## **FY2022 UNIFIED PLANNING WORK PROGRAM AND BUDGET – Revision 3**

### **INTRODUCTION**

The development of the Community Planning Association of Southwest Idaho's (COMPASS) Unified Planning Work Program and Budget includes COMPASS Board involvement and acceptance of the Planning Factors and Program Objectives as identified in this document. COMPASS serves as the metropolitan planning organization for Ada and Canyon Counties in southwest Idaho.

The following steps represent the review process and adoption of this document:

- The Finance Committee, a standing committee of the COMPASS Board, reviews the financial information contained in the Unified Planning Work Program and Budget, and presents a recommendation to the COMPASS Board.
- The Unified Planning Work Program and Budget is then presented to the full COMPASS Board for adoption. With formal adoption, the Unified Planning Work Program and Budget is forwarded to the Idaho Transportation Department, the Federal Highway Administration, and the Federal Transit Administration for approval.

Revision 3 of the FY2022 Unified Planning Work Program consists of four parts:

- Detailed descriptions by Program Number.
- Financial budget documents that address the components by funding sources and expenditures. These documents include: Revenue and Expense Summary, Expenses by Work Program Number and Funding Source, Direct Expense Summary, Indirect Operations and Maintenance Expense Summary, and the Workday Allocation.
- A Transportation Supplement showing funding sources for Valley Regional Transit, the public transportation authority for Ada and Canyon Counties.
- Documentation of other significant transportation planning projects occurring within the COMPASS planning area.

## COMPASS BOARD OF DIRECTORS AGENDA ITEM III-E Date: April 18, 2022

### Topic: Revision 3 of the FY2022 Unified Planning Work Program and Budget

#### Request/Recommendation:

COMPASS staff seeks COMPASS Board of Directors' adoption of Resolution 14-2022 approving Revision 3 of the FY2022 Unified Planning Work Program and Budget (UPWP).

#### Background/Summary:

Federal metropolitan planning rules require that COMPASS produce a UPWP, which is periodically amended to accommodate changes in revenues, expenses, staffing, and scope. These amendments are usually accomplished through a Board resolution with subsequent distribution of the approved resolution and documents to the appropriate funding agencies.

The Finance Committee reviewed the proposed amendments at its March 24, 2022, meeting and recommended approval of Revision 3 of the FY2022 UPWP as presented.

The following revisions to revenues are proposed in Revision 3 of the FY2022 UPWP:

- Add \$30,878 of Surface Transportation Block Grant-Transportation Management Area (STBG-TMA) funds from Key Number 19571, *Communities in Motion 2050* (CIM 2050). These are unspent funds that were obligated in prior years and held for future needs related to CIM 2050. Staff has identified a need to expand the scope of the I-84 Corridor Operations plan to include an analysis of high occupancy vehicle lanes on the corridor.
- Add matching funds of \$2,445 from fund balance for the addition of the CIM 2050 STBG-TMA funds.
- Add \$21,676 from fund balance. These are the funds remaining from the funding provided by ITD as its contribution to the I-84 Operations Plan.

The following revisions to expenses are proposed in Revision 3 of the FY2022 UPWP:

- Add \$55,000 to program number 661001, Long Range Planning, to cover increased costs associated with additional work on the I-84 Operations Study, related to the high occupancy vehicle study.

#### Implication (policy and/or financial):

Without COMPASS Board of Directors' adoption of Revision 3 of the FY2022 UPWP, the agency cannot make full use of available revenues.

<b>PROGRAM NO.</b>	<b>620</b>			<b>CLASSIFICATION:</b>	<b>Project</b>
<b>TITLE:</b>	<b>Demographics and Growth Monitoring</b>				
<b>TASK / PROJECT DESCRIPTION:</b>	To collect, analyze, and report on growth and transportation patterns related to goals in the regional long-range transportation plan. This includes providing demographic data, such as population and employment estimates, Census 2020 data review, providing relevant information for local decision-making, and updating demographic forecasts based on new entitlements and policies.				
<b>PURPOSE, SIGNIFICANCE, AND REGIONAL VALUE:</b>	Tracking and monitoring growth and system demands are critical to several planning efforts: 1) <i>Communities in Motion</i> as well as other corridor, subarea, and alternative analyses depend on accurate data and assumptions about current and future transportation, housing, and infrastructure demands; 2) The travel demand model also requires current and accurate housing and employment data; 3) Accessing, mapping, and disseminating census data and training enables member agencies to have data for studies, grants, land use allocation demonstration modeling, and other analyses, and is an often requested member service; 4) Development review, including the fiscal impact analysis, enables local decision-makers to bridge regional and local planning efforts to provide growth supportive of <i>Communities in Motion</i> ; and 5) Census data review enables COMPASS data to reflect the results of the 2020 Census.				
<b>FEDERAL REQUIREMENT, RELATIONSHIP TO OTHER ACTIVITIES, FEDERAL CERTIFICATION REVIEW:</b>	Federal Code 23 CFR § 450.322 (b) -- Long-range plans require valid forecasts of future demand for transportation services that are based on existing conditions that can be included in the travel demand model. In updating the transportation plan, the MPO shall use the latest available estimates and assumptions for population, land use, travel, employment, congestion, and economic activity. "The metropolitan transportation plan shall, at a minimum, include (1) The projected transportation demand of persons and goods in the metropolitan planning area over the period of the transportation plan...."

<b>PROGRAM NO.</b>	653			<b>CLASSIFICATION:</b>	Project
<b>TITLE:</b>	Communication and Education				
<b>TASK / PROJECT DESCRIPTION:</b>	The Communication and Education task broadly includes external communications, public relations, public involvement, public education, and ongoing COMPASS Board education. Specific elements of the task include, but are not limited to, managing the ongoing COMPASS education series, the annual COMPASS 101 workshop, periodic Board workshops, and the Leadership in Motion awards program; writing the annual report, <i>Keeping Up With COMPASS</i> newsletter, brochures, web content, news releases, and other documents; managing COMPASS' social media channels; supporting the Public Participation Workgroup; and representing COMPASS at open houses and other events.				
<b>PURPOSE, SIGNIFICANCE, AND REGIONAL VALUE:</b>	The Communication and Education program helps COMPASS facilitate public involvement in, and understanding of, transportation and related planning efforts by planning and implementing an integrated communications/education and public involvement strategy.				
<b>FEDERAL REQUIREMENT, RELATIONSHIP TO OTHER ACTIVITIES, FEDERAL CERTIFICATION REVIEW:</b>	Federal Code 23 CFR § 450.316 requires public input and involvement in metropolitan planning organization planning activities. Public involvement for specific programs (e.g., regional transportation improvement program, regional long-range transportation plan [ <i>Communities in Motion</i> ]) is planned and budgeted under those programs. The Communication and Education task supports that outreach and involvement through developing and updating the COMPASS participation plan, coordinating outreach efforts, and providing more general (non-program specific) opportunities for the public to learn about transportation, planning, financial, and related issues to support federally required public involvement efforts.

PROGRAM NO.	661	CLASSIFICATION:	Project		
<b>TITLE:</b>	<b>Long Range Planning</b>				
<b>TASK / PROJECT DESCRIPTION:</b>	This project encompasses the activities to identify regional transportation needs and solutions, and prepare a regional long-range transportation plan, <i>Communities in Motion</i> (CIM), for Ada and Canyon Counties. This task also incorporates implementation support for the adopted long-range transportation plan and ongoing long-range planning activities.				
<b>PURPOSE, SIGNIFICANCE, AND REGIONAL VALUE:</b>	<i>Communities in Motion</i> (CIM) is developed in cooperation with member agencies, local governments and the Idaho Transportation Department by a continuing, cooperative, and comprehensive planning process. This performance and outcome-based planning will help guide resources to infrastructure and service projects that collectively help achieve the regional (CIM) goals.				
<b>FEDERAL REQUIREMENT, RELATIONSHIP TO OTHER ACTIVITIES, FEDERAL CERTIFICATION REVIEW:</b>	Federal Code 23 CFR § 450 "Fixing America's Surface Transportation Act" (FAST Act) requires that the regional long-range transportation plan be updated every four years in areas with more than 200,000 people or with air quality issues. Since the area meets the test on both criteria, a new plan has to be adopted by 2019. 23 USC 150-- establishes national goals and a performance program, in consultation with stakeholders, including metropolitan planning organizations. The purpose is to provide a means to the most efficient investment of federal transportation funds.

<b>PROGRAM NO.</b>	<b>685</b>				<b>CLASSIFICATION:</b>	<b>Project</b>
<b>TITLE:</b>	<b>Resource Development/Funding</b>					
<b>TASK / PROJECT DESCRIPTION:</b>	Develop a FY2023-2029 Regional Transportation Improvement Program (TIP) for Ada and Canyon Counties that complies with all federal, state, and local regulations and policies for the purpose of funding transportation projects. Process amendments and provide project tracking and monitoring for the FY2022-2028 TIP. COMPASS staff, with consultant assistance, will assist member agencies in taking project ideas and transforming them into well-defined projects with cost estimates, purpose and need statements, environmental scans, and public information plans. Grant research, development and grant administration is expected to secure additional funding into the region. COMPASS will award <i>Communities in Motion</i> (CIM) Implementation Grants to member agencies after appropriate outreach, prioritization, and contract due diligence.					
<b>PURPOSE, SIGNIFICANCE, AND REGIONAL VALUE:</b>	Implement requested projects by member agencies, and leverage local dollars. Well defined and scoped projects with accurate project costs and schedules allow strong grant applications, linked closely with CIM 2040 goals and performance measures, increase the delivery of funded projects on time and on budget. These efforts provide the necessary federal documentation for member agencies to obtain federal funding for transportation projects. Staff provides assistance to member agencies to ensure projects meet deadlines and do not lose federal funding through project monitoring and committee participation.					
<b>FEDERAL REQUIREMENT, RELATIONSHIP TO OTHER ACTIVITIES, FEDERAL CERTIFICATION REVIEW:</b>	The task is designed to help identify additional revenue sources for member agencies to assist in funding improvements and on-going maintenance of the transportation system; also assists member agencies in implementing the regional long-range transportation plan, <i>Communities in Motion 2040 2.0</i> , and the annual TIP. Under 12 CFR § 450.306 and 23 CFR § 450.324, COMPASS is required to develop a TIP in cooperation with ITD and public transportation operators. Certain additional requirements are required in the Boise Urbanized Area because it is considered a Transportation Management Area (TMA). The TIP is required to be updated every four years; however, COMPASS follows the update cycle of ITD's Idaho Transportation Investment Program (ITIP), which is updated annually. All projects receiving federal funding or considered regionally significant must be consistent with the regional long-range transportation plan. The TIP is tied to the Air Quality Conformity Demonstration to ensure funded projects do not violate budgets set in the State Implementation Plan (SIP) (air quality budgets for the State of Idaho). The TIP is also scrutinized in the federal Certification Review.

<b>PROGRAM NO.</b>	<b>842</b>			<b>CLASSIFICATION:</b>	<b>System Maintenance</b>
<b>TITLE:</b>	<b>Congestion Management Process</b>				
<b>TASK / PROJECT DESCRIPTION:</b>	Maintain a functional congestion management system (CMS) for the Treasure Valley. Conduct data collection, update the congestion management process as needed, produce an annual Transportation System Monitoring Report, maintain regional intelligent transportation system (ITS) architecture. Research, provide, and monitor transportation demand management (TDM) strategies. Develop strategy for congestion management data collection.				
<b>PURPOSE, SIGNIFICANCE, AND REGIONAL VALUE:</b>	Provides annual CMS report of the congestion levels on major corridors that compares previous year results, and explains the reason for the change. Typically, reason for change is improvements needed such as signal timing and ITS. Periodic needs are: baseline data collection of vehicle occupancy rates, additional research and evaluation of possible transportation demand management strategies.				
<b>FEDERAL REQUIREMENT, RELATIONSHIP TO OTHER ACTIVITIES, FEDERAL CERTIFICATION REVIEW:</b>	Federal Code 23 CFR § 450.322 -- Congestion Management Process is one of the Planning Factors and is required in Transportation Management Areas (TMA). COMPASS has been collecting travel time data since 2003, which provides a summary of how the major roads are functioning during the am and pm peak hours. This process and its results have been integrated into the transportation improvement program prioritization process. Travel time data collection and a data management plan are also required for MPOs in federal legislation. Furthermore, FHWA Final Rule and FTA Policy on ITS requires that all ITS projects funded by highway trust fund or Mass Transit Account conform to the National ITS Architecture.

<b>PROGRAM NO.</b>	<b>860</b>			<b>CLASSIFICATION:</b>	<b>System Maintenance</b>
<b>TITLE:</b>	<b>Geographical Information System Maintenance (GIS)</b>				
<b>TASK / PROJECT DESCRIPTION:</b>	Planning activities depend on current and accurate geographic information. For data to be available in a quality suitable for planning, continual data acquisition is necessary. This involves partnering with other GIS stakeholders, data maintenance, editing, and creating new data from GPS and orthophotography.				
<b>PURPOSE, SIGNIFICANCE, AND REGIONAL VALUE:</b>	GIS data and technology are used for internal budget support. COMPASS also provides this geographic information to its members and the general public in the form of maps, data, and analysis. COMPASS works in conjunction with its member agencies via the Regional Geographic Advisory Workgroup (RGAWG) to create regional data that can be used for many purposes.
