FY2019 UNIFIED PLANNING WORK PROGRAM AND BUDGET REVISION 2

INTRODUCTION

The development of the Community Planning Association of Southwest Idaho's (COMPASS) Unified Planning Work Program and Budget includes COMPASS Board involvement and acceptance of the Planning Factors and Program Objectives as identified in this document. COMPASS serves as the metropolitan planning organization for Ada and Canyon Counties in southwest Idaho.

The following steps represent the review process and adoption of this document:

- The Finance Committee, a standing committee of the COMPASS Board, reviews the financial information contained in the Unified Planning Work Program and Budget, and presents a recommendation to the COMPASS Board.
- The Unified Planning Work Program and Budget is then presented to the full COMPASS Board for adoption. With formal adoption, the Unified Planning Work Program and Budget is forwarded to the Idaho Transportation Department, the Federal Highway Administration, and the Federal Transit Administration for approval.

Revision 2 of the FY2019 Unified Planning Work Program consists of four parts:

- Detailed descriptions by Program Number.
- Financial budget documents that address the components by funding sources and expenditures. These documents include: Revenue and Expense Summary, Expenses by Work Program Number and Funding Source, Direct Expense Summary, Indirect Operations and Maintenance Expense Summary, and the Workday Allocation.
- A Transportation Supplement showing funding sources for Valley Regional Transit, the public transportation authority for Ada and Canyon Counties.
- Documentation of other significant transportation planning projects occurring within the COMPASS planning area.

COMPASS BOARD AGENDA ITEM V-C

Date: April 15, 2019

Topic: Revision 2 of the FY2019 Unified Planning Work Program and Budget

Request/Recommendation:

COMPASS staff seeks COMPASS Board of Directors' adoption of Resolution 09-2019 approving Revision 2 of the FY2019 Unified Planning Work Program and Budget (UPWP).

Background/Summary:

Federal metropolitan planning rules require that COMPASS produce a UPWP, which is periodically amended to accommodate changes in revenues, expenses, staffing, and scope. These amendments are usually accomplished through a Board resolution with subsequent distribution of the approved resolution and documents to the appropriate funding agencies.

The Finance Committee reviewed the proposed amendments at its March 21, 2019, meeting and recommended approval of Revision 2 of the FY2019 UPWP as presented.

The following revisions to revenues are proposed in Revision 2 of the FY2019 UPWP:

- Add \$7,000 for the COMPASS Data Bike. The funding for this is made up of \$5,600 from FHWA T2 grant funds and \$1,400 of matching funds from COMPASS fund balance.
- Add \$195 for the Rails with Trails project. The funding for this is from COMPASS fund balance.

The following revisions to expenses are proposed in Revision 2 of the FY2019 UPWP:

- Add \$7,000 to purchase an electric cargo bicycle, video camera, phone-based accelerometer, and gyroscope to collect pavement roughness data and imagery along pathways and bicycle lanes. This equipment will be used to complement the existing bicycle and pedestrian counter program at COMPASS and assist cities, counties, and highway districts within Ada and Canyon Counties in prioritization of scarce transportation dollars.
- Add \$195 to cover estimated costs of a Rails with Trails study.

Implication (policy and/or financial):

Without COMPASS Board adoption of Revision 2 of the FY2019 UPWP, the agency cannot make full use of available revenues.

The task is designed to help identify additional revenue sources for member agencies to assist in funding improvements an going maintenance of the transportation system; also assists member agencies in implementing the regional long-range transportation plan, Communities in Motion 2040, and the annual TIP. Under 12 CFR § 450.306 and 23 CFR § 450.324 COMPASS is required to develop a TIP in cooperation with ITD and public transportation operators. Certain additional requirements are required in the Boise Urbanized Area because it is considered a Transportation Management Area (TMA). TIP is required to be updated every four years; however, COMPASS follows the update cycle of ITD's Idaho Transportation Investment Program (ITIP), which is updated annually. All projects receiving federal funding must be consistent with the regional long-range transportation plan. The TIP is tied to the Air Quality Conformity Demonstration to ensure funded project on two violate budgets set in the State Implementation Plan (SIP) (the document that sets air quality budgets for the State Idaho). The TIP is also scrutinized in the federal Certification Review.
