

***Communities in Motion 2050* Implementation Policies**

Regional policy statements help guide the implementation of *Communities in Motion 2050* (CIM 2050):

- Use anticipated available funding in Ada and Canyon Counties to strategically address regional priorities as identified in the regional long-range transportation plan as outlined in the [funding policy](#);
- [Coordinate](#) local plans for land use and transportation investments to implement the CIM 2050 Vision and goals;
- Incorporate the [Congestion Management Process](#) in project prioritization and funding considerations and continue to collect data to help implement appropriate congestion mitigation measures;
- Consider the COMPASS [Complete Network Policy](#) in transportation planning and funding decisions to promote appropriate design of transportation facilities for the needs of all users;
- Integrate equitable and sustainable practices in transportation and land use planning and decision-making;
- Employ a [grant program](#) and seek additional funding through competitive funding sources to assist agencies in finding innovative ways to implement CIM 2050;
- [Educate and actively engage](#) the public and stakeholders on best practices for implementing CIM 2050;
- Monitor, track, and [report on development activity](#) and changes to comprehensive plans and other related documents; and
- Consider the CIM 2050 Vision and goals when developing projects and tasks for the annual COMPASS [Unified Planning Work Program](#).
