

Communities in Motion 2040 Development Review

The Community Planning Association of Southwest Idaho (COMPASS) is the metropolitan planning organization (MPO) for Ada and Canyon Counties. COMPASS has developed this review as a tool for local governments to evaluate whether land developments are consistent with the goals of *Communities in Motion 2040 (CIM 2040)*, the regional long-range transportation plan for Ada and Canyon Counties. This checklist is not intended to be prescriptive, but rather a guidance document based on *CIM 2040 goals*.

Development Name: Laguna Farms (SPP-00035-2018)

Agency: Nampa

CIM Vision Category: Transit Oriented Development

New households: 312

New jobs: 30

Exceeds CIM forecast: No

	<p>CIM Corridor: N/A Pedestrian level of stress: R-Idaho Center Bicycle level of stress: R-Idaho Center</p>	<p>Level of Stress considers facility type, number of vehicle lanes, and speed. Roads with G or PG ratings better support bicyclists and pedestrians of all ages and comfort levels.</p>
	<p>Housing within 1 mile: 1,009 Jobs within 1 mile: 2,441 Jobs/Housing Ratio: 2.42</p>	<p>A good jobs/housing balance – a ratio between 1 and 1.5 – reduces traffic congestion. Higher numbers indicate the need for more housing and lower numbers indicate an employment need.</p>
	<p>Nearest police station: >4 miles Nearest fire station: 2.4 miles</p>	<p>Developments within 1.5 miles of police and fire stations ensure that emergency services are more efficient and reduce the cost of these important public services.</p>
	<p>Farmland consumed: Yes Farmland within 1 mile: 675 acres</p>	<p>Farmland contributes to the local economy, creates additional jobs, and provides food security to the region. Development in farm areas decreases the productivity and sustainability of farmland.</p>
	<p>Nearest bus stop: 0.2 miles Nearest public school: 1.4 miles Nearest public park: 0.4 miles Nearest grocery store: 1.1 miles</p>	<p>Residents who live or work less than ½ mile from critical services have more transportation choices. Walking and biking reduces congestion by taking cars off the road, while supporting a healthy and active lifestyle.</p>

Recommendations

The location is an infill site in an employment-centric area, with thousands of jobs within a mile of the site. It is also adjacent to the College of Western Idaho. This location may reduce trip length and encourage bicycle and pedestrian use.

The proposal provides commercial and multi-family housing near a bus route, public school, public park, and grocery store. Public transportation services is approximately ¼ miles south at East Terra Linda Way. Three intercounty routes serve this location to the rest of the region. Quality pedestrian amenities are important to the success of transit ridership. Consider a safe crossing for pedestrians of Idaho Center Boulevard. Consider adding a multiuse pathway along the Purdum Gulch Drain per the 2011 Nampa Bike\Ped Plan.
