

Communities in Motion 2040 2.0 Development Review

The Community Planning Association of Southwest Idaho (COMPASS) is the metropolitan planning organization (MPO) for Ada and Canyon Counties. COMPASS has developed this review as a tool for local governments to evaluate whether land developments are consistent with the goals of *Communities in Motion 2040 2.0* (CIM 2040), the regional long-range transportation plan for Ada and Canyon Counties. This checklist is not intended to be prescriptive, but rather a guidance document based on CIM 2040 2.0 goals.

Development Name: Willow Wood Estates

Agency: Middleton

CIM Vision Category: Future Neighborhoods

New households: 63

New jobs: 0

Exceeds CIM forecast: No

	CIM Corridor: Purple Sage Road Pedestrian level of stress: R Bicycle level of stress: R	Level of Stress considers facility type, number of vehicle lanes, and speed. Roads with G or PG ratings better support bicyclists and pedestrians of all ages and comfort levels.
	Housing within 1 mile: 750 Jobs within 1 mile: 70 Jobs/Housing Ratio: 0.1	A good jobs/housing balance – a ratio between 1 and 1.5 – reduces traffic congestion. Higher numbers indicate the need for more housing and lower numbers indicate an employment need.
	Nearest police station: 2.3 miles Nearest fire station: 2.2 miles	Developments within 1.5 miles of police and fire stations ensure that emergency services are more efficient and reduce the cost of these important public services.
	Farmland consumed: Yes Farmland within 1 mile: 927 acres	Farmland contributes to the local economy, creates additional jobs, and provides food security to the region. Development in farm areas decreases the productivity and sustainability of farmland.
	Nearest bus stop: >4 miles Nearest public school: 1.1 miles Nearest public park: 1.3 miles Nearest grocery store: >4 miles	Residents who live or work less than ½ mile from critical services have more transportation choices. Walking and biking reduces congestion by taking cars off the road, while supporting a healthy and active lifestyle.

Recommendations

This proposal is on the fringe of the City of Middleton surrounded by farmland and removed from employment centers. Cemetery Road is identified in the *Middleton Connects 2015 City Vision Map* as having a Public Use Pathway and Bike Lane in the future. The Picadilly Park Park and Ride is approximately is about 2 miles away. This stop is not currently served, but *ValleyConnect 2.0* proposes future service at this location with an express route from Happy Day Transit Center to Saint Luke's regional hospital in Meridian, via Hwy-44, with 30-minute frequencies.

Fiscal Impact Analysis Supplemental for the Development Review Checklist

The purpose of the fiscal impact analysis is to better estimate expected revenues and costs to local governments as a result of new development so that the public, stakeholders, and the decision-makers can better manage growth. Capital and operating expenditures are determined by various factors that determine service and infrastructure needs, including persons per household, student generation rates, lot sizes, street frontages, vehicle trip and trip adjustment factors, average trip lengths, construction values, income, discretionary spending, and employment densities.

The COMPASS Development Checklist considers the level of fiscal benefits, how many public agencies benefit or are burdened by additional growth, and how long the proposal will take to achieve a fiscal break-even point, if at all. More information about the COMPASS Fiscal Impact Tool is available at: www.compassidaho.org/prodserv/fiscalimpact.htm.
