</table>

### Safety
How safe and comfortable is the nearest major road (minor arterial or above) for bicyclists and pedestrians? Analysis is limited to existing roadway conditions.

- **Cherry Lane**
  - Pedestrian level of stress: [x]
  - Bicycle level of stress: [x]

### Economic Vitality
To what extent does the project enable people, government, and businesses to prosper?
- Economic Activity Center Access: [✓]
- Impact on Existing Surrounding Farmland: [✓]
- Net Fiscal Impact: [✓]

### Convenience
What services are available within 0.5 miles (green) or 1 mile (yellow) of the project?
- Nearest bus stop: [✓]
- Nearest public school: [x]
- Nearest public park: [✓]

### Quality of Life
Checked boxes indicate that additional information is attached.
- Active Transportation
- Automobile Transportation: [✓]
- Public Transportation
- Roadway Projects: [✓]

### Comments:
The site is currently served by bus route 40, 42, and 45. Increasing frequency on the Cherry Lane/Fairview Avenue Route is the number 1 unfunded public transportation priority in Communities in Motion 2050. The densities proposed support current and future transit in the area.

Consider including a connection for vehicles and/or pedestrians to East Monroe Street to improve connectivity.

### Who we are:
The Community Planning Association of Southwest Idaho (COMPASS) is the metropolitan planning organization for Ada and Canyon Counties. This review evaluates whether land developments are consistent with Communities in Motion, the regional long-range transportation plan for Ada and Canyon Counties. This checklist is not intended to be prescriptive, but rather a guidance document. Past checklists are available online. See the Development Review User Guide for more information on the red, yellow, and green checklist thresholds.

Complete Network Appendix

Checkmarks (✓) below indicate suggested changes to a site plan, based on the COMPASS Complete Network Policy (No. 2022-01). Both the Complete Network Policy and site-specific suggestions are intended to better align land use with identified transportation uses in the corridor. Please see the Complete Network map for primary and secondary uses for roadways (minor arterial and above) in Ada and Canyon Counties.

<table>

<td>Primary Use:</td>
<td>Public Transportation</td>
</tr>
<tr>
<td>Secondary Use:</td>
<td>Freight</td>
</tr>
</tbody>
</table>

Access Management

✓ Provide more access on lower functionally classified roads, such as collectors, and less on arterials, to facilitate efficient and safe through movement
**Fiscal Impact Analysis**

Below are the expected revenues and costs to local governments from this project. The purpose of this analysis is to help the public, stakeholders, and the decision-makers better manage growth.

Capital and operating expenditures are determined based on service and infrastructure needs, including persons per household, student generation rates, lot sizes, street frontages, vehicle trip and trip adjustment factors, average trip lengths, construction values, income, discretionary spending, and employment densities.

### Net Fiscal Impact by Agency

- City
- County
- Highway District
- School District

Breakeven point across all agencies: 1 year

Disclaimer: *This tool only looks out 20 years and does not include replacement costs for infrastructure, public utilities, or unfunded transportation needs in the project area. More information about the COMPASS Fiscal Impact Tool is available at: [www.compassidaho.org/prodserv/fiscalimpact.htm](http://www.compassidaho.org/prodserv/fiscalimpact.htm)*
Long-Term Funded and Unfunded Capital Projects

CIM Priority Corridor: Can Ada Road (Birch Lane to Ustick Road) & Cherry Lane (Middleton Road to Black Cat Road)

Widening Can Ada Road (Birch Lane to Ustick Road) to five lanes is identified as a long term funded project in Communities in Motion 2050. Please also note that, widening Cherry Lane (Middleton Road to Black Cat Road) to five lanes is the number 2 unfunded local system priority in Communities in Motion 2050.

More information on transportation needs and projects based on forecasted future growth is available at: https://cim2050.compassidaho.org/projects-and-priorities/project-priorities/

Short-Term Funded Capital Projects

Source: The COMPASS Transportation Improvement Program (TIP). The TIP is a short-range (seven-year) budget of transportation projects for which federal funds are anticipated, along with non-federally funded projects that are regionally significant and is available at: https://www.compassidaho.org/documents/prodserv/trans/FY22/FY23_29TIPdoc.pdf
