

Communities in Motion 2040 2.0 Development Review

The Community Planning Association of Southwest Idaho (COMPASS) is the metropolitan planning organization (MPO) for Ada and Canyon Counties. COMPASS has developed this review as a tool for local governments to evaluate whether land developments are consistent with the goals of *Communities in Motion 2040 2.0* (CIM 2040), the regional long-range transportation plan for Ada and Canyon Counties. This checklist is not intended to be prescriptive, but rather a guidance document based on CIM 2040 2.0 goals.

Development Name: Pheasant Heights

Agency: Middleton

CIM Vision Category: Existing Neighborhoods

New households: 137

New jobs: 0

Exceeds CIM forecast: No

| | | |
|--|--|--|
|  | <p>CIM Corridor: None Pedestrian level of stress: N/A Bicycle level of stress: N/A</p> | <p>Level of Stress considers facility type, number of vehicle lanes, and speed. Roads with G or PG ratings better support bicyclists and pedestrians of all ages and comfort levels.</p> |
|  | <p>Housing within 1 mile: 530 Jobs within 1 mile: 180 Jobs/Housing Ratio: 0.3</p> | <p>A good jobs/housing balance – a ratio between 1 and 1.5 – reduces traffic congestion. Higher numbers indicate the need for more housing and lower numbers indicate an employment need.</p> |
|  | <p>Nearest police station: 1.8 miles Nearest fire station: 2.7 miles</p> | <p>Developments within 1.5 miles of police and fire stations ensure that emergency services are more efficient and reduce the cost of these important public services.</p> |
|  | <p>Farmland consumed: Yes Farmland within 1 mile: 1,094 acres</p> | <p>Farmland contributes to the local economy, creates additional jobs, and provides food security to the region. Development in farm areas decreases the productivity and sustainability of farmland.</p> |
|  | <p>Nearest bus stop: >4 miles Nearest public school: 0.1 miles Nearest public park: 2.1 miles Nearest grocery store: >4 miles</p> | <p>Residents who live or work less than ½ mile from critical services have more transportation choices. Walking and biking reduces congestion by taking cars off the road, while supporting a healthy and active lifestyle.</p> |

Recommendations

The site plan shows vehicular access onto Emmett Road. Emmett road is identified in the *Middleton Connects 2015 City Vision Map* as having a micro path in the future. Given the project's proximity to Middleton High School, consider a safe pedestrian crossing of Emmet Road.

The closest transit stop is about 2-miles away at the Middleton Fine Arts Park and Ride location. The *ValleyConnect 2.0 Growth Scenario* proposes future service at this location with an express route from Happy Day Transit Center to St. Luke's in Meridian, via Hwy-44, with 30-minute frequencies.

Fiscal Impact Analysis Supplemental for the Development Review Checklist

The purpose of the fiscal impact analysis is to better estimate expected revenues and costs to local governments as a result of new development so that the public, stakeholders, and the decision-makers can better manage growth. Capital and operating expenditures are determined by various factors that determine service and infrastructure needs, including persons per household, student generation rates, lot sizes, street frontages, vehicle trip and trip adjustment factors, average trip lengths, construction values, income, discretionary spending, and employment densities.

The COMPASS Development Checklist considers the level of fiscal benefits, how many public agencies benefit or are burdened by additional growth, and how long the proposal will take to achieve a fiscal break-even point, if at all. More information about the COMPASS Fiscal Impact Tool is available at: www.compassidaho.org/prodserv/fiscalimpact.htm.
