

Leadership by Example, Ada County

Winner: Foundation for Ada-Canyon Trails System (FACTS), 1.5-mile greenbelt extension

Description:

The mission of FACTS is to close gaps on the Boise River greenbelt to create one continuous path, from Lucky Peak Dam to where the Boise River meets the Snake River.

In 2012, FACTS made a significant step toward meeting this goal by completing a 1.5 mile greenbelt extension from Garden City, west.

Through a grant from the Idaho Department of Parks and Recreation, and countless volunteer hours, FACTS was able to complete this trail extension, which will be enjoyed by residents and visitors for years to come.
