

Communities in Motion 2040 Development Review

The Community Planning Association of Southwest Idaho (COMPASS) is the metropolitan planning organization (MPO) for Ada and Canyon Counties. COMPASS has developed this review as a tool for local governments to evaluate whether land developments are consistent with the goals of *Communities in Motion 2040 (CIM 2040)*, the regional long-range transportation plan for Ada and Canyon Counties. This checklist is not intended to be prescriptive, but rather a guidance document based on *CIM 2040 goals*.

Development Name: Prescott (RZ2018-0009)

Agency: Canyon County

CIM Vision Category: Future Neighborhoods

New households: TBD

New jobs: TBD

Exceeds CIM forecast: TBD

	<p>CIM Corridor: US 20-26 Pedestrian level of stress: R—US 20-26 Bicycle level of stress: R—US 20-26</p>	<p>Level of Stress considers facility type, number of vehicle lanes, and speed. Roads with G or PG ratings better support bicyclists and pedestrians of all ages and comfort levels.</p>
	<p>Housing within 1 mile: 53 Jobs within 1 mile: 28 Jobs/Housing Ratio: 0.5</p>	<p>A good jobs/housing balance – a ratio between 1 and 1.5 – reduces traffic congestion. Higher numbers indicate the need for more housing and lower numbers indicate an employment need.</p>
	<p>Nearest police station: >4 miles Nearest fire station: 4 miles</p>	<p>Developments within 1.5 miles of police and fire stations ensure that emergency services are more efficient and reduce the cost of these important public services.</p>
	<p>Farmland consumed: Yes Farmland within 1 mile: 1,729 acres</p>	<p>Farmland contributes to the local economy, creates additional jobs, and provides food security to the region. Development in farm areas decreases the productivity and sustainability of farmland.</p>
	<p>Nearest bus stop: >4 miles Nearest public school: 3.0 miles Nearest public park: >4 miles Nearest grocery store: 3.3 miles</p>	<p>Residents who live or work less than ½ mile from critical services have more transportation choices. Walking and biking reduces congestion by taking cars off the road, while supporting a healthy and active lifestyle.</p>

Recommendations

The proposal fronts US 20-26, which is the #3 priority in the *Communities in Motion 2040* plan. US 20-26 serves as one of a few east-west roadways that stretch from Caldwell to Boise. It is an alternate to I-84, which makes it a vital transportation route, supporting more regional travel in the Treasure Valley than any other arterial roadway. Consider restricting access to local roads, rather than direct vehicular access to US 20-26. This access management strategy will help maintain efficiency on the US 20-26 corridor and promote multimodal safety. More information about US 20-26 is available at:

Work with the Idaho Transportation Department to ensure sufficient setback for the future expansion of US 20-26.

This location is still in a largely farmland area. Nearby services, such as schools, parks, emergency services, grocery, and other stores are likely accessed only by vehicle and there are no plans for public transportation to this location.
