Meridfan:ID:83642
P. $208.855 \% 2528$
$12=208: 8552559$

WHEREAS, the Community Planning Association has been designated by the Governor of Idaho as the Metropolitan Planning Organization responsible for transportation planning in Northern Ada County and the Nampa Urbanized Area;

WHEREAS, the Safe, Accountable, Flexible, and Efficient Transportation Equity Act - a Legacy for Users and 23 United States Code Section 134 require Metropolitan Planning Organizations to develop and approve a Transportation Improvement Program;

WHEREAS, the Safe, Accountable, Flexible, and Efficient Transportation Equity Act - a Legacy for Users and 23 United States Code Section 134 requires projects contained in the Transportation Improvement Program to be financially constrained;

WHEREAS, the 1990 Clean Air Act Amendment requires all transportation plans and programs in nonattainment and maintenance areas demonstrate conformity to applicable state implementation plans for air quality improvements;

WHEREAS, a public comment period was held for the new and removed projects as required for this type of amendment to the Transportation Improvement Program;

WHEREAS, the Community Planning Association desires to amend the FY 20072011 Northern Ada County Transportation Improvement Program when significant changes occur as part of timely reviews;

WHEREAS, the Community Planning Association desires to take timely action to insure the availability of Federal Funds; and

WHEREAS, the attached table dated November 20, 2006, details the adjustments to the FY 2007-2011 Northern Ada County Transportation Improvement Program due to adjustments to the GARVEE program.

NOW, THEREFORE, BE IT RESOLVED, that the Community Planning Association Board adopts this amendment and the associated Air Quality Conformity Demonstration to the FY 2007-2011 Northern Ada County Transportation Improvement Program.

Dated this 20th day of November 2007.

# FOR THE PURPOSE OF AMENDING THE FY2007-2011 NORTHERN ADA COUNTY AND NAMPA URBANIZED AREA TRANSPORTATION IMPROVEMENT PROGRAMS 

WHEREAS, the Community Planning Association has been designated by the Governor of Idaho as the Metropolitan Planning Organization responsible for transportation planning in Northern Ada County and the Nampa Urbanized Area;

WHEREAS, the Safe, Accountable, Flexible, and Efficient Transportation Equity Act - a Legacy for Users and 23 United States Code Section 134 require Metropolitan Planning Organizations to develop and approve a Transportation Improvement Program;

WHEREAS, the Safe, Accountable, Flexible, and Efficient Transportation Equity Act - a Legacy for Users and 23 United States Code Section 134 requires projects contained in the Transportation Improvement Programs to be financially constrained;

WHEREAS, a public comment period was not necessary for these types of amendments to the Transportation Improvement Programs;

WHEREAS, the Community Planning Association desires to amend the FY 20072011 Northern Ada County and Nampa Urbanized Area Transportation Improvement Programs when significant changes occur as part of timely reviews;

WHEREAS, the Community Planning Association desires to take timely action to insure the availability of Federal Funds; and

WHEREAS, the attached table dated January 19, 2007, details the amendments to the FY 2007-2011 Northern Ada County and Nampa Urbanized Area Transportation Improvement Programs due to adjustments to the GARVEE program, an addition of a safety project, and removal of FTA 5309 projects for FY 2007.

NOW, THEREFORE, BE IT RESOLVED, that the Community Planning Association Board adopts this amendment to the FY 2007-2011 Northern Ada County and Nampa Urbanized Area Transportation Improvement Programs.

Dated this $22^{\text {nd }}$ day of January 2007.

## I. INTRODUCTION

The Transportation Improvement Program (TIP) is a short-range (3-5 year) capital improvement program (budget) of transportation projects consistent with federal regulations and area policies and strategies. The State Transportation Improvement Program (STIP) is the state's short-range capital improvement program. The TIP and STIP must contain consistent information about transportation projects.

The TIP is developed through a cooperative process by the Community Planning Association of Southwest Idaho (COMPASS), the designated Metropolitan Planning Organization (MPO) for the Nampa Urbanized Area and the Northern Ada County Transportation Management Area (TMA). This process involves extensive participation by the Idaho Transportation Department (ITD), the Ada County Highway District (ACHD), Ada County, the cities of Boise, Garden City, Meridian, Kuna, Eagle, and Star, and Valley Regional Transit, the regional public transportation agency.

The TIP must be consistent with the regional long range transportation plan, Communities in Motion. The COMPASS Board of Directors adopted Communities in Motion on August 21, 2006. The plan is comprised of long-range transportation corridors, a short-range transit component, air quality conformity, pathway development, and transportation system management elements. Communities in Motion is consistent with the goals and objectives of the area's comprehensive plans.

The first three years of the TIP are of special interest since the years are considered as "budgeted," while the remaining years are more informational in nature. The latter projects are listed to provide a framework for transportation needs that move from the planning stage to the implementation stage. The TIP, per federal regulations, includes information on the status of projects in the first year of the previous TIP.

This document includes all federally funded projects and those non-federally funded projects deemed "Regionally Significant" for air quality conformity purposes. This list is not a formal component of the TIP. The TIP projects identified in this document are within the estimates of available funds from a variety of sources, both federal and non-federal.

The Northern Ada County TMA includes the cities of Boise, Eagle, Meridian, and Garden City and their adjacent densely settled area. The metropolitan planning area of COMPASS follows the boundaries of the Northern Ada County Maintenance Area. The Maintenance Area encompasses the entire area of Ada County north of the Boise Baseline (Figure 1), located from seven miles south of the city of Kuna to include all the county north of that line. The U.S. Environmental Protection Agency (EPA) has designated this area as an air shed in which the levels of carbon monoxide (CO) and particulate matter $\left(\mathrm{PM}_{10}\right)$ previously exceeded the national health standards, but now has established plans ensuring those health standards are met in the future.

Figure 1
Northern Ada County - Maintenance Area

## II. PUBLIC OUTREACH EFFORTS

The public outreach process for the annual Transportation Improvement Program begins approximately 12 months prior to its final approval. This effort includes requesting input from the local governments in the Boise and Nampa Urbanized Areas as well as from the general public.

Local Government's Input. Local governments in Northern Ada County have designated Transportation Task Force Committees to provide input into the development of the annual Transportation Improvement Program and the Ada County Highway District's Five-Year Work Program. During the period of August 2005 through December 2005, staff of COMPASS and Ada County Highway District met with designated Transportation Task Force Committees to solicit their desired transportation projects for inclusion in this document.

Ada County Highway District's Capital Investment Citizens Advisory Committee (CICAC). The Ada County Highway District's Citizens Advisory Committee met to review the allocation of public dollars to local roadway improvements in Ada County. The Capital Investment Citizens Advisory Committee considered communities' transportation needs and recommended funding priorities to the Ada County Highway District Commission.

COMPASS Regional Technical Advisory Committee (RTAC). The Regional Technical Advisory Committee is comprised of technical experts representing counties, cities, school districts, and various municipal service agencies in Ada and Canyon Counties. The Regional Technical Advisory Committee makes recommendations to the COMPASS Board of Directors regarding planning activities. The Regional Technical Advisory Committee has been involved throughout the Transportation Improvement Program development process. Representatives of Ada County on the Committee reviewed and made recommendations to the COMPASS Board on the approval of this document.

Public Comment Period. July 6 through August 3, 2006, was designated as the public comment period on the proposed FY 2007-2011 Northern Ada County Transportation Improvement Program.

Public Information Meeting. COMPASS hosted an open house and public meeting for the FY 2007-2011 Northern Ada County Transportation Improvement Program on July 19, 2006 from 10:00 a.m. to 7:00 p.m., in the COMPASS conference room. Staff members from COMPASS, ITD, Valley Regional Transit, and Commuteride presented proposed projects and provided general information on transportation planning and services. The public information meeting was attended by twenty people.

Media. Display advertisements about the public meeting appeared in the Idaho Statesman on July 16, 17, 18, and 19, 2006 and the Idaho Press-Tribune on July 17, 18, and 19, 2006.

News Release. COMPASS sent a news release about the public meeting to the Treasure Valley's print, visual, and radio media on June 28, 2006 and July 17, 2006.

Legal Notice. COMPASS published a legal notification for the Transportation Improvement Programs in The Idaho Statesman and the Idaho Press-Tribune on July 4, 5, and 6, 2006.

COMPASS Internet Website. Information about the public meeting and the proposed Transportation Improvement Programs were posted on the COMPASS website on July 6, 2006 (www.compassidaho.org). The notification encouraged the public to use this medium to submit comments. Draft project lists of the Transportation Improvement Programs were also posted on the website.

Direct Mail. COMPASS mailed 1,138 postcards and emailed notice to 1,328 citizens and neighborhood organizations in Ada and Canyon Counties, notifying them of the time and place of the public meeting and the availability of the draft project list. Citizens were encouraged to submit comments on the draft Transportation Improvement Programs.

Written Comments. In addition to the public meeting and website, the public was encouraged to submit written comments throughout the public comment period.

Special Assistance. All COMPASS notifications and advertisements include the following statements for people in need of special assistance:
"People needing special assistance can call 855-2558 - with 48 hours advance notice."
and
"Personas que necesitan assistancia para la junta, favor de llamar al numero 855-2558 con 48 horas de participacion."

## III. AIR QUALITY CONFORMITY

The FY 2007-2011 Northern Ada County Transportation Improvement Program was reviewed by COMPASS staff for air quality conformity as required by federal law. The complete Air Quality Conformity Demonstration of this document, Conformity Demonstration of the FY 2007-2011 Northern Ada County Transportation Improvement Program, Community Planning Association Report Number 11-2006, is provided under separate cover.

## Background

The 1990 Clean Air Act Amendments (CAAA), requires all transportation plans, programs, and projects in a non-attainment or maintenance area to conform to their applicable State Implementation Plans (SIP). The Final Air Quality Conformity Rule and its amendments provide guidelines for such a demonstration.

Transportation conformity is demonstrated when a non-attainment or maintenance area can show, within the applicable guidelines and regulations, that planned transportation projects listed in a transportation program or plan will not cause or contribute to exceedances of the Environmental Protection Agency (EPA) health based air quality standards. A finding of nonconformance of a transportation improvement program or plan would prevent the implementation of certain federally funded and/or regionally significant transportation projects.

In the past, Northern Ada County was designated non-attainment for two of the criteria pollutants: carbon monoxide ( CO ) and course particulate matter $\left(\mathrm{PM}_{10}\right)$. Over the past decades, the air quality and transportation agencies in Northern Ada County have made extensive efforts to reduce concentrations of these two pollutants:

Carbon Monoxide. Northern Ada County has not measured a violation of the National Ambient Air Quality Standards (NAAQS) for CO since 1987. In December 2002, the U.S. EPA approved a Limited Maintenance Plan for Northern Ada County. According to the federal air quality regulations, areas under a limited maintenance plan are not required to provide regional emissions analysis as part of their air quality conformity demonstration. The Idaho Department of Environmental Quality (IDEQ), however, requires a build/no-build analysis for transportation plans and programs.

Course Particulate Matter. Northern Ada County has not measured a violation of the NAAQS for $\mathrm{PM}_{10}$ since January 1991. On September 30, 2003, the EPA approved the Northern Ada County maintenance
plan for $\mathrm{PM}_{10}$. The maintenance plan contains budgets for particulate matter $\left(\mathrm{PM}_{10}\right)$, nitrogen oxides ( NOx ) and volatile organic compounds (VOC).

## Finding

The Northern Ada County PM 10 SIP Maintenance Plan and Redesignation Request contains motor vehicle emissions budgets for three pollutants: coarse particulate matter $\left(\mathrm{PM}_{10}\right)$, oxides of nitrogen $\left(\mathrm{NO}_{\mathrm{x}}\right)$, and volatile organic compounds (VOCs). Emissions budget tests, as required by 40CFR93.118, demonstrate conformity of the FY 2007-2011 Northern Ada County Transportation Improvement Program from 2007 to the year 2030.

## IV. STATUS OF LOCAL PLANNING ACTIVITIES

The TIP is in accordance with the area's development goals and priorities as specified in the long and short range plans. The following planning documents have been consulted in preparing this TIP:

2007-2011 Five-Year W ork Program, Ada County Highway District, January 18, 2006.
ADA Paratransit Plan (as updated annually by the Boise City Council through 1996).
Communities in Motion, Regional Long Range Transportation Plan for Ada, Boise, Canyon, Elmore, Gem and Payette Counties, adopted by the COMPASS Board on August 21, 2006.

I-84 Corridor Study, Executive Summary, adopted by the COMPASS Board in October 2001.
Limited Maintenance Plan and Request for Redesignation to Attainment for the Northern Ada County Carbon Monoxide Not-Classified Nonattainment Area, IDEQ, 2001.

Northern Ada County PM $1_{10}$ Maintenance Plan and Redesignation Request, IDEQ, 2002.
Ridge-to-Rivers Pathway Plan, endorsed by Ada Planning Association Board on May 17, 1993.
Statewide Transportation Improvement Program, 2007-2011, Public Review Draft, Idaho Transportation Department, June 2006.

Transit Development Plan, Service Alternative, Technical Memorandum, VIATrans Board of Directors, December 2001.

Treasure Valley Alternative Transportation Analysis: Issues, Alternatives, Evaluation, and Action Items, November 1995.

Treasure Valley Intelligent Transportation System (ITS) Plan, Phase II, Final Report, Ada Planning Association, September 1999.

## V. TRANSPORTATION REVENUE

Idaho's transportation revenue comes from two primary sources. Approximately $53 \%$ of funds are received from the National Highway Trust Fund, and approximately $46 \%$ from transportation-related taxes and fees paid by Idaho citizens.

Federal funds administered by ITD are received from the Federal Highway Administration (FHWA), the Federal Transit Administration (FTA), the Federal Aviation Administration (FAA), and the National Highway

Traffic Safety Administration (NHTSA). Federal-aid projects generally require state or local matching funds of approximately $7-50 \%$.

Federal and state funding combined allows the ITD to preserve and improve the current transportation system. This year, ITD has begun to display the program of projects not by its funding source which ITD can often use flexibly, but by the asset management areas of preservation and improvement. What follows is a description of those programs. The abbreviation in parenthesis is the description under the funding category (TIP) and the program column (STIP) in the project sheets.

## A. Highway Preservation Program

In general the Highway Preservation Program uses a combination of state funds for highway preservation with some federal funding.

## 1. Pavement Preservation (in STIP, referred to as: PRSVN-PV)

Pavement preservation is one of the State's most important activities. ITD is committed to "... increase pavement quality to no less that $82 \%$ of the pavement being rated good or fair by strategically scheduling and implementing major construction and minor rehabilitation projects [that] can accomplish this goal." In 1994, it was found that $37 \%$ of Idaho's roads were considered deficient, in 2006, only 19\% were deficient ( 2007 Strategic Plan). The ITD target for 2007-2010 is $82 \%$ of pavement in fair or better condition. To meet this goal, throughout the life of this STIP, ITD has dedicated $\$ 57$ million of annual available funds to this program.
2. Bridge Preservation (in STIP, referred to as: PRSVN-BR)

Approximately $\$ 4.5$ million is directed annually to projects that provide for bridge deck rehabilitation and or bridge repair.
3. System Support (in STIP, referred to as: OPS)

Statewide preservation support of the transportation system is required on an annual basis. The system support funds a variety of preservation activities, to ensure that no part of the transportation system becomes defective or in disrepair due to lack of information or negligence.

## B. Highway Improvements

In general, the ITD Highway Improvements Program uses federal funding with some state funds.

## 1. Bridge (in STIP, referred to as: IMP-BR)

An annual investment of approximately $\$ 17$ million, funds replacement or structural rehabilitation of state system bridges identified by ITD to be structurally deficient or weight, height or width restricted.
2. System Planning (in STIP, referred to as: IMP - PLAN)

This program funds corridor studies, highway development planning, long-range transportation plans, and transportation systems analysis. Planning results in the improvement of the overall transportation system for Idaho users.
3. Rest Area (in STIP, referred to as: IMP - RA)

The Rest Area Program is intended for the scheduled rehabilitation and reconstruction of existing rest areas and construction of new rest areas. The Idaho Transportation Board has
targeted an annual investment of $\$ 10$ million. It is the state's goal to increase the number of State Highway System rest areas from 29 to 39.
4. Safety (in STIP, referred to as IMP - SFTY)

The safety program uses various federal funding sources to invest in safety initiatives. The FY 2007 - 2011 STIP includes Safe Routes to School, sign upgrades, durable pavement markings, rumble strips, Intelligent Transportation Systems (ITS), Road Weather Information Systems, Work Zone Safety and Behavioral Safety, shoulder widening, high accident location mitigation, crash event countermeasures, safety corridor enhancements, intersection improvements, guardrail blunt end upgrades and many other miscellaneous safety improvements.

Two other safety programs using surface transportation program (STP) federal aid funds invest in rail grade crossing improvements (RAIL) and highway intersection and guardrail improvements (HES). Additionally, there is a small state funded rail crossing improvement program (ST-RAIL).
5. Surface Transportation Program - Enhancement (STP-E) (referred to in STIP as: IMP-ENH)
The Transportation Enhancement Program, a statewide competitive program, invests approximately $\$ 5.5$ million in designated federal funds for eligible activities under Idaho's three primary categories: (1) bicycle and pedestrian; (2) historic; and (3) scenic and environmental. Enhancement projects must be related to the surface transportation system. Table 1 shows projects programmed with STP-E funds.
6. Congestion Mitigation / Air Quality (CMAQ) (in STIP, referred to as: IMPRCMAQ)
The Idaho Transportation Department's Congestion Mitigation and Air Quality Improvement Program (CMAQ), a statewide competitive program, invests between $\$ 2-\$ 4$ million annually in federal funds to implement cost-effective activities, plans, and projects which are mutually beneficial to transportation and air quality. Currently no area in the State of Idaho receives an entitlement under this program, as there is no formally designated carbon monoxide non-attainment area in Idaho. The Idaho Transportation Board, however, has set a policy of directing a portion of the CMAQ funds to air quality projects in the areas that have a history of air quality problems or are susceptible to such a problem. Table 2 shows projects programmed under the CMAQ funds.
7. Restoration \& Expansion (R\&E) (in STIP, referred to as: IMP-R\&E)

The restoration and expansion program funds are used for activities that reconstruct the useful life of the roadway and when needed, provide expansion of transportation facilities.
8. Connecting Idaho - Federal (in STIP, referred to as: IMP-CIF)

Projects shown in this program are restoration or expansion projects located along the Connecting Idaho corridors but not located within the 13 project areas designated in the GARVEE bonding legislation described below.

Table 1
Transportation Enhancement Projects Approved by the Idaho Transportation Board

| Project | Description | Cost | Federal Share | Local Share | Key No | Year | Requesting Agency |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| $8^{\text {th }}$ Street School Sidewalks | To construct new seven (7) foot wide sidewalks on the east and west side of West 8th Street. Connect an existing pedestrian pathway to the new sidewalk. Install cross-walk with in-pavement flashers at the Meridian Middle School at a safe location that connects with the new sidewalk and pedestrian pathway. Install Americans with Disabilities Act (ADA) compliant curb ramps at the Cherry Lane intersection and other locations where necessary. | \$296,000 | \$278,240 | \$17,760 | 10489 | 2010 | ACHD |
| Boise State University Greenbelt Pathway | Construct a pathway complete with lighting and landscape features that will provide safe and convenient access to Boise State University. The greenbelt path will provide a linkage to the downtown central business district as well as several nearby park open space areas. | \$599,000 | \$424,811 | \$174,189 | 09439 | 2007 | BSU/ <br> City of Boise |
| City Landscaping, <br> Department of Lands, Boise | Provides funds to plan trees along and near SH 44 (West State Street) in the northeast corner of the Veteran's Memorial Park. Funds are from the Department of Lands. Total project cost is $\$ 364,514$ for projects in 13 entities. Northern Ada County portion. | \$15,530 | \$5,848 | \$9,682 | 09444 | 2007 | City of Boise |
| Eagle Road Underpass Pathway | Construct an underpass pathway under Eagle Road. This project includes underpass lighting, landscaping, and railing. | \$537,000 | \$414,994 | \$122,006 | 09758 | 2008 | City of Eagle |
| Historic Warm Springs Boulevard Landscape | Construct arches designating entry into Historic Warm Springs Avenue the East End, placement of interpretive plaques at those arches, and bicycle and pedestrian improvements at the intersection of Granite Way/Old Penitentiary and Warm Springs Avenue Project also includes the landscaping of an oval within ACHD's proposed roundabout at the intersection (the roundabout is not part of this project and is not counted toward the match of this project). | \$425,000 | \$357,765 | \$67,235 | 09437 | 2009 | ACHD |
| Merrill Park Boise River Bridge Project | Pave approximately 1,000 feet of a ten (10) foot wide existing unpaved pedestrian pathway to link with the west edge of an existing paved pathway. This project includes landscaping, signage, and a single span bridge that will provide the only link of two regional pathway systems across the North Channel of the Boise River. | \$474,000 | \$412,901 | \$61,099 | 09757 | 2008 | City of Eagle |

| Project | Description | Cost | Federal <br> Share | Local <br> Share | Key No | Year |
| :--- | :--- | :---: | :---: | :---: | :---: | :---: |
| Requesting <br> Agency |  |  |  |  |  |  |
| Pioneer Corridor <br> Bicycle/Pedestrian <br> Improvements | Provides significant improvements to the Pioneer Walkway, a <br> pedestrian and bicycle connection between the Boise River <br> Greenbelt and downtown Boise. Work will enhance the <br> existing pathway with grade leveling, realignment, signage, <br> landscaping and cultural and historical elements. In addition <br> to improving the pathway for bicycle/pedestrian commuter <br> and recreational use, this work will catalyze nearby private <br> development, particularly mixed-use and urban-scale <br> residential, and bring more users to the pathway. | $\$ 560,000$ | $\$ 504,000$ | $\$ 56,000$ | 10488 | 2010 <br> Capital City <br> Development <br> Corporation <br> (Boise) |
| Relocating the "Big Mike"" | Move "Big Mike," a locomotive steam engine and tender <br> from Julia Davis Park to a permanent site located on the west <br> side of the Boise Train Depot a distance of approximately <br> one mile. | $\$ 281,000$ | $\$ 258,408$ | $\$ 22,592$ | 09440 | 2007 |

Table 2

## Congestion Mitigation Air Quality (CMAQ) Projects <br> Approved by the Idaho Transportation Board

| Project | Description | Cost | Federal Share | Local Share | Key No. | Year | Requesting Agency |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Fine Particulate ( $\mathrm{PM}_{2.5}$ ) Precursor Monitoring Study | Conduct a study that will provide a database of monitored levels of $\mathrm{PM}_{2.5}$ precursor chemicals that can be analyzed to develop effective pollution control measures across the valley. The study will measure levels of oxides of nitrogen (NOx), volatile organic compounds (VOC), sulfate, and nitrate at sites that already have equipment to monitor for ozone. Total project cost is $\$ 310,000(40 \%$ Ada and $50 \%$ Canyon) | \$155,000 | \$143,592 | \$11,408 | 09412 | 2007 | DEQ |
| Purchase Five Commuter Vans (FY 2007) | Purchase five (5), 15 -passenger commuter vans to be used in the Ada County Highway District Commuteride vanpool program. | \$160,000 | \$148,256 | \$11,744 | 09416 | 2007 | ACHD |
| Fleet Expansion Purchase $\text { - FY } 2007$ | Purchase an alternative fueled, wheelchair accessible bus equipped with a bicycle rack to support expanded services in fiscal year 2007. | \$340,000 | \$315,044 | \$24,956 | 09417 | 2007 | Valley Regional Transit |
| I-84, Meridian Road to Garrity Boulevard | Install six (6) miles of fiber optic cable along I-84 in an existing ITD underground conduit. Install five (5) closed circuit television (CCTV) cameras at one mile intervals on 50 -foot poles. Install eleven (11) vehicle detector stations at half-mile intervals. These detectors will be installed on 30 -foot poles and will be able to determine vehicle speeds, vehicle counts, and determine lane occupancy. | \$435,000 | \$394,980 | \$40,020 | 09733 | 2008 | ACHD |
| Meridian Traffic Signal Upgrade | Replace eleven (11) traffic signal controllers and cabinets in Meridian, and upgrade the signal communications infrastructure within the City of Meridian. | \$215,000 | \$172,000 | \$43,000 | 09419 | 2007 | ACHD |
| Orchard Road Signal Upgrade | Replace eleven (11) outdated traffic signal controllers and cabinets on Orchard Road in Boise. The new signal system will allow additional traffic signal timing plans which help ease congestion and improve air quality. | \$160,000 | \$140,000 | \$20,000 | 09735 | 2008 | ACHD |
| Purchase Ten (10) Commuter Vans (FY2008) | Purchase ten (10) fifteen, (15) passenger vans to be used in the Ada County Highway District Commuteride vanpool program. | \$320,000 | \$296,512 | \$23,488 | 09734 | 2008 | ACHD |
| Replace Ten (10) Traffic Signal Controllers, Franklin Road | Replace ten (10) outdated traffic signal controllers and cabinets on Franklin Road. The new signal system will allow additional traffic signal timing plans which will help ease congestion and improve air quality. | \$163,000 | \$146,700 | \$16,300 | 10476 | 2009 | ACHD |
| Replace Thirteen (13) Traffic Signal Controllers, Overland Road | Replace thirteen (13) outdated traffic signal controllers and cabinets on Overland Road. The new signal system will allow additional traffic signal timing plans, which will help ease congestion and improve air quality. | \$210,000 | \$189,000 | \$21,000 | 10475 | 2009 | ACHD |
| Treasure Valley Air Quality Study | The study will determine whether the Treasure Valley is NOx or VOC "limited." The study will develop meteorological profiles of pollution events, compile existing data into one database, validate and analyze the data, and use the data as an input to the CMAQ model to run scenarios that will enable DEQ to measure the effectiveness of control measures. | \$396,000 | \$366,854 | \$29,146 | 09740 | 2008 | DEQ |

9. Connecting Idaho - GARVEE (in STIP, referred to as: IMP-CIG)

GARVEE is the acronym for Grant Anticipation Revenue Vehicle. GARVEE bonds were federally authorized under the National Highway Designation Act of 1995 as a mechanism for allowing state and local agencies to accelerate the funding of transportation projects. The agencies use their future federal highway funds to repay the principal, interest and other costs associated with the issuance of the bond.

During its 2005 Legislative session, the Idaho Legislature approved legislation making it possible to use GARVEE bonding as an alternative method of funding transportation projects. The program adopted by the Idaho Legislature allows the Idaho Transportation Board to bond for 13 specific corridors.

## 10. High Priority - SAFETEA-LU (in STIP referred to as: HIPR-T21)

U. S. Congress designated improvement projects under new transportation bill, the Safe, Accountable, Flexible, Efficient Transportation Equity Act - A Legacy for Users (SAFETEA-LU). These funds cannot be used for any other purpose without congressional action. Table 3 shows projects programmed with High Priority - SAFETEA-LU funds.

## C. Local Programs

Under the Local Programs category are federal funding resources that can be used by local agencies to improve and preserve federal functionally classified local roadways and bridges. Funding is also available to replace or rehabilitate bridges at least 20-feet long that are located off the federal functionally classified system.

To help administer these funds, ITD has created unique partnerships with MPO's and the Local Highway Technical Assistance Council (LHTAC) representing local agencies.

## 1. Surface Transportation Program - Urban (STP-U) (in STIP, referred to as: URBAN(L))

Local urban funds are for projects in urban areas with populations between 5,000 and up to 200,000 . They are primarily used for reconstruction or rehabilitation of roadways functionally classified with FHWA as urban collectors or higher. The urban areas with a population of 50,000 or more are entitled to form an MPO, such as COMPASS, to prioritize the allocation of STP-U dollars. There are currently six MPOs in the State of Idaho: Boise, Coeur d'Alene, Idaho Falls, Lewis-Clark Valley, Nampa, and Pocatello. (Boise MPO is funded under the STP-TMA funds.)

## 2. Surface Transportation Program - Rural (STP-R) (in STIP, referred to as: RURAL(L))

Local rural funds are for projects in rural areas with populations under 5,000. They are primarily used for reconstruction or rehabilitation of roadways functionally classified as rural major collectors or higher. The funds may also be used for planning, enhancement, transit, bridge, or safety activities. In Idaho, the Local Highway Technical Assistance Council (LHTAC) assists ITD with the administration of this federal program.
3. Surface Transportation Program - Transportation Management Area (STP-TMA) (in STIP, referred to as TMA)
Transportation Management Area funds are for state and local projects in urban areas of 200,000 or greater population. They are primarily used for reconstruction or rehabilitation of roadways functionally classified with FHWA as urban collectors or higher. The Northern

Ada County Transportation Management Area receives $\$ 5,600,000$ to $\$ 6,300,000$ of STPTMA funding annually. Projects funded with STP-TMA funding are listed in Table 4.
4. Bridge Local On (Bridge) and Off System (Bridge (Off System)) (in STIP, referred to as: BR-LOC and BR-OFF)
Local and Off-System funds are for the replacement or rehabilitation of bridges at least 20feet long and have a qualifying "sufficiency rating," generally 50 or lower. The Idaho Transportation Board makes thirty-five percent of the Federal-aid Bridge funds available for use on non-State Highway System bridges.

Table 3
For Information Only
SAFETEA-LU
Funded Discretionary (High Priority) Projects

| No. | Project | Description | SAFETEA-LU <br> Amount | Responsible/ Requesting Agency |
| :---: | :---: | :---: | :---: | :---: |
| 1 | Multi-modal Center | Construct a multi-modal center that includes facilities for bus transfers, bike storage, and a parking structure for approximately 600 to 1,200 cars. | \$9,500,000 | Valley Regional Transit |
| 2 | Downtown Boise Transit Circulator | Create a Downtown Boise Circulator, a key link in the regional transportation system. The project is a fixed guide-way transit system within downtown Boise. This project was made eligible for FTA New Starts funding in SAFETEA-LU, but no specific funding identified. | \$0 | CCDC |
| 3 | Right-of-Way Acquisition of the Union Pacific Short Line Railroad | Purchase the right-of-way and existing infrastructure in and along the forty-four (44) miles of rail corridor. The cost of this project includes conducting an environmental analysis in accordance with the applicable federal regulations, making essential infrastructure improvements, and purchasing right-of-way. This project was made eligible for FTA New Starts funding in SAFETEA-LU, but no specific funding identified. | \$0 | Valley Regional Transit |
| 4 | Three Cities River Crossing, from US 20/26 to SH 55 Corridor Study | This project would cross the Boise River from Boise northbound between Eagle and Garden City, and is currently shown in the 2030 Functional Classification map as a principal arterial. High Priority -SAFETEA-LU funding program. | \$3,000,000 | ACHD |
| 5 | I-84, Ten Mile Interchange | Construct new I-84 Interchange at Ten Mile Road. High Priority -SAFETEA-LU funding portion. | \$19,600,000 | ITD |

Table 4
Projects Funded Under Surface Transportation Program - Transportation Management Area

| Project | Description | Cost | Federal Share | Local Share | Year | Key <br> No. | Requesting Agency |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| East Downtown Boise LED Signal Replacement | Replace standard signals with emitting diode (LED) signals from State Street to River Street and from 16 ${ }^{\text {th }}$ Street to $8^{\text {th }}$ Street. | \$483,000 | \$447,500 | \$35,500 | PD | 09836 | ACHD |
| Federal Aid Overlay Arterial and Collectors - FY 2006 | Supplement the local overlay program. Advance Construction for FY 2006 project. | \$800,000 | \$741,280 | \$58,720 | 2008 | 09502 | ACHD |
| Federal Aid Overlay Arterial and Collectors - FY 2009 | Supplement the local overlay program. | \$775,000 | \$718,115 | \$56,885 | 2009 | 09503 | ACHD |
| Federal Aid Overlay Arterial and Collectors - FY 2010 | Supplement the local overlay program. | \$550,000 | \$509,630 | \$40,370 | 2010 | 10537 | ACHD |
| Federal Aid Overlay Arterial and Collectors - FY 2011 | Supplement the local overlay program. | \$550,000 | \$509,630 | \$40,370 | 2011 | 10559 | ACHD |
| Federal Aid Overlay Arterial and Collectors - PD | Supplement the local overlay program. | \$550,000 | \$509,630 | \$40,370 | PD | TMA1 | ACHD |
| Five Mile Road, from Franklin Road to Fairview Avenue | Widen to five (5) lanes with shoulder, sidewalk, and railroad crossing improvements. Major intersection and signal modifications including double left turn lanes on all legs at the Five Mile Road and Fairview Avenue intersection. | \$7,410,000 | \$6,866,106 | \$543,894 | 2011 | 07238 | ACHD |
| Franklin Road \& Liberty Street Intersection | Install left turn lanes on Franklin Road and modify Liberty Street legs. Project is planned to be designed to Federal Aid standards in preparation for potential increase in Federal allocation. | \$1,072,000 | \$993,315 | \$78,685 | PD | 09830 | ACHD |
| Franklin Road \& Phillippi Street Intersection | Construct a five (5)-lane approach on Franklin Road and a three (3)-lane section on Phillippi Street. | \$1,004,000 | \$930,306 | \$73,694 | PD | 09831 | ACHD |
| Franklin Road, Black Cat Road to Ten Mile Road | Widen roadway to five (5) lanes. | \$6,540,000 | \$6,059,964 | \$480,036 | PD | 09637 | ACHD |
| Franklin Road, Touchmark Way to Five Mile Road | Reconstruct and widen existing two to three (2/3)-lane roadway to four to five $(4 / 5)$ lanes with an urban section. Install drainage, curb, gutter, sidewalk, and shoulder. Acquired 96 feet of right-ofway. Widen the intersection at Cloverdale Road. | \$6,014,000 | \$5,572,572 | \$411,428 | 2010 | 08698 | ACHD |
| Franklin Road, Ten Mile Road to Linder Road | Widen roadway to five (5) lanes. Remove the Meridian Road to Cherry Lane project, pending a decision from the City of Meridian regarding their downtown configuration. | \$5,435,000 | \$5,036,071 | \$398,929 | PD | 09504 | ACHD |

| Project | Description | Cost | Federal Share | Local <br> Share | Year | Key <br> No. | Requesting Agency |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| High Volume Intersection Study | This study would 1) identify high volume arterial intersections in the Treasure Valley using the 2030 Travel Demand Model; 2) develop a prioritization system; and 3) select up to five (5) priority intersections to complete conceptual designs, cost estimates, and land use recommendations to achieve long-term preservation of right-of-way, access spacing, and project programming. | \$200,000 | \$185,300 | \$14,700 | 2007 | 09826 | COMPASS |
| Household Travel Survey, Phase 1 | Conduct a study to collect household travel characteristics to update and expand the COMPASS travel demand model. Data will be collected in six-county region. | \$300,000 | \$277,950 | \$22,050 | 2010 | 09827 | COMPASS |
| Household Travel Survey, Phase 2 | Conduct a study to collect household travel characteristics to update and expand the COMPASS travel demand model. Data will be collected in six-county region. | \$300,000 | \$277,950 | \$22,050 | PD | 09828 | COMPASS |
| Locust Grove Road, Grade Separation at I-84 | Construct new interstate overpass 500 feet north of Overland Road to Central Way and Bentley Avenue. Build to four to five (4/5) lanes. | \$1,950,000 | \$1,799,265 | \$150,735 | 2008 | 08048 | ITD/ <br> Meridian/ ACHD |
| Maple Grove Road, Franklin Road to Fairview Avenue | Widen roadway to five (5) lanes with bike lanes, sidewalk, railroad crossing improvement, and conduit for future signal at Irving Street. This includes rebuilding Bridge \#151 and the intersection of Fairview Avenue and Maple Grove Road The Fairview Avenue intersection will include double left turns on all legs, two (2) through lanes on all legs, and right turn lanes on the east and west bound legs. | \$5,445,000 | \$5,045,337 | \$399,663 | 2008 | 07192 | ACHD |
| MPO Transportation Planning Activities - FY 2007 | Assist COMPASS in meeting federal transportation planning responsibilities. Ada County portion. | \$158,000 | \$146,403 | \$11,597 | 2007 | 08962 | COMPASS |
| MPO Transportation Planning Activities - FY 2008 | Assist COMPASS in meeting federal transportation planning responsibilities. Ada County portion. | \$106,000 | \$98,220 | \$7,780 | 2008 | 09204 | COMPASS |
| MPO Transportation Planning Activities - FY 2009 | Assist COMPASS in meeting federal transportation planning responsibilities. Ada County portion. | \$53,000 | \$49,110 | \$3,890 | 2009 | 9506 | COMPASS |
| Rideshare, ACHD's Rideshare Program - FY 2007 | Continue and improve rideshare program and marketing. Operate a third-party vanpool program in multi-county area and coordinate vanpools. | \$220,000 | \$220,000 | \$0 | 2007 | 08963 | ACHD |
| Rideshare, ACHD's Rideshare Program - FY 2008 | Continue and improve rideshare program and marketing. Operate a third-party vanpool program in multi-county area and coordinate vanpools. | \$220,000 | \$220,000 | \$0 | 2008 | 09199 | ACHD |
| Rideshare, ACHD's Rideshare Program - FY 2009 | Continue and improve rideshare program and marketing. Operate a third-party vanpool program in multi-county area and coordinate vanpools. | \$220,000 | \$220,000 | \$0 | 2009 | 09507 | ACHD |

| Project | Description | Cost | Federal Share | Local <br> Share | Year | Key No. | Requesting Agency |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Rideshare, ACHD's Rideshare Program - FY 2010 | Continue and improve rideshare program and marketing. Operate a third-party vanpool program in multi-county area and coordinate vanpools. | \$220,000 | \$220,000 | \$0 | 2010 | 10540 | ACHD |
| Rideshare, ACHD's Rideshare Program - FY 2011 | Continue and improve rideshare program and marketing. Operate a third-party vanpool program in multi-county area and coordinate vanpools. | \$220,000 | \$220,000 | \$0 | 2011 | 10560 | ACHD |
| Rideshare, ACHD's Rideshare Program - PD | Continue and improve rideshare program and marketing. Operate a third-party vanpool program in multi-county area and coordinate vanpools. | \$220,000 | \$220,000 | \$0 | PD | TMA3 | ACHD |
| South Bench LED Signal Replacement | Replace the existing traffic signals in the area from Emerald Street to Victory Road and from Cole Road to Eagle Road. | \$482,000 | \$446,573 | \$35,427 | 2011 | 09835 | ACHD |
| Three Cities River Crossing, from US 20/26 to SH 55 Corridor Study | This project would cross the Boise River from the City of Boise northbound between Eagle and Garden City, and is currently shown on the 2030 Functional Classification map as a "principal arterial." | \$1,050,000 | \$972,930 | \$77,070 | PD | 09189 | ACHD |
| Traffic Management Center | Build a new 10,000 square foot. facility to house staff and equipment. | \$620,000 | \$574,492 | \$45,508 | PD | 09186 | ACHD |
| Treasure Valley Truck Freight Travel Study | Provide data for future transportation air quality planning efforts in the Treasure Valley. Collected information could include at a minimum the origin and destination locations for goods movement, type/weight of load, frequency of trips, other modes involved in shipment; preferred route data, if the destination is within the Treasure Valley; and the method of delivery. | \$335,000 | \$310,378 | \$24,622 | 2007 | 09825 | COMPASS |
| TOTAL (including PD) |  | \$43,502,000 | \$40,398,100 | \$3,073,973 |  |  |  |
| TOTAL (FY 2007-2011 only) |  |  | \$24,375,869 |  |  |  |  |
| Estimated Federal STP-TMA Allocation (as of $12 / 08 / 06$ ) |  |  | \$29,834,000 |  |  |  |  |

## VI. FINANCIAL CONSTRAINT

The TIP is a financially driven document. By federal law and guidance, financial constraint is required. Financial constraint means that the TIP will only be programmed with projects to the level for which we can reasonably assume there is funding. Financial constraint also has the somewhat broader implication that our funding will be budgeted to not only improve the transportation system, but also to maintain and operate that system.

Based on COMPASS' following analysis, funding is reasonably available for the projects contained in this document.

Financial Status of Ada County Highway District Projects. The Ada County Highway District (ACHD) projects are derived from the agency's annual Five-Year Work Program, a capital improvement program. The Five-Year Work Program is a fiscally-constrained program, which means anticipated costs for individual projects and programs match the projected revenues of the highway district within a designated margin. Each year, ACHD staff develops revenue projects for the program. These projections are based on anticipated growth in ACHD's various revenue sources, which include property taxes, vehicle registration fees, the Highway Distribution Account (gas tax), state sales tax and impact fees. The total revenue projection is then divided into two subcategories - Maintenance and Operations and Capital Projects. The amount identified for Capital Projects serves as the amount available for the Five-Year Work Program and matches the revenue column in Table 5. No interruption of revenue is currently anticipated for ACHD. Furthermore, the agency regularly adjusts its expenditure levels according to its anticipated revenue.

Table 5
Ada County Highway District Budget Program, 2007-2011 Projected Revenues and Expenditures

| Year | Programmed | Revenue | Reimbursements | Total Revenue | Difference |
| ---: | ---: | ---: | ---: | ---: | ---: |
| 2007 | $\$ 38,310,000$ | $\$ 31,930,000$ | $\$ 5,400,000$ | $\$ 37,330,000$ | $-\$ 980,000$ |
| 2008 | $\$ 46,370,000$ | $\$ 33,410,000$ | $\$ 12,030,000$ | $\$ 45,440,000$ | $-\$ 930,000$ |
| 2009 | $\$ 36,800,000$ | $\$ 34,980,000$ | $\$ 830,000$ | $\$ 35,810,000$ | $-\$ 990,000$ |
| 2010 | $\$ 34,600,000$ | $\$ 32,600,000$ | $\$ 50,000$ | $\$ 32,650,000$ | $-\$ 1,950,000$ |
| 2011 | $\$ 36,440,000$ | $\$ 34,270,000$ | $\$ 190,000$ | $\$ 34,460,000$ | $-\$ 1,980,000$ |
| Total | $\$ 192,520,000$ | $\$ 167,190,000$ | $\$ 18,500,000$ | $\$ 185,690,000$ | $-\$ 6,830,000$ |

Source: Ada County Highway District FY2007-2011 Five Year Work Program (January 18, 2006)

Commuteride Program. The Commuteride Program is a component of the ACHD operation. The agency's financial capability is discussed above.

Financial Status of Valley Regional Transit Projects. Valley Regional Transit, the regional transit agency, is the recipient of the Federal Transit Administration's funds in the Treasure Valley, more specifically those under the Section 5307 and 5309 Programs. In recent years, the Congestion Mitigation and Air Quality Program have functioned as a supplemental source of funding transit capital projects. Efforts are underway to secure a steady source of revenue for the operation and expansion of the Treasure Valley transit system. In February 2004, the Idaho Task Force on Public Transportation provided to the Idaho Legislature a comprehensive report that recommends strategies for providing private and public funding of public
transportation services. The City of Boise and other local governments in the Treasure Valley are committed to supporting Valley Regional Transit and its transit system improvement programs.

The City of Boise, a prominent member of Valley Regional Transit, has long been supportive of the transit system and other alternative modes of transportation. This support mainly stems from the City's policy of providing for the transportation of transit-dependent people as well as helping to maintain better air quality in the area. To this end, the City has regularly provided financial support to Boise's transit system. There is currently no indication that local governments in the Treasure Valley would withdraw their support of Valley Regional Transit.

General Statement of Financial Constraint. Overall, the projects programmed in this document can reasonably be funded through anticipated funding sources. Projection of local revenues is based on assumptions of continued development and economic activities in the area. No evidence of sudden interruption of these activities is in sight. In light of these facts, it is concluded that the sponsoring agencies listed in this document are capable of providing for the required local match and that the document meets the requirement of financially constrained.

## A. Highway Funding Assumptions

Following is a comprehensive list of assumptions used to develop the highway funding levels. Upon notification of the final FY 2007 apportionments and obligation authority the highway program is adjusted as necessary to maintain fiscal constraint.

## 1. Federal-Aid Funding Assumptions

Program structure is based on SAFETEA-LU. SAFETEA-LU was enacted on August 10, 2005. FY 2007 through FY 2009 total federal funding is the allocation included in SAFETEA-LU, with FY 2010-2011 a direct extension of FY 2009 funding.

FY 2007 Obligation Authority (spending limit) is assumed to be $100 \%$ of apportionments.
The FY 2007 - 2011 Program does not include any year-end distribution of obligation (spending) authority not used by other states.

The FY 2007 - 2011 Program does not include any Revenue Aligned Budget Authority (RABA) due to adjustments in the funding available to the states should the highway revenues exceed the "firewall" established under SAFETEA-LU.

The "Available with Match" amounts include the match and federal funds estimated to be available to program projects. These amounts are reduced $5 \%$ each year in some programs (FY 2008 and beyond) to allow for the estimated effects of inflation on projects costs.

## 2. State Funding Assumptions

A base funding level of approximately $\$ 35$ million is estimated to be available for FY 2007. Thereafter, $\$ 17$ million is available each year through FY 2011 for highway projects. The drop in available funding is to insure adequate personnel, maintenance, and operational funding. By 2011, state funding will be used almost exclusively to fund federal-aid match and operations.

It is anticipated that approximately $\$ 20$ million of federal indirect cost recovery (FICR) funds will also be made available annually to this program.

## 3. GARVEE Bonding Assumptions

A GARVEE, or Grant Anticipation Revenue Vehicle bond is a transportation financing instrument approved for use in Idaho by the 2005 Legislature. As required by the legislation authorizing use of GARVEE, a request for bonding authority must be included as a separate item in ITD's annual budget requests and are subject to legislative approval. The requests for bonding authority shall include a list of planned highway transportation projects to be financed with such bond financing during the next succeeding fiscal year. The GARVEE Program assumes the following:

- Idaho Code requires that no more than $20 \%$ of apportionment can be used for debt service through 2010 and no more than $30 \%$ thereafter.
- The program adopted by the 2006 Idaho Legislature allows the Idaho Transportation Board to bond for projects within six specific corridors at an amount of $\$ 200$ million.
- Under this program, federal highway revenue is pledged for repayment of the bonds, and as such, GARVEE bonds are revenue bonds and do not pledge the full faith and credit of the state of Idaho.
- As required by the Legislation authorizing use of GARVEE, a request for bonding authority must be included as a separate item in ITD's annual budget requests and are subject to Legislative approval.
- The requests for bonding authority shall include a list of planned transportation projects to be financed with such bond financing during the next succeeding fiscal year. For the FY 2008 Legislative session, $\$ 397$ million in bonding for projects on eight corridors will be proposed.

## B. Public Transportation Funding Assumptions

SAFETEA-LU is the basic law under which all federal transportation programs are funded. These programs are administrated by the Federal Transit Administration (FTA) through the Idaho Transportation Department's Division of Public Transportation.

The Public Transportation Program is a grant program. Historical funding trends are used to estimate the funds available through FY 2009. Discretionary funding is available for the actual request submitted to Congress for the current year.

## Federal Transit Administration (FTA) Programs

The FTA provides federal assistance funds under its various programs to transit entities. Valley Regional Transit, a regional public transportation entity in the Treasure Valley, is the designated recipient of FTA's Section 5307 funds.

Section 5303. Provides funds for transit planning activities in the metropolitan planning areas. The funds are allocated to the state and distributed to the Metropolitan Planning Organizations. In Idaho, these funds are combined with FHWA funds under the Consolidated Planning Grants to allow multimodal planning activities.

Section 5307. These funds are allocated to the urbanized areas by statutory formula. This transit program provides federal funds for capital and operation improvement programs of transit systems. The funds could be used for planning public transportation and the development of transit services.

Section 5309. Provides discretionary funds allocated directly by the U.S. Congress to state and local transit providers for capital improvement purposes. The funds are not transferable to roadway or transit operation improvement programs.

Section 5310. Provides funds for services and rolling stocks that directly benefit transportation of the elderly and people with disabilities. The funds are distributed to states based on the population of elderly and people with disabilities in the state.

Section 5311. Provides funds to states for distribution to transit entities in the areas with less than 50,000 population. The funds can be used for planning, administration, capital and operation improvements, and other costs associated with the provision of transit services.

Section 5311(f). Funds are allocated to the state to be distributed to entities that provide fixed route public transportation services between cities. Funds may be used for administration, operations, planning, and capital costs of intercity bus services.

Section 5316 Job Access and Reverse Commute (JARC). Provides funding for local programs that offer job access and reverse commute services to provide transportation for low income individuals who may live in the city core and work in suburban locations.

Section 5317 New Freedom Program. Funds encourage services and facility improvements to address the transportation needs of persons with disabilities that go beyond those required by the Americans with Disabilities Act. Provides a new formula grant program for associated capital and operating costs.

Table 6 shows transit projects programmed under the Federal Transit Administration programs.

Table 6
Transit Projects

| Project | Description | Cost | Federal Share | Local <br> Share | Key No. | Year | Requesting Agency |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| FTA 5307 |  |  |  |  |  |  |  |
| Transit - Capital | Purchase vehicles for the demand response system to expand the system. | \$142,000 | \$117,860 | \$24,140 | TBD | 2007 | Valley Regional Transit |
| Transit - Capital and Enhancement | Purchase transit facilities, materials that will enable riders and non-riders to know how the system operates, communication equipment, and computer hardware and software, and capital emphasizing safety and security.. | \$111,000 | \$88,800 | \$22,200 | 10092 | 2007 | Valley Regional Transit |
| Transit - Capital Enhancement and Safety and Security | Purchase capital equipment and materials that will enable riders and non-riders to know how the system operates, and provide system safety and security equipment. | \$88,565 | \$70,852 | \$17,713 | 10802 | 2009 | Valley Regional Transit |
| Transit - Capital Facility/Equipment | Boise Capital Facility/Equipment: Use associated capital maintenance funds to maintain/repair equipment and facility. | \$921,000 | \$736,800 | \$184,200 | 10103 | 2008 | Valley Regional Transit |
| Transit - Capital Vehicle | Provide vehicles for fixed line and demand response in the Boise Urbanized Area. | \$877,958 | \$728,705 | \$149,253 | 10803 | 2009 | Valley Regional Transit |
| Transit - Demand Response Operations | Provide operating funds for Boise Urban Stages Demand Response Services in the Boise Urbanized Area. | \$329,371 | \$263,497 | \$65,874 | 10101 | 2008 | Valley Regional Transit |
| Transit - Demand Response Operations | Provide operating funds for Boise Urban Stages Demand Response Services in the Boise Urbanized Area. | \$303,720 | \$242,976 | \$60,744 | 10093 | 2007 | Valley Regional Transit |
| Transit - Demand Response Operations | Provide operating funds for Boise Urban Stages Demand Response Services in the Boise Urbanized Area. | \$350,323 | \$280,258 | \$70,065 | 10806 | 2009 | Valley Regional Transit |
| Transit - Enhancement, Safety and Security | Purchase transit facilities and materials that will enable riders and non-riders to know how the system operates. | \$65,874 | \$52,699 | \$13,175 | 10104 | 2008 | Valley Regional Transit |
| Transit - FTA Section 5309 Discretionary FY2007 | Place holder for projects requested in the FTA 5309 discretionary program. | \$925,000 | \$740,000 | \$185,000 | TBD | 2007 | Valley Regional Transit |

| Project | Description | Cost | Federal Share | Local Share | Key No. | Year | Requesting Agency |

## Status of the FY 2006 Projects

| Project | Description | Cost | Key No. | Status |
| :---: | :---: | :---: | :---: | :---: |
| Boise State University <br> Bus Shelters | Construct transit shelters on BSU campus. | \$393,750 | T302 | Committed |
| Boise State University Greenbelt Pathway | Construct a pathway complete with lighting and landscape features that will provide safe and convenient access to Boise State University. The greenbelt path will provide a linkage to the downtown central business district as well as several nearby park open space areas. | \$71,000 | 09439 | Committed |
| Commuteride Facility | Design a new facility for ACHD Commuteride. | \$1,154,000 | T301 | Partially Committed (due to reduced allocation) |
| Eagle Road Underpass Pathway | Construct an underpass pathway under Eagle Road. This project includes underpass lighting, landscaping, and railing. | \$110,000 | 09758 | Committed |
| Eckert Pathway, Phase II | Extend Eckert Pathway from Boise Avenue to Amity Road. | \$660,000 | 09156 | Committed |
| FY 2006 Public Education / Outreach for New Regional Transit System | Coordinate a marketing program to provide education and outreach to public transportation riders, potential riders, businesses, and regional communities of the new Regional Transportation System that will service the Treasure Valley. | \$240,000 | 09411 | Committed |
| Federal Aid Overlay Arterials and Collectors FY 2006 | Supplement the local overlay program. | \$640,000 | 09502 | Committed |
| Federal Aid Overlay Arterials and Collectors FY 2008 | Supplement the local overlay program. | \$25,000 | 09202 | Removed |
| Five (5) Commuter Vans FY 2006 | Purchase five (5), fifteen (15) passenger commuter vans to be used in the ACHD vanpool program. | \$160,000 | 09415 | Committed |
| Five Mile Road, Franklin Road to Fairview Avenue | Widen to five (5) lanes with shoulder, sidewalk, and railroad crossing improvements. Major intersection and signal modifications including double left turn lanes on all legs at the Five Mile Road and Fairview Avenue intersection. | \$916,000 | 07238 | Partially Committed Removed right-of-way acquisition in FY 2006 |
| Franklin Road, Black Cat Road to Ten Mile Road | Widen roadway to five (5) lanes. | \$55,000 | 09637 | Committed |
| Franklin Road, Ten Mile Road to Linder Road | Widen roadway to five (5) lanes. | \$230,000 | 09504 | $\begin{gathered} \text { Delayed to } \\ \text { FY } 2008 \text { and } \\ 2010 \\ \hline \end{gathered}$ |
| Historic Warm Springs Boulevard Landscape | Construct arches designating entry into Historic Warm Springs Avenue in the East End, placement of interpretive plaques at those arches, and bicycle and pedestrian improvements at the intersection of Granite Way/Old Penitentiary and Warm Springs Avenue. Project also includes the landscaping of an oval within ACHD's proposed roundabout at the intersection (the roundabout is not part of this project and is not counted toward the match of this project). | \$152,000 | 09437 | Partially Committed Delayed to FY 2007 |
| I-184, Cole Road OffRamp | Safety improvement. | \$25,000 | 09492 | Committed |

| Project | Description | Cost | Key <br> No. | Status |
| :--- | :--- | :--- | :--- | :---: |
| I-184, Curtis Road <br> Interchange | Bridge rehabilitation. | $\$ 798,000$ | 08950 | Committed |
| I-84, Cloverdale <br> Overpass | Bridge rehabilitation. | $\$ 40,000$ | 09964 | Committed |
| I-84, Eagle Interchange <br> Ramp Study | Widen westbound off-ramps at Eagle Road interchange. <br> Extend ramp length on I-84, add additional right turn <br> lane, and add signals for right turns. | $\$ 250,000$ | 09980 | Moved to <br> FY 2007 <br> (Changed <br> scope to <br> include |
| construction) |  |  |  |  |$|$| Committed |
| :--- |
| I-84, Gowen Road to <br> Isaacs Canyon Rebuild |
| I-84, Ten Mile <br> Interchange |
| Reconstruction of I-84 between Gowen Road and Isaacs <br> Canyon Interchanges. |
| Crade Separation at I-84 | | Construct new I-84 interchange at Ten Mile Road. |
| :--- |

| Project | Description | Cost | Key No. | Status |
| :---: | :---: | :---: | :---: | :---: |
| SH 44, Intersection of Glenwood Road | Conduct base/sub-base work and resurfacing. | \$70,000 | 09482 | Committed |
| SH 55 Corridor Plan | Multi-county study. (Ada county portion only.) | \$35,000 | 09967 | Committed |
| SH 55, Eagle Road and Hobble Creek Drive | Add traffic signal. | \$345,000 | 09689 | Committed |
| SH 55, Eagle Road Infrastructure Phase I | Install signal with interconnect, ITS, curb, gutter, and sidewalk. (Project limits to be determined.) | \$900,000 | 09182 | Committed |
| SH 55, Eagle Road Infrastructure Phase II | Landscaping. (Project limits to be determined.) | \$20,000 | 09517 | Moved to <br> long-term <br> Horizons <br> Program |
| SH 55, I-84 westbound off-ramp to Franklin Road | Construct turn lane. | \$1,480,000 | 08815 | Committed |
| SH 69, Intersection of Deer Flat Road, Kuna | Install traffic signal. | \$25,000 | 09491 | Committed |
| SH 69, Overland Road intersection | Purchase right-of-way. | \$245,000 | 08812 | Committed |
| Traffic Signal System Upgrade | Replace eleven (11) outdated traffic signal controllers and cabinets on Vista Avenue from the Boise Depot to Wright Street (Boise Airport) with new state-of-the-art controllers and cabinets. | \$150,000 | 09418 | Committed |
| Transit - Associated Capital Maintenance | Boise Capital Facility / Equipment: Use associated capital maintenance funds to maintain / repair existing equipment. | \$80,000 | T314 | Committed |
| Transit - Bus Stop Upgrade and Sidewalks | Transit-related sidewalk improvements (Catalpa Drive). | \$1,095,000 | T301 | Committed |
| Transit - Capital | Boise capital fixed line vehicles: Purchase wheelchair accessible, alternative fueled replacement vehicles for the Boise Urbanized Area. | \$679,518 | T303 | Committed |
| Transit - Capital Facilities | Alternatives Analysis and Preliminary Engineering for Downtown Multi-Modal Transit Center. | \$500,000 | PT02 | Committed |
| Transit - Capital (Other) | Boise capital hardware, software, and office equipment. | \$15,000 | T315 | Committed |
| Transit - Demand <br> Response Operations | Provide operating funds for Boise Urban Stages Demand Response Services in the Boise Urbanized Area. | \$281,000 | T317 | Committed |
| Transit - Enhancement | Purchase transit facilities and materials that will enable riders and non-riders to know how the system operates. | \$28,000 | T316 | Committed |
| Transit - Planning | Support planning efforts in the Boise Urbanized Area. | \$425,000 | T318 | Committed |
| Transit - Preventive Maintenance | Provide preventive maintenance support for fixed route and demand responsive transit services in the Boise Urbanized Area. | \$1,381,321 | T319 | Committed |
| Travel Demand Model Link to Air shed Modeling | Develop software that will take outputs from VIPER (COMPASS Travel Demand Model) and transform them into usable inputs for SMOKE. SMOKE is a new emission inventory program developed by EPA. This will allow DEQ to evaluate changes to the emission inventory (area, stationary, and mobile sources) and the affects those changes have on pollutant concentration levels throughout the Treasure Valley. | \$25,000 | 09414 | Committed |
| Twenty-Five (25) <br> Commuter Vans (FY 2006) | Purchase twenty-five (25), fifteen (15) passenger vans (additional and/or replacement vehicles). | \$750,000 | T350 | Committed |

| Project | Description | Cost | Key <br> No. | Status |
| :--- | :--- | :---: | :---: | :---: |
| US 20/26, Corridor <br> Preservation from <br> Caldwell to Boise | Acquire right-of-way for corridor preservation. (Ada <br> County portion only.) | $\$ 602,500$ | 07826 | Committed |

Table 9
Share of Funds Allocated to Alternative Modes of Transportation

| Year | Total Funds | Amount Allocated to <br> Roadway Solutions | Amount Allocated to <br> Alternative Solutions | Percent Allocated to <br> Alternative Solutions |
| :--- | ---: | ---: | ---: | ---: |
| $\mathbf{2 0 0 7}$ | $\$ 60,806,705$ | $\$ 43,664,279$ | $\$ 17,142,426$ | $28.19 \%$ |
| 2008 | $\$ 300,115,774$ | $\$ 290,170,300$ | $\$ 9,945,474$ | $3.31 \%$ |
| $\mathbf{2 0 0 9}$ | $\$ 233,025,910$ | $\$ 224,480,500$ | $\$ 8,545,410$ | $3.67 \%$ |

| 2011 | $\$ 35,257,000$ | $\$ 31,010,100$ | $\$ 4,246,900$ | $12.05 \%$ |
| PD | $\$ 33,487,000$ | $\$ 28,964,400$ | $\$ 4,522,600$ | $13.51 \%$ |
| Total | $\$ 752,917,389$ | $\$ 705,640,879$ | $\$ 47,276,510$ | $\mathbf{6 . 2 8 \%}$ |

Note:

1. Based on ACHD's estimate, $25 \%$ of the total cost of projects with pedestrian and bikeway component was calculated as the share of alternative modes.
2. Projects that do not have a specified funding source and projects that are neutral to roadway/alternative mode classification are not included in this calculation.

# FY 2007-2011 Transportation Improvement Program Northern Ada County: Summary Project List 

## 8th Street School Sidewalks

To construct new seven (7) foot wide sidewalks on the east and west side of West 8th Street. Connect an existing pedestrian pathway to the new sidewalk. Install cross-walk with in-pavement flashers at the Meridian Middle School at a safe location that connects with the new sidewalk and pedestrian pathway. Install Americans with Disabilities Act (ADA) compliant curb ramps at the Cherry Lane intersection and other locations where necessary.

Requesting Agency: ACHD
Funding Source: STP-E
Last Funding Year: 2010

| Local Share: | $\$ 17,760$ |
| :--- | ---: |
| Federal Share: | $\$ 278,240$ |

Allumbaugh Street Railroad Crossing, Boise

Treasure Valley Truck Freight Travel Study
Key \#:
09825
Provide data for future transportation air quality planning efforts in the Treasure Valley. Collected information could include at a minimum the origin and destination locations for goods movement; type/weight of load; frequency of trips; other modes involved in shipment; preferred route data, if the destination is within the Treasure Valley; and the method of delivery.
