

INTERAGENCY CONSULTATION COMMITTEE (ICC)
May 11, 2021 – 8:30 AM
ZOOM CONFERENCE CALL

****AGENDA****

I. CALL TO ORDER (8:30)

II. OPEN DISCUSSION/ANNOUNCEMENTS

III. CONSENT AGENDA

Page 2 *A. Approve June 23, 2020 Meeting Minutes

IV. ACTION ITEM

8:35 **A. Confirm 2021 Chair and Vice Chair**

Per the [ICC Bylaws](#) the positions of Chair and Vice Chair rotate annually serving a one year term. ICC will be asked to confirm the following:

1) Valley Regional Transit (VRT) as Chair

2) Ada County Highway District (ACHD) representative as Vice Chair

**Mary Ann
Waldinger**

V. INFORMATION/DISCUSSION ITEMS

8:40 *A. Review Regional Emissions Analysis Assumptions for the
Page 4 Draft FY2022-2028 Regional Transportation Improvement
Program (TIP)

**Mary Ann
Waldinger**

9:00 *B. Review Draft Project List for the Draft FY2022-2028
Page 6 Regional Transportation Improvement Program (TIP)

**Mary Ann
Waldinger**

9:15 **C. Agency Updates**

ICC members are welcome to provide updates and share information on items pertaining to air quality.

VI. OTHER

A. Next Meeting: June 22, 2021

VII. ADJOURNMENT (9:30)

*Enclosures will be sent 14 days in advance.

Times are approximate. Agenda is subject to change.

T:\FY21\800 System Maintenance\820 Committee Support\ICC\05112021\1Agenda_51121.docx

**INTERAGENCY CONSULTATION COMMITTEE
JUNE 23, 2020
COMMUNITY PLANNING ASSOCIATION**

****MINUTES****

ATTENDEES:

Beth Baird, City of Boise, via telephone
Edinson Bautista, Ada County Highway District, via telephone
Scott Frey, Federal Highway Administration, via telephone
Stephen Hunt, Valley Regional Transit, **Vice Chair**, via telephone
Karl Pepple, Environmental Protection Agency – Region X, via telephone
Kimi Smith, Department of Environmental Quality, via telephone
Michael Toole, Department of Environmental Quality, via telephone
Greg Vitley, Idaho Transportation Department – District 3, **Chair**, via telephone
MaryAnn Waldinger, COMPASS, via telephone

OTHERS PRESENT:

Morgan Andrus, COMPASS, via telephone
David Coladner, ITD Headquarters, via telephone
Aislinn Johns, Department of Environmental Quality, via telephone

CALL TO ORDER:

Vice Chair Stephen Hunt called the meeting to order at 8:35 a.m.

OPEN DISCUSSION/ANNOUCEMENTS/INTRODUCTIONS

General announcement were made.

CONSENT AGENDA

A. Approve May 14, 2020, Meeting Minutes

Greg Vitley moved and Mary Ann Waldinger seconded approval of the Consent Agenda as presented. Motion passed unanimously.

Regional Conformity Analysis year discussion: as discussed at the May 14 ICC meeting and confirmed at the June 23 ICC meeting the analysis years for conformity were reduced from four (2021, 2025, 2030 and 2040) to three (2023, 2030 and 2040).

2023 which is the last Motor Vehicle Emission Budget (MVEB) provided in the SIP (*Northern Ada County PM₁₀ State Implementation Plan, Maintenance Plan: Ten-Year Update*). In the past, COMPASS ran analysis years for the first and fifth year of the TIP but when one of these years did not coincide with a MVEB year the emissions were “interpolated”.

Upon further discussion with ICC, COMPASS staff will develop the appropriate travel demand model inputs for 2023 and conduct regional conformity analysis for that year. The year 2023 will also be used to conduct the CO build/no-build analysis for local planning purposes per the CO LMP (*Northern Ada County Air Quality Maintenance Area Second 10-Year Carbon Monoxide Limited Maintenance Plan*).

ACTION ITEMS

A. Approve Regional Emissions Analysis Assumptions for the Draft FY2021-2027 Regional Transportation Improvement Program (TIP)

MaryAnn Waldinger presented the Regional Emissions Analysis Assumptions for the Draft FY2021-2027 TIP.

After discussion, **Stephen Hunt moved and Beth Baird seconded approval of the Regional Emissions Analysis Assumptions for the Draft FY2021-2027 TIP as presented. Motion passed unanimously.**

B. Approve Project List for the Draft FY2021-2027 Regional Transportation Improvement Program (TIP)

MaryAnn Waldinger presented the project list for the Draft FY2021-2027 TIP.

After discussion, **Stephen Hunt moved and Edinson Bautista seconded approval of the project list for the Draft FY2021-2027 TIP with the following corrections noted: Page 9, No. 10: State Hwy 55 (Eagle Rd.) - Change Federally Funded from Yes* to No. Page 10, No. 15: Maple Grove Rd - Change Construction Year from 2022 to 2024 and Network Year to 2025. Page 10, No. 16: Orchard St. Realigned - Change Construction Year from 2023 to 2024, and the Network Year to 2025, with the flexibility to make changes. Motion passed unanimously.**

INFORMATION/DISCUSSION ITEM

A. Agency Updates

General updates were provided.

Next Meeting: July 14, 2020

ADJOURNMENT

Chair Greg Vitley adjourned the meeting at 9:19 a.m.

T:\FY20\800 System Maintenance\820 Committee Support\ICC\Minutes\Minutes06232020.docx

INTERAGENCY CONSULTATION COMMITTEE AGENDA ITEM V-A

Date: May 11, 2021

Topic: Review Regional Emissions Analysis Modeling Assumptions for the Draft FY2022-2028 Regional Transportation Improvement Program (TIP)

Request/Recommendation:

COMPASS staff seeks review of the regional emissions analysis modeling assumptions for use in the air quality conformity demonstration in the draft FY2022-2028 TIP.

Background/Summary:

The Interagency Consultation Committee is required to review and approve the assumptions and emissions estimation methodologies used in regional emissions analyses. The assumptions provided in Attachment 1 reflect updates for MOVES2014b, released August 2018, and are based on the completion of the 2017 National Emissions Inventory project. These analyses are conducted for transportation conformity purposes per state and federal regulations.

Any TIP or long-range transportation plan that includes projects in northern Ada County must demonstrate conformity with the motor vehicle emissions budgets for particulate matter 10 microns or less in diameter (PM₁₀), nitrogen oxides (NO_x), and volatile organic compounds (VOCs) established in the *Northern Ada County PM10 State Implementation Plan, Maintenance Plan: Ten-Year Update* (SIP).

Budget tests will be performed for:

- 2023: Last motor vehicle emission budget year of the SIP
- 2030: Intermediate analysis year, as there can be no more than 10 years between analysis years
- 2040: Horizon year for the regional long-range transportation plan (*Communities in Motion 2040 2.0*)

A regional emissions analysis is not federally required for carbon monoxide (CO). However, the *Northern Ada County Air Quality Maintenance Area Second 10-Year Carbon Monoxide Limited Maintenance Plan* requires that COMPASS conduct a build/no build emissions analysis for local planning purposes. The **year 2023** will be used to conduct the CO build/no-build analysis.

More Information

- 1) Attachment 1: Regional Emission Analysis Modeling Assumptions
- 2) For detailed information contact: MaryAnn Waldinger, Principal Planner

MW: T:\FY21\800 System Maintenance\820 Committee Support\ICC\05112021\3Memo Draft REA.docx

Regional Emission Analysis Modeling Assumptions

<p><u>Model Designated for On-Road Emissions Modeling</u> United States Environmental Protection Agency's (EPA) Motor Vehicle Emissions Simulator 2014 (MOVES2014b, released August 2018)</p>
<p><u>Source type population and fleet age distribution:</u> DEQ decoded individual Idaho Division of Motor Vehicles (DMV) registration records of vehicles registered in the Treasure Valley using the Data One, Inc. and CVINA vehicle identification number (VIN) decoding system. The decoded VINs provide information regarding the vehicle make, model, type, age, and fuel types. This information was then used to develop source-related MOVES input.</p>
<p><u>Inspection Maintenance Program – June 1, 2010 - future</u> Ada County:</p> <ol style="list-style-type: none"> 1) Two speed test (idle and 2500 RPM) for pre 1996 vehicles only. 2) Exhaust OBD check for 1996 and newer vehicles. 3) Evaporative system OBD check for 1996 and newer vehicles. 4) Compliance Factor – This factor is calculated annually from the previous year's IM program statistics. 5) Four-year grace period for new vehicles 6) Biennial testing – effective January 1, 2010. <p>Canyon County:</p> <ol style="list-style-type: none"> 1) Two speed test (idle and 2500 RPM) for pre 1996 vehicles only. 2) Evaporative gas cap check for 1996 and newer vehicles. 3) Exhaust OBD check for 1996 and newer vehicles. 4) Evaporative system OBD check for 1996 and newer vehicles. 5) Compliance Factor – This factor is calculated annually from the previous year's IM program statistics. 6) Five-year grace period for new vehicles 7) Biennial testing – effective January 1, 2010.
<p><u>Meteorology</u> The meteorology input compiles the average hourly temperature and relative humidity data for each county. Base- and future-year inventories were modeled using average hourly temperature and relative humidity data by county for each month from a representative weather station for each county. Ada County is represented by the National Weather Service station at the Boise Air Terminal and Canyon County is represented by the data set from the Caldwell Industrial Airport.</p>
<p><u>Fuel-Related Inputs</u> Alternative Vehicle Fuels and Technology (AVFT): Ada and Canyon Counties were modeled using a custom AVFT input file derived from VIN-decoded registration data, the Idaho Department of Education school bus database, and telephone surveys of local garbage collection and public transportation providers. Fuel Supply, and Fuel Formulation: National default fuel supply inputs were used for all source types. Fuel Usage Fractions: Assume that all E-85 capable vehicles are using conventional (E10) gasoline</p>
<p><u>Average Speed Distribution</u> The average speed distribution allocates the different source types (vehicles) for each roadway type to 16 speed bins ranging from 0 to >75 miles per hour. Average speed distributions were developed from the regional travel demand model average daily estimates or forecasts for each roadway segment and hourly traffic count statistics developed from detailed automatic traffic recorder (ATR) traffic count data provided by Idaho Transportation Department (ITD).</p> <p>The hourly ATR-based traffic count profiles for each roadway type were used to estimate hourly volume on each segment and the modified Bureau of Public Roadways volume/capacity curve was used to develop the average speed distribution database for each hour.</p> $\text{Hourly Vehicle Speed} = \text{Free Flow Speed} * \left(1 + A * \left(\frac{\text{Volume}}{\text{Capacity}} \right)^B \right)$ <p>Where A and B are local coefficients used in the regional travel demand model as provided by COMPASS.</p> <p>Base- and future-year average speed distributions were developed for all four MOVES road types using travel demand model base and future-year outputs developed by COMPASS for the Treasure Valley and detailed ATR data provided by ITD.</p>

INTERAGENCY CONSULTATION COMMITTEE AGENDA ITEM V-B

DATE: May 11, 2021

Topic: Draft Project List for the Draft FY2022-2028 Regional Transportation Improvement Program (TIP)

Request/Recommendation:

COMPASS staff seeks review of the draft project list for use in the air quality conformity demonstration for the draft FY2022-2028 TIP.

Background/Summary:

Any TIP or long-range transportation plan that includes projects in northern Ada County must demonstrate conformity with the motor vehicle emissions budgets established in the *Northern Ada County PM₁₀ State Implementation Plan, Maintenance Plan: Ten-Year Update*. The Interagency Consultation Committee is required to review and approve the list of transportation projects included in the air quality conformity demonstration.

COMPASS staff prepared the list of projects (attached) to make up the "build" travel demand model networks for use in the conformity demonstration for northern Ada County in the draft FY2022-2028 TIP. The model networks are based on the most up-to-date information available, and include programmed and planned funded projects listed in the following reports:

- Ada County Highway District's (ACHD's) 2020 Capital Improvement Plan
- ACHD's FY2021-2025 Integrated Five-Year Work Program
- Valley Regional Transit's planned service changes implemented in October 2020 and planned for October 2021
- Draft FY2022-FY2028 Idaho Transportation Investment Program
- Draft FY2022-FY2028 Regional Transportation Improvement Program
- Final CIM 2040 2.0 long range transportation plan approved by the COMPASS Board of Directors on December 17, 2018, and amended on October 19, 2020

Note: A regional emissions analysis is not federally required for carbon monoxide (CO). However, *Northern Ada County Air Quality Maintenance Area Second 10-Year Carbon Monoxide Limited Maintenance Plan* requires COMPASS to conduct a build/no build emissions analysis for local planning purposes. The same "build" networks are used to estimate the motor vehicle emission estimates for the regional emissions analysis and CO "build" analysis.

More Information

- 1) Attachment: Draft Project List
- 2) For detailed information contact: MaryAnn Waldinger, Principal Planner
mwaldinger@compassidaho.org.

MW: T:\FY21\800 System Maintenance\820 Committee Support\ICC\05112021\4Memo Draft Project List.docx

Attachment 1: Draft Project List
For the FY2022-2028 Regional Transportation Improvement Program (TIP)
Regional Emissions Analysis Model Networks
As of April 20, 2021

All projects listed are included in the travel demand model networks regardless of their regionally significant status, functional classification and / or funding source for construction. All information below is subject to change as more information becomes available about projects anticipated for future funding.

Current Network: Public Transportation

The following table lists the Valley Regional Transit (VRT) route changes implemented in 2020 or planned for 2021 that can be reflected in the regional model network. Projects 2 through 6 were reflected in the model for the conformity analysis conducted in 2020 for the FY2021 – 2027 TIP and are listed here for information only. Additional details about the changes are available on [VRT's website](#).

No.	Route Name	Description	Source	Key # (ITIP, IFYWP, CIP)	Reasons for Inclusion in Regional Conformity			Implementation Year
					Regionally Significant	Functional Class	Federally Funded	
1.	New Meridian Route	New fixed route service in Meridian mainly along Pine Ave. from Ten Mile Rd. and Franklin Rd. to River Valley St. and Records Ave. (a.k.a. The Village)	VRT	n.a.	No	n.a	No	October 2021
2.	Route 1:ParkCenter	New route pathway on Parkcenter Blvd. No longer provides service on Apple St. Bown Way and Boise Ave.	VRT	n.a.	No	n.a	No	October 2020
3.	Route 2:Broadway	New route pathway on Front St. No longer provides service on Idaho St.	VRT	n.a.	No	n.a	No	October 2020
4.	Route 4:Roosevelt	New route pathway on River St. No longer travels on 13 th St. and Shoreline Dr.	VRT	n.a.	No	n.a	No	October 2020
5.	Route 9: State Street	Additional limited service to the City of Eagle by providing four trips in the morning and three trips in the evening.	VRT	n.a.	No	n.a	No	October 2020
6.	Routes 51, 52 and 55 Nampa and Caldwell	These routes are closed. Service in Nampa and Caldwell was switched from fixed-route to on-demand service (150 VRT OnDemand).	VRT	n.a.	No	n.a	No	October 2020

Current Network: Roadways

The following table lists the transportation projects recently completed or under construction. Projects under construction are expected to be open to the motoring public by December 31, 2021.

No.	Street Name	Location	Description	Source	Key # (ITIP, IFYWP, CIP)	Reasons for Inclusion in Regional Conformity			Construction Year
						Regionally Significant	Functional Class	Federally Funded	
7.	Eagle Rd.	Amity Rd. to Victory Rd.	Widen roadway from 2 lanes to 5 lanes	IFYWP, 2020 CIP, CIM 2040 2.0	RD2020- 0350	Yes	principal arterial	No	2021
8.	Maple Grove Rd.	Victory Rd. to Overland Rd.	Widen roadway from 2 lanes to 5 lanes	IFYWP, 2020 CIP	RD2020- 0930	No	minor arterial	No	2021
9.	State Hwy 55 (Eagle Rd.)	Southbound River Valley Rd. to Franklin Rd.	Widen southbound from 2 lanes to 3 lanes	ITIP	13349	Yes	principal arterial	No	2021
10.	US Hwy 20/26	Linder Rd. to Meridian Rd.	Widen roadway from 2 lanes to 4 lanes	Draft TIP, CIM 2040 2.0	20594	Yes	principal arterial	Yes*	2021
11.	US Hwy 20/26	Meridian Rd. to Locust Grove Rd.	Widen roadway from 2 lanes to 4 lanes	Draft TIP, CIM 2040 2.0	20594	Yes	principal arterial	Yes*	2021

2023 Network: Roadways

The 2023 network uses 2023 demographics and includes the current construction year network and the following list of projects. The 2023 network is built for use in the motor vehicle emissions budget test for PM₁₀, VOC, and NO_x, and the CO build/no build emissions analysis for local planning purposes.

No.	Street Name	Location	Description	Source	Key # (ITIP, IFYWP, CIP)	Subject to Regional Emissions Analysis			Construction Year
						Regionally Significant	Functional Class	Federally Funded	
12.	Eagle Rd.	Lake Hazel Rd. to Amity Rd.	Widen roadway from 2 lanes to 5 lanes	Draft IFYWP, 2020 CIP CIM 2040 2.0	RD2020-0340	Yes	principal arterial	No	2023
13.	Fairview Ave.	Locust Grove Rd. to State Hwy 55 (Eagle Rd.)	Widen roadway from 5 lanes to 7 lanes	Draft IFYWP, 2020 CIP, CIM 2040 2.0	RD2020-0420	Yes	principal arterial	No	2023
14.	Locust Grove Rd.	Victory Rd. to Overland Rd.	Widen roadway from 2 lanes to 5 lanes	Draft IFYWP, 2020 CIP	RD2020-0870	No	minor arterial	No	2022
15.	State Hwy 44	State Hwy 16 to Linder Rd.	Widen roadway from 2 lanes to 4 lanes	Draft TIP, CIM 2040 2.0	20266	Yes	principal arterial	Yes*	2023
16.	Ten Mile Rd.	Victory Rd. to Overland Rd.	Widen roadway from 2 lanes to 5 lanes	Draft IFYWP, 2020 CIP CIM 2040 2.0	RD2020-1310	Yes	principal arterial	No	2022/23

Yes*: Previous phases funded with federal dollars.

2025 Network: Roadways

The 2025 network uses 2025 demographics and includes the construction year networks for the current year and 2023 and the following list of projects. **This list is for information and the network is built for planning purposes only.**

No.	Street Name	Location	Description	Source	Key # (ITIP, IFYWP, CIP)	Subject to Regional Emissions Analysis			Construction Year
						Regionally Significant	Functional Class	Federally Funded	
17.	Cloverdale Rd.	Amity Rd. to Victory Rd.	Widen roadway from 2 lanes to 5 lanes	Draft IFYWP, 2020 CIP	RD2020-0270	No	minor arterial	No	2025
18.	Cloverdale Rd.	Victory Rd. to Overland Rd.	Widen roadway from 2 lanes to 5 lanes	Draft IFYWP, 2020 CIP	RD2020-0280	No	minor arterial	No	2025
19.	Lake Hazel Rd.	Eagle Rd. to Cloverdale Rd.	Widen roadway from 2 lanes to 5 lanes	Draft IFYWP, 2020 CIP, CIM 2040 2.0	RD2020-0700	Yes	principal arterial	No	2024
20.	Lake Hazel Rd.	Cloverdale Rd. to Five Mile Rd.	Widen roadway from 2 lanes to 5 lanes	Draft IFYWP, 2020 CIP, CIM 2040 2.0	RD2020-0710	Yes	principal arterial	No	2025
21.	Linder Rd.	State Hwy 44 (State St.) to Floating Feather Rd.	Widen roadway from 2 lanes to 5 lanes	Draft IFYWP, 2020 CIP	RD2020-0850	Yes	principal arterial	No	2024
22.	Maple Grove Rd.	Amity Rd. to Victory Rd.	Widen roadway from 2 lanes to 5 lanes	Draft IFYWP, 2020 CIP	RD2020-0920	No	minor arterial	No	2024
23.	Orchard St. Realigned	Gowen Rd. to I-84 Interchange	Realign and widen from 2 lanes to 5 lanes	Draft IFYWP, 2020 CIP, CIM 2040 2.0	RD2020-1100	Yes	principal arterial	No	2024
24.	State Hwy 44	Star Rd. to State Hwy 16	Widen roadway from 2 lanes to 4 lanes	Draft TIP, CIM 2040 2.0	20574	Yes	principal arterial	Yes*	2024

IFYWP = Ada County Highway District’s Integrated Five Year Work Plan FY2021-2025 and FY2022-2026 draft
CIP = ACHD’s Capital Improvements Plan FY 2020-2040
ITIP = draft FY2022-FY2028 Idaho Transportation Investment Program
TIP = draft FY2022-FY2028 Regional Transportation Improvement Program list
CIM 2040 2.0 long range transportation plan approved by the COMPASS Board on December 17, 2018.

FYWP #/ITD Key #:

FYWP# = ACHD GIS Numbers are alpha numeric identification numbers (ex. RD169)
ITD Key# = ITD Key Numbers are from the Transportation Improvement Program and the State Transportation Improvement Program and are strictly numeric (ex. 6299)

Regionally Significant Roadway Project Definition:

Regional emissions analyses, for the purposes of demonstrating transportation conformity of a TIP or long-range plan, must include all regionally significant and/or federally funded projects in the nonattainment or maintenance area. On January 30, 2002, the ICC developed the following definition of a “Regionally Significant” project:

"A transportation project in Ada County, Idaho is designated 'Regionally Significant' if:

- (a) the project is for the improvement of either:
 - (i) a principal arterial or higher functional classification; or
 - (ii) a minor arterial which will have a twenty (20) year projected traffic volume of at least 45,000 vehicles a day after completion of the project; and
- (b) the project will add at least one new continuous vehicular lane which either:
 - (i) extends from one intersecting principal or minor arterial to another intersecting principal or minor arterial; or
 - (ii) in the case of an interstate, extends from the on ramp of one interstate interchange to a point beyond the off ramp of the next adjacent interstate interchange."

Regionally Significant Transit Project Definition

On August 31, 2005, the ICC adopted the following definition of a “Regionally Significant” transit project:

A transit project in Ada County, Idaho is designated “Regionally Significant” if the transit project:

- (a) has the potential to change the vehicle demand of an existing roadway classified as a principal arterial or higher by 400 vehicles per hour, or 4,000 vehicles per weekday; and
- (b) is a transit service or facility that provides services to (or connects) at a minimum:
 - (i) two counties and;
 - (ii) three incorporated cities

Despite these definitions, the ICC maintains discretionary authority in interpreting and applying them to the area’s transportation programs, plans, and projects. For the purposes of this conformity determination, all applicable roadway projects, despite their significance, were included in the travel demand model networks.

Exempt projects:

Pursuant to 40CFR93.126 (Exempt Projects), certain projects listed in a long-range transportation plan or TIP may proceed even in the absence of a conformity finding/demonstration. Exempt projects include highway safety or mass transit projects, landscaping projects, roadway rehabilitation and repair, transportation enhancement projects, and transportation planning activities that do not lead directly to construction.

Pursuant to 40CFR93.127 (Exempt Projects from the Regional Emissions Analyses), certain projects listed in a long-range transportation plan or TIP may proceed even in the absence of a conformity finding/demonstration. Exempt projects include intersection channelization or signalization at individual intersections, interchange reconfiguration, changes in vertical and horizontal alignment, truck size and weight stations, bus terminals and transfer points.

However, the exempt projects listed in 40CFR93.126 or 40CFR93.127 are not considered exempt if the ICC concludes that they may have an adverse impact on air quality or has potential regional impacts.

Status:

Based on project information provided by ITD or ACHD.

The regional model covers two counties – Ada and Canyon. The projects in Ada and Canyon County are included in the appropriate model network year. Air quality conformity is required for only northern Ada County therefore, only the projects within Ada County are listed above.
