

Leadership in Practice, Professional

Caleb Lakey, Engineering Manager Idaho Transportation Department District 3

Caleb Lakey epitomizes the Idaho Transportation Department's (ITD's) vision for seeking safety, mobility, and economic opportunity. His open-book approach, skill for finding common ground, and tenacity in problem solving have made him a great asset in the Treasure Valley.

Caleb inspires teamwork and cooperation wherever he goes. His approach has been a great help in many projects including widening US 20/26, planning for improvements to State Highway 55, and implementing the transfer of the I-84 business loop in Caldwell to the City of Caldwell.

Caleb's work has, and continues to, further the goals of *Communities in Motion* in the areas of transportation, safety, infrastructure, health, and economic development.
