be applied consistent with COMPASS policy.					
PURPOSE, SIGNIFICANCE AND REGIONAL-VALUE:	COMPASS provides a number of products to the general public: demographic data, development information, traffic counts and projections, maps, and geographic information system analyses.					
REQUIREMENT, RELATIONSHIP TO OTHER ACTIVITIES, FEDERAL CERTIFICATION REVIEW	Federal law requires public input and involvement in MPO planning activities. Public involvement for specific programs (e.g., Transportation Improvement Program, Long-Range Transportation Plan) is planned/budgeted under those programs, the Communications and Education task supports that outreach and involvement through developing the COMPASS Public Involvement Policy (also a federal requirement), coordinating outreach efforts, and providing more general (not program specific) opportunities for the public to learn about, and comment on, transportation, planning, financial, and related issues.

PROGRAM NO.	710				CLASSIFICATION:	
TITLE:	Complete Streets					
TASK / PROJECT DESCRIPTION:	Conduct Walkability Analysis and Complete Streets Level of Service (CSLOS) analysis. Walkability to key destinations (parks, grocery stores, transit stops, and Major Activity Centers), identification of existing and planned networks and accessibility, a cost-benefit analysis of the improvements, and economic development strategies. A CSLOS score including auto, transit, bicycle, and pedestrian of all CIM arterials (funded and unfunded).					
PURPOSE, SIGNIFICANCE AND REGIONAL-VALUE:	Complete Streets are an essential component to a fully-functional transportation network by providing multi-model options for all users. Complete Streets also improve safety, lower transportation costs, provide alternatives to private cars especially for elderly populations, encourage health through walking and biking, create a sense of place, improve social interaction, and generally improve property values.					
REQUIREMENT, RELATIONSHIP TO OTHER ACTIVITIES, MPO CERTIFICATION REVIEW	<p><u>Federal Requirements</u> Metropolitan Planning Organizations are required to include analysis of "pedestrian walkways and bicycle facilities" [23 CFR 450.322(f)]. On March 11, 2010 the United States Department of Transportation provided a Policy Statement to reflect the Department's support for the development of fully integrated active transportation networks.</p> <p><u>Certification Review:</u> The scope and application of the CMP should be expanded to provide for the evaluation of alternative modes of transportation (e.g., bus TSM/TDM measures, walking, and biking). [Transportation Planning Certification Review, 2010, p. viii]</p> <p><u>Communities in Motion:</u> Complete Streets projects meet the Communities in Motion requirement for Task 1.3.1 and Task 1.3.3 in identifying and encouraging alternative transportation, and Task 1.1.1, 1.3.4 and 1.3.5 for improving the TIP criteria. Task 1.4.5 indicates the need for a pathway map. Task 1.7.1 and 1.7.2. encourage context sensitive or complete streets approaches to planning.</p>

PROGRAM NO.	720			CLASSIFICATION:	Services	
TITLE:	State Street Corridor Implementation					
TASK / PROJECT DESCRIPTION:	Multi-year cooperative project with member agencies along State Street to advance studies, plans, development, and transit and roadway improvements in the corridor; COMPASS' role is project coordinator providing general support.					
PURPOSE, SIGNIFICANCE AND REGIONAL-VALUE:	State Street is a regionally significant corridor and the only east-west route between the two counties north of the Boise River, and future growth will surpass the capacity of the roadway to carry traffic and transit. The various tasks in the project are orchestrated to help ensure the viability of transportation through the corridor and protect existing neighborhoods and communities in the future.					
REQUIREMENT, RELATIONSHIP TO OTHER ACTIVITIES, FEDERAL CERTIFICATION REVIEW	Federal Code 23 CFR 450.318 -- The tasks fulfill more FHWA and FTA goals and direction by focusing on linking traffic, transit, and land development in a stronger relationship than has been done previously in the Treasure Valley. Long-term change in the corridor are included in <i>Communities in Motion</i> (CIM).

PROGRAM NO.	761			CLASSIFICATION:	Services	
TITLE:	Blue Print for Good Growth					
TASK / PROJECT DESCRIPTION:	Provide status reports to committee members regarding the ongoing efforts to improve the connection between land use and transportation decisions and planning.					
PURPOSE, SIGNIFICANCE AND REGIONAL-VALUE:	Partnership of governments in charge of local land use and roadway planning: Ada County, its cities, the Ada County Highway District, and the Idaho Transportation Department working together to better coordinate land use and transportation planning.					
REQUIREMENT, RELATIONSHIP TO OTHER ACTIVITIES, FEDERAL CERTIFICATION REVIEW	There is no federal requirement for this process. The Blueprint for Good Growth (BGG) process has been integral to improving the communication and sharing of information between land use and transportation agencies. Over the past few years, new development monitoring processes and reporting have been developed that better inform elected officials about how the land use decisions and transportation programs impact one another.					
FY2012 BENCHMARKS						
MILESTONES / PRODUCTS						
Monthly meetings of the BGG Consortium and Technical Committees						
COMPASS staff will schedule regular meetings of the BGG Consortium and Technical/Steering Committee, prepare packets, provide copies to members, record and provide minutes of each meeting.					Periodic	
COMPASS staff will support the BGG Consortium and Technical/Steering Committee, specifically revisions to materials by staff, research, provision of materials, and other technical assistance are included. The BGG Consortium and Technical/Steering Committee will be the advocacy groups in outreach to local governments.					As needed	
Note: Development of the committed demographics from permits, vacant-platted lot inventory and preliminary plats plus tracking are part of Task 620 starting in FY12.						
LEAD STAFF:	Charles Trainor				Expense Summary	
END PRODUCT:	Schedule meetings, prepare agendas and minutes for the Consortium and Technical Steering Committees as needed.

PROGRAM NO.	801			CLASSIFICATION:	System Maintenance		
TITLE:	Staff Development						
TASK / PROJECT DESCRIPTION:	To provide staff with resources necessary to keep them informed of federal and state regulations, current transportation planning technologies and the best practices and activities nationally.						
PURPOSE, SIGNIFICANCE AND REGIONAL-VALUE:	The activities of the task are part of the overall continuous process to enhance technical and professional capacity. It is important that staff be informed and educated on new regulations and practices to develop and maintain a responsive transportation program.						
REQUIREMENT, RELATIONSHIP TO OTHER ACTIVITIES, FEDERAL CERTIFICATION REVIEW	There are no federal or state requirements concerning provision of staff training, however, COMPASS provides staff with opportunities for training and education. Training examples include attending workshops and conferences sponsored by Federal Highway Administration, National Association of Regional Councils, American Planning Association, Western Planners, American Metropolitan Planning Organization and the Transportation Research Board, etc. to keep staff well informed.

PROGRAM NO.	836			CLASSIFICATION:	System Maintenance	
TITLE:	Regional Travel Demand Model					
TASK / PROJECT DESCRIPTION:	Upkeep of the regional travel demand model is an ongoing task in order for it to continue as a useful tool in many planning activities. It also provides vital information for the required process of air quality conformity demonstration.					
PURPOSE, SIGNIFICANCE AND REGIONAL-VALUE:	The model outputs are used to test and plan transportation projects, support Ada County Highway District's impact fee program, conduct air quality conformity of the transportation improvement program (TIP) and long-range transportation plan, review of proposed developments and traffic impact studies, provide area of influence, and respond to various special member requests.					
REQUIREMENT, RELATIONSHIP TO OTHER ACTIVITIES, FEDERAL CERTIFICATION REVIEW	Federal Code 23 CFR § 450.322 (f) -- "Long-range transportation plans require valid forecasts of future demand for transportation services which are provided by a travel demand model. Outputs from the model are also necessary for transportation conformity determinations of the TIP and long-range plan and evaluating the impacts of alternative transportation investments. In updating the transportation plan, the MPO shall use the latest available estimates and assumptions for population, land use, travel, employment, congestion, and economic activity. "The metropolitan transportation plan shall, at a minimum, include (1) The projected transportation demand of persons and goods in the metropolitan planning area over the period of the transportation plan...."					
FY2012 BENCHMARKS						
MILESTONES / PRODUCTS						
Key Elements Update traffic count data as needed. Update mode choice component in regional travel demand model (see Scope for details). Modify travel demand model outputs for better integration with MOVES (EPA's new air quality model). Incorporate and document "area of influence" model runs Maintain and update the "committed-development" model for cumulative impacts analysis. Maintain and update the "horizon year" model for the long-range transportation plan. Maintain and update the "build out" model for analysis. Begin major update to the regional travel demand model using 2011/12 household travel characteristics data. Assist Department of Environmental Quality with necessary Maintenance Plan development and/or updates.					Ongoing Oct - Apr Ongoing Oct - Dec Ongoing Ongoing Ongoing Mar - Sept Ongoing

PROGRAM NO.	838			CLASSIFICATION:	System Maintenance	
TITLE:	Household Travel Survey					
TASK / PROJECT DESCRIPTION:	Gather detailed trip data from transit riders within the two-county area and travel data from residents of the planning area (assumes some expansion outside of Ada and Canyon Counties).					
PURPOSE, SIGNIFICANCE AND REGIONAL-VALUE:	Collected data are necessary to complete updates to the trip generation, trip distribution and mode-choice portions of the regional travel demand model and complete calibration/validation of all steps. The model outputs are used to test and plan transportation projects, support ACHD's impact fee program, conduct air quality conformity of the TIP and long-range transportation plan, review of proposed developments and traffic impact studies, provide area of influence, and respond to various special member requests.					
REQUIREMENT, RELATIONSHIP TO OTHER ACTIVITIES, FEDERAL CERTIFICATION REVIEW	Federal Code 23 CFR § 450.322 -- To keep the COMPASS Travel Demand Model trip general inputs up to date and reasonable. Travel survey data directly support making certain the COMPASS travel demand modeling processes meet the standards of professional practice and meet federal, state and local planning requirements. Long-range transportation plans require valid forecasts of future demand for transportation services which are provided by a travel demand model. Outputs from the model are also necessary for transportation conformity determinations of the transportation improvement program (TIP) and long-range transportation plan and evaluating the impacts of alternative transportation investments. In updating the transportation plan, the MPO shall use the latest available estimates and assumptions for population, land use, travel, employment, congestion, and economic activity. PROGRAM NO.	842			CLASSIFICATION:	System Maintenance	
TITLE:	Congestion Management System					
TASK / PROJECT DESCRIPTION:	Maintain a functional congestion management system for the Treasure Valley. Conduct data collection, update the Congestion Management System (CMS) Plan as needed, produce an annual CMS Report, maintain regional ITS architecture. Research, provide, and monitor transportation demand management (TDM) strategies.					
PURPOSE, SIGNIFICANCE AND REGIONAL-VALUE:	Provides annual CMS report of the congestion levels on major corridors that compares previous year results, and explains the reason for the change, typically, improvements needed such as signal timing and ITS. Periodic needs are, baseline data collection of vehicle occupancy rates, additional research and evaluation of possible transportation demand management strategies.					
REQUIREMENT, RELATIONSHIP TO OTHER ACTIVITIES, FEDERAL CERTIFICATION REVIEW	Federal Code 23 CFR § 450.320 -- Congestion Management Program is one of the SAFETEA-LU Planning Factors and required in Transportation Management Areas (TMA). COMPASS and ITD have been collecting travel time data since 2003 which provides a summary of how the major roads are functioning during the am and pm peak hours based on congestion levels. This process and its results have been integrated into the transportation improvement program prioritization scheme. Project-applications receive points if the project is on a CMS corridor and the higher congestion the higher the points. Therefore, annual travel time data collection and reporting is mandatory. 2)FHWA Final Rule and FTA Policy on intelligent transportation system (ITS) requires that all ITS projects funded by highway trust fund or Mass Transit Account conform to the National ITS Architecture.

PROGRAM NO.	861			CLASSIFICATION:	System Maintenance	
TITLE:	Regional Orthophotography					
TASK / PROJECT DESCRIPTION:	Digital orthophotography has become an essential source of data for local governments in the past decade. Much of the daily activities conducted by local governments have incorporated orthophotography. The orthophoto project in 2010 begin a synchronized approach to future updates. Coordinated jointly-funded projects result in a large cost savings to participants.					
PURPOSE, SIGNIFICANCE AND REGIONAL-VALUE:	Digital orthophotography is the starting point for an accurate, seamless GIS. Digital orthophotos supply a wealth of information: lane striping, vegetation, land use, utilities, curb-lines, gutter-lines, building footprints, pole locations, sidewalks, access points, and many other uses.					
REQUIREMENT, RELATIONSHIP TO OTHER ACTIVITIES, FEDERAL CERTIFICATION REVIEW	Federal Code 23 CFR § 450.322 (f) --In updating the transportation plan, the MPO shall use the latest available estimates and assumptions for population, land use, travel, employment, congestion, and economic activity. **OTHER
TRANSPORTATION
PLANNING
STUDIES**

Other Transportation Planning Studies in the Treasure Valley

Airport Road and Overland Road Corridor Study

Sponsor: ACHD and the Nampa Highway District #1

Status: Scheduled completion Fall 2011

Web link: <http://www.achdidaho.org/Projects/PublicProject.aspx?ProjectID=179>

The study will identify an alignment for a future corridor to provide improved east-west connection south of I-84 linking Canyon and Ada Counties.

Bowmont Road Corridor Study, SH-45 to Canyon/Ada County Line

Sponsor: Nampa Highway District

Status: Project on hold

Web link: http://www.nampahighway1.com/index_files/PROJECTUPDATES.htm

Identified in *Communities in Motion* as a future regional corridor that connects SH-45 to the ACHD Kuna-Mora Corridor. NHD will examine long-term function of the road to determine preferred alignments, setbacks and access management standards, in concert with planned land uses. A major portion of the study includes identification of alignments near the County line to connect to ACHD's Kuna-Mora Corridor and to McDermott Road which is also identified *Communities in Motion* as a major corridor and potential expressway

Canyon County Western Route

Sponsor: Nampa and Canyon Highway Districts

Status: Ongoing

Identified in *Communities in Motion* as a future regional corridor, the corridor identification project extends from SH-45 near Bowmont Road to SH-55 near Chicken Dinner; and is anticipated to traverse across southern Canyon County, south of Lake Lowell. To the east, the corridor will tie into Nampa Highway District's Bowmont Road Corridor and Ada County Highway District's Kuna-Mora Corridor. Nampa Highway District and Canyon Highway District will examine long-term function of the road to determine preferred alignments, setbacks and access management standards, in concert with planned land uses.

Idaho's Mobility and Access Pathways (IMAP)

Sponsor: Community Transportation Association of Idaho

Status: Ongoing

Web Link: <http://i-way.org/>

Idaho's Mobility and Access Pathways (IMAP) signifies the emergence of a new model for public transportation that places an emphasis on the concept of coordinated mobility. Coordinated mobility focuses on moving people, rather than the traditional notions of moving vehicles or other transportation modes. IMAP is driven by local communities made up of individual citizens, advocacy groups, transportation providers, human service agencies, and local leaders. These

coordinating efforts are intended to shape decisions for public transportation and mobility services in communities throughout Idaho.

Idaho (S.H.) 44 Corridor Preservation Study

Sponsors: Idaho Transportation Department

Status: Ongoing

Website: <http://www.itd.idaho.gov/Projects/D3/SH44Corridor/>

The study will provide a corridor plan, an environmental document to identify future right-of-way needs, and an access management plan. The Idaho 44 corridor study extends from Eagle Rd through Star and Middleton to I-84 in Canyon County.

Kuna-Mora Road Corridor Study – Phase II

Sponsor: Ada County Highway District

Status: Project on hold

Web Link: <http://www.achdidaho.org/Projects/PublicProject.aspx?ProjectID=127>

Phase I was completed November 2008 providing a detailed review and analysis of the Kuna-Mora Road corridor through 2030. Phase II will look specifically at the 8-mile segment of Kuna-Mora Road from the Canyon County line east to Eagle Road. Phase II will evaluate potential alignment options for this segment of the roadway. A preferred alignment will ultimately be established for the 8-mile segment. The Phase II study process will: 1) Seek public participation and input, 2) Utilize agency coordination (i.e. between ACHD and City of Kuna, Ada County, Boise City, Nampa Highway Department, Canyon County, ITD, Idaho Department of Lands, City of Nampa, Idaho DEQ, etc.), 3) Work to minimize impacts to existing residences, cultural and topographic elements, 4) Use Phase I study recommendations in evaluating alignment options. The most current project information can be found by clicking the project name above.

Mobility Management Strategies

Sponsor: Valley Regional Transit

Status: Ongoing

This project will research and develop regional mobility management strategies to provide tools for better managing and delivering coordinated transportation services throughout the region to individuals with disabilities, those with low incomes and older adults. The project will analyze service coverage and gaps, compile options to use new and existing technologies to enhance access and mobility, provide better tools to better integrate mobility management into local land use decisions, and develop performance measures to assess accessibility, efficiency and effectiveness of transportation services.

State Highway 19 Corridor Study

Sponsor: Idaho Transportation Department

Status: TBD

Web link: <http://itd.idaho.gov/Projects/D3/I19Corridor/default.asp>

Provide a 10-year corridor plan for SH 19 between the City of Wilder and the City of Caldwell. Public meetings have been completed for the study. The completion and release of the study has yet to be scheduled.

State Highway 55 Corridor Study

Sponsor: Idaho Transportation Department

Status: Expected completion in 2011

Web link: <http://itd.idaho.gov/Projects/D3/ID55Corridor/>

Study will provide a corridor plan from U.S. 95 (near Marsing) to U.S. 95 (at New Meadows).

State Street Implementation Plan

Participants: Ada County, Ada County Highway District (ACHD), City of Boise, City of Eagle, City of Garden City, COMPASS, Idaho Transportation Department (ITD), Northside Neighborhood Transportation, and Valley Regional Transit

Status: Completed Fall 2011

Web link:

http://www.valleyregionaltransit.org/Portals/0/Studies/StateStreet/StateStreetTTO P_ImplementationPlan_Draft.pdf

Study will continue implementing the State Street Corridor Memorandum of Understanding (MOU) between Boise City, Garden City, ACHD, city of Eagle, Valley Regional Transit, and Ada County. The City of Boise and the City of Garden City adopted the *State Street Corridor Transit Oriented Policy Guidelines* in 2008. ACHD is close to completion of the State Street Right-of-Way and Alignment Study. Valley Regional Transit and ACHD are co-leads on the Transit and Traffic Operations Plan scheduled to begin in June 2009. COMPASS will be leading coordination efforts beginning late 2010.

US 20/26 Corridor Study

Sponsors: Idaho Transportation Department

Status: Expected completion in 2011

Website: http://www.itd.idaho.gov/Projects/D3/US2026_I84_Corridor/default.asp

This study will provide a corridor plan to identify current and future highway needs for more than 14 miles of U.S. 20/26 extending from I-84 near Caldwell to Nyssa, Oregon.

US Highway 95 Corridor Plan

Sponsor: Idaho Transportation Department

Status: Expected completion in 2011

Website: <http://itd.idaho.gov/Projects/D3/US95Corridor/>

The corridor study area for U.S. 95 extends from the Nevada State Line to District Three boundary north of New Meadows. The completed plan will include an analysis of the existing highway conditions, future demand for the next 20 years, and short/long-term list of improvements necessary for the corridor. The south

segment, consisting of Owyhee and Canyon Counties, and the north segment, from Weiser to the Idaho County line, could be in draft form in spring 2011.
