</thead>
<tbody>
<tr>
<td><strong>CIM Vision Category:</strong></td>
<td>Future Neighborhood</td>
</tr>
<tr>
<td>Consistent with <strong>CIM Vision?</strong></td>
<td>YES</td>
</tr>
<tr>
<td>New Households:</td>
<td>493</td>
</tr>
<tr>
<td>New Jobs:</td>
<td>±220</td>
</tr>
</tbody>
</table>

**Safety**
How safe and comfortable is the nearest major road (minor arterial or above) for bicyclists and pedestrians? Analysis is limited to existing roadway conditions.

- **State Highway 44 (West State Street)**
  - Pedestrian level of stress: Not indicated
  - Bicycle level of stress: Not indicated

**Economic Vitality**
To what extent does the project enable people, government, and businesses to prosper?

- Economic Activity Center Access: Yes
- Impact on Existing Surrounding Farmland: Yes
- Net Fiscal Impact: Yes

**Convenience**
What services are available within 0.5 miles (green) or 1 mile (yellow) of the project?

- Nearest bus stop: Not indicated
- Nearest public school: Not indicated
- Nearest public park: Not indicated

**Quality of Life**
Checked boxes indicate that additional information is attached.

- Active Transportation: Not indicated
- Automobile Transportation: Yes
- Public Transportation: Yes
- Roadway Projects: Yes

**Comments:**
When developing the site plan for Phase 4 consider including a public multiuse pathway along the southern boundary, as shown in the City of Star’s *Pathways Master Plan*. To support future transit along State Street consider installing sidewalks that are wide enough to allow for passenger and wheelchair loading and unloading (72-84 inches).

**Who we are:** The Community Planning Association of Southwest Idaho (COMPASS) is the metropolitan planning organization for Ada and Canyon Counties. This review evaluates whether land developments are consistent with *Communities in Motion*, the regional long-range transportation plan for Ada and Canyon Counties. This checklist is not intended to be prescriptive, but rather a guidance document. Past checklists are available online. See the Development Review User Guide for more information on the red, yellow, and green checklist thresholds.

**Complete Network Appendix**

Checkmarks (✓) below indicate suggested changes to a site plan, based on the COMPASS Complete Network Policy (No. 2022-01). Both the Complete Network Policy and site-specific suggestions are intended to better align land use with identified transportation uses in the corridor. Please see the Complete Network map for primary and secondary uses for roadways (minor arterial and above) in Ada and Canyon Counties.

**Land Use to Support Public Transportation**

✓ Orient buildings toward potential transit corridors, with parking on the back side rather than the street side

The COMPASS-compiled catalog of Transit Oriented Developments in the Communities in Motion Implementation Guidebook provides examples of how higher-density development can integrate in existing neighborhoods.

**Public Transportation Infrastructure**

✓ Provide sidewalks and/or bike paths designed to meet the needs of all users (including elderly, children, and individuals with disabilities) to connect development to transit stops

✓ Include doors with 32 inches of clear passage space, and at least one zero-step entrance and accessible bathroom on the main floor to support those with limited mobility
**Fiscal Impact Analysis**

Below are the expected revenues and costs to local governments from this project. The purpose of this analysis is to help the public, stakeholders, and the decision-makers better manage growth.

Capital and operating expenditures are determined based on service and infrastructure needs, including persons per household, student generation rates, lot sizes, street frontages, vehicle trip and trip adjustment factors, average trip lengths, construction values, income, discretionary spending, and employment densities.

<table>
<thead>
<tr>
<th>Net Fiscal Impact by Agency</th>
</tr>
</thead>
<tbody>
<tr>
<td>City</td>
</tr>
<tr>
<td>Highway District</td>
</tr>
</tbody>
</table>

Breakeven point across all agencies: 16 years

**Additional Information:**

- City of Star fiscal impact is estimated to be positive prior to phase 4.
- The largest estimated expense to City of Star is law enforcement (50% of total expenses).
- Highway District fiscal impact is estimated to be positive in stabilization year (on-going impact), however capital costs to state highway system result in breakeven point beyond 20 years.

Disclaimer: *This tool only looks out 20 years and does not include replacement costs for infrastructure, public utilities, or unfunded transportation needs in the project area. More information about the COMPASS Fiscal Impact Tool is available at:*
