

## **Leadership in Practice, Volunteer**

### **Ray Hoobing**

Ray Hoobing is a strong asset in implementing the goals and vision of *Communities in Motion*.

Ray serves as the Vice Chair of the Ada County Highway District's (ACHD's) Bicycle Advisory Committee and facilitates positive dialog to ensure the county's roadways are available for all users.

Additionally, over the past two years, Ray has represented the committee on a technical team to update ACHD's Bicycle Master Plan and League of American Cyclists Bike Friendly Community application.

These efforts required significant hours over and above Ray's normal volunteer duties on the Bicycle Advisory Committee.

Additionally, Ray believes in being engaged, and attends as many of ACHD's public involvement meetings as possible. He provides valuable feedback as to how well different projects will "work" for cyclists. His input is always positive, even when suggesting changes to a project. He helps make the transportation system in Ada County safer and more accessible for all users.

Ray is a strong and reasoned advocate, ensuring balance in the way the region's transportation system develops.
