

Leadership by Example, Canyon County

Name of Project: Nampa Citywide Transportation Plan

Description: The City of Nampa is working on a citywide transportation plan. Although the plan is not finished, it has used innovative methods to gain input and support throughout the city. A website is developed and includes all information readily available. To date, there has been much citizen involvement from taking surveys and serving on the advisory committee to nominating project needs and ideas on how to make the corrections. The plan is considering every mode of travel, and will include alternative transportation options. This plan will definitely incorporate the goals of *Communities in Motion!* (Website: www.cityofnampa.us/transplan)
